

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

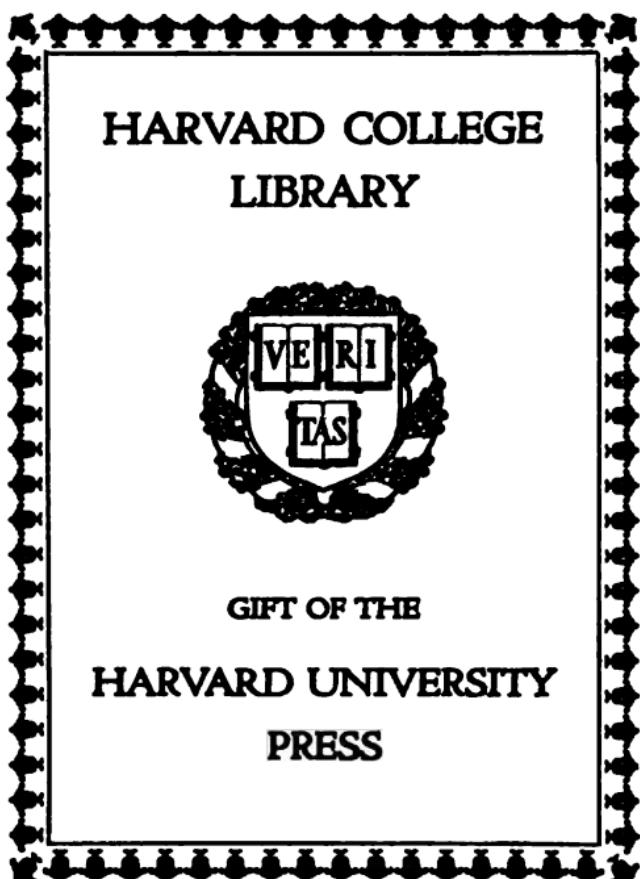

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

REQUISITES FOR ADMISSION.

CANDIDATES for admission to the Freshman Class are examined as follows:—

LATIN DEPARTMENT.

In the whole of Virgil,
The whole of Caesar's Commentaries,
Cicero's Select Orations, Folsom's or Johnson's edition,
Andrews and Stoddard's Latin Grammar, including Prosody,
And in writing Latin.

GREEK DEPARTMENT.

In Felton's Greek Reader, or the whole of the Anabasis of Xenophon and the first three books of the Iliad (omitting the Catalogue of Ships in the second book),

Sophocles's, Crosby's, or Hadley's Greek Grammar, including Prosody and Versification,
And in writing Greek with the Accents.

MATHEMATICAL DEPARTMENT.

In Chase's Common School Arithmetic,
Sherwin's Common School Algebra, to Section XXXVIII.,
And in Hill's Second Book in Geometry, Parts I. and II., or "An Introduction to Geometry and the Science of Form," as far as Part III. vii. page 130.

HISTORICAL DEPARTMENT.

In Mitchell's Ancient and Modern Geography.
Smith's Smaller History of Greece, or Sewell's History of Greece.
And the History of Rome in Worcester's Elements of History.

It is very important that the candidates should be thoroughly prepared, particularly in grammatical and elementary knowledge.

TIME AND CONDITIONS OF EXAMINATION.

ALL candidates for admission to any Class in College must in the first place be examined for admission to the *Freshman Class*.

The regular examination for the Freshman and Sophomore Classes will take place on the Monday and Tuesday of Commencement week (July 18th and 19th, 1864), beginning precisely at 8 o'clock, A.M., on Monday. The candidates will assemble in No. 16 University Hall. Attendance on both days is required.*

The continuation of the examination of those who offer themselves for the *Junior* and *Senior Classes* will be deferred to the end of the vacation.

For the convenience of those who are prevented from being present at the regular examination, there will be another examination for the Freshman and Sophomore Classes, at the beginning of the First Term, on Thursday and Friday, September 1st and 2d, 1864, attendance on both days being required. The candidates will assemble on Thursday, September 1st, in No. 16 University Hall, at 8 o'clock, A.M. On the next Monday, September 5th, the further examination of candidates offered for the Junior and Senior Classes (including those offered on Commencement week) will take place, beginning at 8 A.M. in No. 16 University Hall.

No person will be examined for admission to College at any other time than those above specified.

No person will be received to examination, unless it be his intention, if admitted, to join his Class immediately.

Candidates may be admitted to advanced standing as late as the First Term of the Senior year, provided they present themselves for examination as above directed. In order to admission to advanced standing, the candidate, whether from another College or not, must appear, on examination, to be well versed in the following studies:—

1. In the studies required for admission to the Freshman Class.

* Candidates for admission to the *Sophomore Class* who apply in July must either *finish* their examination at that time, or begin as new applicants at the examination in September.

2. In all the *required* studies already gone over by the Class for which he is offered.*

3. If he apply for admission to the Senior Class, in one of the *elective* studies of the Junior year.

He must also pay to the Steward, at the rate of \$45 per annum, according to the standing to which he is admitted. Any Student, however, who has a regular dismission from another College, may be admitted to the same standing, if, on examination, he is found qualified, without any pecuniary consideration. This charge for advanced standing is also remitted to indigent Students.

Every candidate, before examination, must produce proper testimonials of a good moral character, and, if admitted, must give a bond for four hundred dollars to pay all charges accruing under the laws and customs of the University. The bond must be executed by two bondsmen, who must be satisfactory to the Steward of the College, and one of them must be a citizen of Massachusetts.

* "A student who enters College at the beginning of the Junior year shall receive a place on the General Scale at the close of that year. He shall then be allowed for his Freshman and Sophomore years, in those departments in which he has studied with his Class during the Junior year, the same proportional part of the maximum mark of his Class as that which he has actually gained in the same departments in his Junior year; but in those studies of the first two years which his Class does not continue, or which he does not pursue with his Class, in the Junior year, he shall receive no marks except such as may be determined by a special examination, which he shall be permitted to pass for this purpose within the first term after his entrance.

"No student who enters College at or after the beginning of the Senior year shall be admitted to rank on the General Scale." — *Extract from Orders and Regulations.*

Only *real* equivalents for the prescribed text-books are accepted.

LECTURES TO UNDERGRADUATES.

FIRST TERM.

SENIOR CLASS.*

Modern Literature, — PROFESSOR LOWELL, Friday, at 4 o'clock, in Harvard Hall.

Anatomy, — PROFESSOR WYMAN, Tuesday and Thursday, at 11 o'clock, in Boylston Hall.

Mathematics, — PROFESSOR PEIRCE, Tuesday and Thursday, at 11 o'clock, in Harvard Hall. This course begins after PROFESSOR WYMAN's ends.

Optics and Mechanics, — PROFESSOR LOVERING, Thursday, at 12 o'clock, in No. 2 University Hall.

JUNIOR CLASS.

Mechanics, — PROFESSOR LOVERING, Tuesday, at 12 o'clock, in No. 2 University Hall.

Chemistry, — PROFESSOR COOKE, Thursday, at 12 o'clock, in Boylston Hall.

FRESHMAN CLASS.

Means of Preserving Health, — PROFESSOR SHATTUCK, Tuesday, at 10 o'clock, in No. 8 University Hall.

Integral Education, — PRESIDENT HILL, Tuesday, at 10 o'clock, in No. 8 University Hall. This course begins after PROFESSOR SHATTUCK's ends.

SECOND TERM.

SENIOR CLASS.

History, — PROFESSOR TORREY, Friday, at 5 o'clock, in Harvard Hall.

Mutual Relations of the Sciences, — PRESIDENT HILL, Tuesday, at 11 o'clock, in Harvard Hall.

Greek Language and Literature, — PROFESSOR GOODWIN, Wednesday, at 12 o'clock, in 16 University Hall.

Hydrostatics, &c., — PROFESSOR LOVERING, Thursday, at 11 o'clock, in No. 2 University Hall.

JUNIOR CLASS.

Mechanics, — PROFESSOR LOVERING, Tuesday, at 11 o'clock, in No. 2 University Hall.

Botany, — PROFESSOR GRAY, Tuesday and Thursday, at 10 o'clock, in Harvard Hall.

SOPHOMORE CLASS.

English Literature, — PROFESSOR CHILD, Monday, at 12 o'clock, in University Hall.

Chemistry, — PROFESSOR COOKE, Friday, at 12 o'clock, in Boylston Hall.

* The Senior Class may attend Professor Agassiz's lectures at the Museum of Comparative Zoölogy, on Wednesday, at 8 o'clock, P. M., and Saturday, at 10 o'clock, A. M.; — and also the Rumford Lectures on Heat by Professor Gibbs, from 12 to 1 on Tuesday, in the Second Term.

EXERCISES IN COMPOSITION AND ELOCUTION.

THE Sophomore and Freshman Classes have each an exercise in Elocution once a week.

The Junior Class has an exercise in Declamation every week.

The Junior Class has an exercise in Themes once in two weeks, and the Sophomore Class once in four weeks.

The Senior Class has an exercise in Forensics once in two weeks.

Each Class writes Greek and Latin Exercises.

ELECTIVE AND EXTRA STUDIES.

ALL the studies of the Freshman and Sophomore years are *required*, except that French when taken by Sophomores is taken as an *extra*. In the Junior year Mathematics, Chemistry, Patristic and Modern Greek, German, Italian, and French, are elective studies ; — in the Senior year Latin, Greek, Mathematics, and advanced Italian, with a maximum mark of 8 ; Patristic Greek, German, and Spanish, with a maximum mark of 6. The other studies of the Junior and Senior years are required.

EXAMINATIONS.

EACH Class is examined annually, in writing, in the several studies of the year, before committees appointed for that purpose by the Overseers, and the results of these examinations have an important bearing on the rank of the Student, and, in some cases, on his continuance in College.

VOCAL MUSIC.

INSTRUCTION in Music, with special reference to the devotional services in the Chapel, is open to all Undergraduates. Separate classes for Graduates will be formed if desired.

COLLEGE GYMNASIUM.

THE Gymnasium is open to all members of the University, subject to certain rules and conditions. A charge of two dollars a Term for attendance and instruction is made in the hills of every Undergraduate.

PUBLIC WORSHIP.

THERE are daily devotional services, with the reading of the Scriptures, and singing, in the College Chapel. All Undergraduates are required to be present; as they are also at public worship in the Chapel on Sunday, except such as have special permission, at the request of their parents or guardians, to attend other congregations, in the City of Cambridge or elsewhere.

EXPENSES.

THE expenses of an Undergraduate for a year are as follows:—

Instruction, Library, Lecture-rooms,	• • • • .	\$75.00
Gymnasium,	• • • • .	4.00
Rent and care of Room, in the College Buildings,	• • • • .	20.00
Board for 40 weeks at \$4.00 per week,	• • • • .	160.00
Text-books (average),	• • • • .	12.00
Special Repairs, &c.,	• • • • .	from 1 to 2.00
		\$273.00

Other expenses must vary with the economy of each Student. Wood and coal ready for use are delivered at the Students' rooms, by the lessee of the College Wharf, on contract, at \$11.00 per cord for hard and \$9.00 for pine wood, exclusive of sawing and splitting; and \$9.00 a ton for anthracite, \$16.00 for cannel, and \$11.00 for Sydney and Scotch coal. When a less quantity of coal than one ton is ordered, there will be an additional charge of fifty cents a ton. On and after October 1, 1863, anthracite coal will be furnished at the market-price. For carrying coal into the buildings in the College yard and into College House, Brattle House, and Harvard Block, 50 cents a ton; into other buildings, 25 cents a ton. The rent of rooms in private houses is from \$52 to \$100 per annum. The price of board varies from \$3.50 to \$5.00 per week. Students living in College buildings find their own beds and furniture.

TERM-BILLS.

THE bills containing College charges are to be made out by the Steward, at the end of each Term; and must be settled *within a week from the commencement of the succeeding Term.*

The bill for the Second Term of the Senior year must be paid two days at least before Commencement; and no Degree can be conferred until all books are returned to the Library, and all dues to the College are discharged.

PECUNIARY ASSISTANCE TO MERITORIOUS STUDENTS.

SCHOLARSHIPS.

EXPENSES.

By a vote of the Corporation passed Jan. 7, 1864, and ratified by the Overseers Jan. 28, 1864, the fee for tuition for undergraduates will be raised to one hundred and four dollars per annum, from the beginning of the next Academical year. The charge for the gymnasium will be included in this; and the rent of rooms in the old College buildings be raised from 40 dollars per annum to an average of 56 dollars, that is, for chums from 20 to 28 dollars per annum; altering the total on page 38 from 273 to 306 dollars.

Students recommended by the Faculty or the College to the Trustees of the funds. The income of the sixteen President's Scholarships will be bestowed by the President and Faculty. The income of the four Townsend Scholarships will be bestowed upon Students recommended by the Faculty to the Corporation. Applications from persons who wish to be considered as candidates will be received *on or before the first day of June* of each year; but none except those who are at once high scholars and need assistance are encouraged to apply. From the list of candidates the Faculty will make nominations to the Trustees of the Shattuck and Thayer Scholarships, and appointments or nominations to the others, being guided principally by the scale of rank for the year. The nominations and appointments will be made at the end of each Academic Year, as soon as the scales of rank for the year

PECUNIARY ASSISTANCE TO MERITORIOUS STUDENTS.

SCHOLARSHIPS.

THIRTY-SIX Scholarships have been established in the College, varying in their annual income from one hundred to three hundred dollars:—

One founded by persons educated at Phillips Exeter Academy, called, in honor of the late Principal of that school, the **ABBOT SCHOLARSHIP**.

A second, founded by the Class of 1814, and called the **SCHOLARSHIP OF THE CLASS OF 1814**.

Four in fulfilment of a bequest of Dr. George C. Shattuck, called the **SHATTUCK SCHOLARSHIPS**, with an income of one hundred and fifty dollars each.

Ten founded by John Eliot Thayer, Esq., called the **THAYER SCHOLARSHIPS**, with an income of three hundred dollars each.

Sixteen, with an income of two hundred and fifty dollars each, by a friend of the College, and called the **PRESIDENT'S SCHOLARSHIPS**, four to be assigned to each Class.

And four, with an income of two hundred and fifty dollars each, called the **TOWNSEND SCHOLARSHIPS**, from the legacy of the late Miss Townsend.

There are special provisions affecting the assignment of the Abbot Scholarship, and the Scholarship of the Class of 1814. The income belonging to the Shattuck and Thayer Scholarships is bestowed upon Students recommended by the Faculty of the College to the Trustees of the funds. The income of the sixteen President's Scholarships will be bestowed by the President and Faculty. The income of the four Townsend Scholarships will be bestowed upon Students recommended by the Faculty to the Corporation. Applications from persons who wish to be considered as candidates will be received *on or before the first day of June* of each year; but none except those who are at once high scholars and need assistance are encouraged to apply. From the list of candidates the Faculty will make nominations to the Trustees of the Shattuck and Thayer Scholarships, and appointments or nominations to the others, being guided principally by the scale of rank for the year. The nominations and appointments will be made at the end of each Academic Year, as soon as the scales of rank for the year

can be prepared. The successful candidates shall receive one half of the annual income immediately upon the assignment of the Scholarships, and the remaining half at the end of the following half-year. But the Scholarships for the Senior Class shall be assigned before Commencement, as soon as the annual scale for that Class can be prepared, and the entire income for the year, of those within the control of the Faculty, shall be paid immediately thereupon. No person who has incurred a serious College censure in the course of the year shall be considered a candidate for a Scholarship.

The Scholarships, when voted, will be understood to cover the College year just ended; but the obtaining of a Scholarship for one year will not be held to constitute any title to a second nomination, unless the superiority for which it was originally awarded be fully maintained.

BENEFICIARY FUND.

VARIOUS bequests and donations have from time to time been made to the President and Fellows, the income of which is appropriated for the aid of deserving Students in narrow circumstances. The annual amount thus distributed from this source is about fourteen hundred dollars, which has usually been given as a gratuity, in sums ranging from twenty to sixty dollars. As some Students prefer to receive the aid in the form of a loan, the Corporation have divided the income of the Beneficiary Funds into two parts; one of which is given as a gratuity, and the other granted on loan to such Students as prefer to receive the aid in that form.

Applications for aid from the Beneficiary Fund are addressed to the President, and must be presented to him on or before *the first day of June*, by the parent or guardian, or by the Student himself if of age. The application should state particularly the circumstances of the case, with the reasons for making it, and whether a gratuity or a loan is desired.

LOAN FUND.

IN addition to the Beneficiary Funds above described, of which the President and Fellows are trustees, there is a Loan Fund, raised by subscription among the friends of the University, the interest of which,

amounting to about twelve hundred dollars, is annually lent to meritorious Students desirous of receiving it, in sums ranging from twenty to eighty dollars. This fund is under the control of a Board of Trustees, in Boston; Edward Wigglesworth, Esq., Treasurer. About eight thousand dollars have been already added to the principal by reimbursements to that extent.

The applications for the Loan Fund, made in the same manner as for the Beneficiary Fund, by the parent or guardian, or by the Student himself, if of age, should be left with the President as early as *the first day of December*.

"The Trustees of the Fund for assisting Students at Harvard College request applicants for loans to observe the following rules:—

"1. To address their applications to the Treasurer of the Loan Fund, Edward Wigglesworth, Esq., Boston," and leave them with the President.

"2. To set forth their circumstances fully, as they would do on making application to an individual for like aid.

"3. To state what aid they have received, or expect to receive, from the College.

"4. If an applicant is under twenty-one years of age, his application must be accompanied by the written approval of his parent or guardian."

MONITORSHIPS, &c.

BESIDES the foregoing provisions for the aid of meritorious Students, the various monitorships, &c. amount to four hundred and eighty dollars a year, which may be considered as an addition, to that extent, to the beneficiary funds of the institution.

SCHOOL-KEEPING.

MERITORIOUS Students, whose circumstances require it, may, at the discretion of the Faculty, be absent for a limited time, not exceeding thirteen weeks, including the Winter Vacation, for the purpose of keeping school.

Applications for permission to keep school must be presented to the President as early as *the 15th day of November*, and no absence will be allowed till a certificate of such permission has been first obtained from the President.

P R I Z E S.

I. DETURS.

A DISTRIBUTION of books, called "Deturs," is made from the income of the Hopkins Foundation, near the commencement of the Academical Year, to meritorious Students of the Sophomore Class, and to those Juniors who entered the Sophomore Class, and whose merit would have entitled them to this distinction. Thirty *Deturs* were given in the Sophomore Class, eight in the Junior Class, and one in the Senior Class, the last year.

Deturs are also given to such members of the Junior Class as, not having received them in the Sophomore year, shall, in the course of that year, make decided improvement in scholarship.

II. BOWDOIN PRIZE DISSERTATIONS.

In the Second Term of the Academical Year, prizes are assigned, from the Foundation of James Bowdoin, for English Dissertations, as follows:—

A prize of *fifty dollars* for the best Dissertation by a resident Graduate of the University, on either of the subjects proposed for writers of that standing;

A prize of *forty dollars* for the best, and a prize of *thirty dollars* for the second-best Dissertation by a member of the Senior Class of Undergraduates, on either of the subjects proposed for that Class;

A prize of *forty dollars* for the best, and a prize of *thirty dollars* for the second-best Dissertation by a member of the Junior Class, on either of the subjects proposed for that Class;

Provided there be so many Dissertations worthy of prizes in the opinion of the judges.

The Dissertations must be left at the President's office by the *first day of May*. *No performance will be received after that date.* The title-page must, with an assumed name, state the standing of the writer, as Graduate or Undergraduate, and if the latter, of what Class. A sealed letter must be sent in at the same time, under cover with the Dissertation, containing the true name of the writer, and superscribed with his assumed name.

The Dissertations must be written upon letter-paper of good quality, of the quarto size, with a margin of not less than one inch at the top and bottom and on each side, so that, if successful, they may be bound up without injury to the writing. The sheets on which the Dissertation is written must be securely stitched together.

No Dissertation to exceed in length the amount of twenty-five printed pages of the North American Review.

The following are the subjects for the present Academical Year:—

FOR RESIDENT GRADUATES.

The Chancellor L'Hôpital.

The Foundations, Uses, and Abuses of Classification.

The Relations of Revealed Religion to Slavery in all Ages.

FOR MEMBERS OF THE SENIOR CLASS.

Alexander Hamilton as a Statesman.

The Contributions of H. C. Carey to Political Economy.

The Social Position of Men of Letters in Rome, from the Accession of Augustus to the Death of Trajan.

FOR MEMBERS OF THE JUNIOR CLASS.

The Roman Senate in the time of the Emperors.

Heat as a Form of Motion.

Shakespeare's and the Greek Tragedians' Portraits of Woman.

The prizes for the last Academic Year were assigned as follows:—

Resident Graduates.

No Prize awarded.

COMMITTEE.—The Rev. Rufus Ellis, George Otis Shattuck, and Charles Franklin Dunbar, Esquires.

Senior Class.

To WILLIAM AUGUSTUS WHITE, a First Prize.

" JOSIAH LOMBARD, a Second Prize.

COMMITTEE.—The Rev. Samuel K. Lothrop, D.D. and W. R. P. Washburn, Esq.

Junior Class.

To JAMES THOMPSON BIXBY, a First Prize.

" WILLIAM REED, a Second Prize.

COMMITTEE.—The Hon. Willard Phillips, LL.D., Octavius Pickering, Esq., and Epes S. Dixwell, Esq.

III. BOWDOIN PRIZES FOR LATIN AND GREEK COMPOSITION.

Two Prizes will be assigned for Latin and Greek compositions, from the Bowdoin Prize Fund, under the following regulations for the present year.

A prize of *thirty-five dollars* for the best composition in Latin Verse, by a member of either the Senior or the Junior Class.

A prize of *thirty-five dollars* for the best composition in Greek Prose, by a member of either the Senior or the Junior Class.

The subjects for the compositions are given out, and the prizes awarded, by the Latin and Greek Departments, acting, in conjunction with the President, as a committee of the Faculty for that purpose.

No prize will be awarded unless the absolute merit of the composition shall be such as to deserve it.

The compositions, inscribed with assumed names, must be left at the President's Office by the *first day of May*, accompanied by sealed letters containing the authors' names, and superscribed with the assumed names.

The following are the subjects of the Compositions for the present Academical Year.

FOR LATIN VERSIFICATION.

Thomson's Seasons, *Autumn*, from, "Defeating oft the labors of the year," to, "And all-involving winds have swept away," to be turned into Hexameters.

FOR GREEK PROSE COMPOSITION.

The last six paragraphs of Webster's Speech on the Revolution in Greece, beginning, "It may now be asked," to be translated into Attic prose.

No Student is allowed to write on both subjects.

The following Prizes were awarded last year:—

For Latin Versification.

To ISAAC FLAGG, *of the Junior Class.*

For Greek Prose.

To WILLIAM HYDE APPLETON, *of the Junior Class.*

IV. BOYLSTON PRIZES FOR ELOCUTION.

AGREEABLY to the institution of the "Boylston Prizes for Elocution," on the day after Commencement in each year there will be held in University Hall, or in the First Church in Cambridge, a public exhibition and trial of the skill and improvement of the Students of the University in elocution.

The speakers are not to rehearse their own compositions; but to select pieces in prose or verse from English, Greek, or Latin authors, the selections to be approved by the Boylston Professor of Rhetoric and Oratory. The proportion in English is to be at least two out of three.

The competitors must be Graduates of the year, or Undergraduates of one of the next two Classes; and their names must be entered with the Professor, at the latest, *fourteen days* before Commencement. No applications will be received after that time.

The Corporation will, each year, select five gentlemen distinguished for their elocution, either at the bar, in the pulpit, or in the senate, who, with the Corporation, or a major part of them, will judge of the merits of the competitors, and award the prizes. They will assign five prizes: two First Prizes, namely, *fifteen dollars* to each of the best two speakers; and three Second Prizes, namely, *ten dollars* to each of the next three best: Provided, that if the judges shall be of opinion that none of the competitors have exhibited sufficient skill and improvement to be entitled to the First Prizes, they may withhold them.

At this exhibition, no prompting of the speakers will be allowed; and a failure of memory in any one will exclude him from being considered in the assignment of the prizes.

The following prizes were assigned, July 16th, 1863.

The two First Prizes.

To CHARLES COOLIDGE READ, *of the Senior Class.*

" JOHN WESLEY CHURCHILL, *of the Junior Class.*

The three Second Prizes.

To HORACE WINSLOW WARREN, *of the Graduating Class.*

" JOHN ADAMS BLANCHARD, *of the Senior Class.*

" GEORGE GLOVER CROCKER, *of the Senior Class.*

V. PRIZES FOR READING.

Through the liberality of a friend of the College, prizes have been established, to be awarded to those who shall excel in the reading aloud of English prose. The prizes offered for the present year are as follows: —

To Members of the Senior and Junior Classes, at a public trial on Saturday, June 18, 1864,

One First Prize of *Forty Dollars*,
Two Second Prizes of *Thirty Dollars* each,
Two Third Prizes of *Twenty Dollars* each.

To Members of the Junior and Sophomore Classes (1864-5), at a public trial on Saturday, Oct. 8, 1864,

One First Prize of *Thirty Dollars*,
Two Second Prizes of *Twenty Dollars* each,
Two Third Prizes of *Fifteen Dollars* each.

Provided that at each contest there is sufficient merit in the reading to warrant the giving of all the prizes. No competitor can receive a prize lower in grade than any which he has received at a previous contest.

To Members of the Freshman Class of 1864-5, at a private trial, September, 1864,

One First Prize of *Fifteen Dollars*,
Two Second Prizes of *Ten Dollars* each.

All the prizes will be given in books, unless the successful competitors satisfy the President that the prize in another form will be more useful to them.

The pieces to be read will be placed in the hands of the candidates on the morning of the day of trial. In their selection, declamatory pieces will be avoided, and such narratives, descriptions, or essays chosen as shall require varied expression and correct enunciation.

Candidates must hand in their names to the President at least one fortnight before the day of trial; and the Faculty reserve the right to select for each contest a limited number of the most promising candidates.

At a public contest, held June 13, 1863, there were awarded in the
Senior Class.

*First Prizes to EDWARD BANGS DREW,
HENRY LUNT;*

*Second Prizes to ADOLPHUS WILLIAMSON GREEN,
HENRY FITCH JENKS,
MARSHALL AYRES;*

And in the

Freshman Class,

First Prizes to SAMUEL HENDERSON VIRGIN,

CHARLES BROOKS BRIGHAM;

Second Prizes to EDWARD HENRY CLARK,

EDWARD AUGUSTUS CAPEN,

SAMUEL QUARLES FRENCH.

LODGING AND BOARDING HOUSES FOR UNDERGRADUATES.

EXTRACT FROM THE STATUTES OF THE UNIVERSITY.

"CHAPTER XII. § 115. No Student shall lodge or board out of the College, except at such houses as are approved by the Faculty, and with the approbation of a parent or guardian, if the Student is under age; and no houses will be so approved, except such as conform to the Regulations the Faculty may establish."

REGULATIONS RELATIVE TO LODGING AND BOARDING HOUSES FOR UNDERGRADUATES.

At a meeting of the Faculty of Harvard College :—

Voted, That no Undergraduate shall be allowed to occupy a room in any house or building, (except a public College Hall,) in which a family approved by the Faculty of the College shall not reside; or to take lodgings or board in any house, or board in any family, unless the house or family has been approved by a vote of the Faculty.

Voted, That no house shall be approved as a lodging or boarding house, unless the keeper of the house shall conform to the following regulations :—

1. That, in case of any festive entertainment, riotous noise, or other disturbance in a house so approved, or improper conduct at the table, the keeper of the house shall give immediate notice of the same, and of the persons concerned, to the President of the College.

48 LODGING AND BOARDING HOUSES FOR UNDERGRADUATES.

2. That no wine or spirituous liquors be used ; and that no smoking be permitted at the table or in the dining-room.

3. That the hours of meals shall conform to the times most suitable for the exercises of Undergraduates prescribed by the College Laws ; that is, for breakfast, immediately after prayers ; and for dinner, at one o'clock, except from the Thanksgiving recess to the end of the First Term, when it shall be at two o'clock.

4. That the keepers of boarding-houses shall hand in their names to the Steward, with the price of board, a fortnight before the end of the Summer Term, the names and prices to be entered in a book, which shall be kept at the Steward's office for inspection ; and that within a fortnight from the beginning of each Term they shall send the Regent a list of their boarders.

5. That the keepers of every lodging or boarding house shall report to the Regent the name of any Student leaving the lodging or boarding house, or coming to the lodging or boarding house during the Term.

Voted, That no Student shall change his room in any of the College buildings, without giving immediate notice thereof to the REGISTRAR ; and that no Student shall change his lodging or boarding house, without giving similar notice to the REGENT, and notice also of the lodging or boarding house to which he has removed.

LAWS RELATIVE TO THE PATRON.

EXTRACT FROM THE STATUTES OF THE UNIVERSITY.

"CHAPTER XIV. § 121. Some gentleman of Cambridge, not of the Faculty, shall be appointed by the Corporation to be Patron of all Students, not of this Commonwealth, who belong to places more than one hundred miles distant from Cambridge, and whose parents or guardians desire to avail themselves of the regulations herein provided; and the Patron shall have charge of all the funds of such Students.

"§ 122. The parent or guardian of each Student shall be informed what are the necessary annual expenses included in the term-bills; and he shall also be informed by the Patron what funds for the support and use of his son or ward must be remitted to him; and the Patron is to have the whole control of the same, under the direction of the Faculty.

"§ 123. Every Student subject to the Patron Law is to be charged in his term-bill at the rate of two and a half per cent, as a compensation to the Patron for the disbursements made on his account.

"§ 124. No such Student is allowed to contract any debt without an order from the Patron, or from his parent or guardian."

JOHN B. DANA, Esq., of Cambridge, Assistant Steward, has been appointed Patron, and is confidently recommended to parents and guardians as a gentleman in whose discretion and fidelity to the trust entire confidence may be placed.

RESIDENT GRADUATES.

GRADUATES of the University, or of other collegiate institutions, desirous of pursuing their studies at Cambridge without joining any of the Professional Schools, are permitted to do so, in the capacity of Resident Graduates. They are allowed to enjoy the use of the Library and scientific collections, on the payment of *five dollars* a year, one half in advance, at the beginning of each Term.

They give to the Steward satisfactory bonds in the sum of two hundred dollars, signed by two bondsmen, one of whom must be a citizen of Massachusetts, and they are subject to the laws and regulations of the College, as far as applicable to them. They are admitted free to all the courses of public lectures delivered to the Undergraduates; and, upon the payment of a fee of five dollars for each course, to the Lectures delivered in the Scientific School.

DEGREE OF MASTER OF ARTS.

THE Degree of Master of Arts is conferred in course on every Bachelor of Arts of three years' standing, on the payment of the usual fee, who shall, in the interval, have sustained a good moral character. Graduates of longer standing may also have the Master's Degree upon the same condition. In both cases, application should be made at the Steward's office, either personally or by letter, as soon as the second day before Commencement. The fee, including the Diploma, is *five dollars*, payable in advance.

 "The College will not be responsible for the safe-keeping of *any* DIPLOMA, unless a request, in writing, is left at the Steward's office, two days, at least, before Commencement, that it may be taken from the files, and reserved for the applicant."

TERMS OF ADMISSION AND COURSE OF STUDY.

CANDIDATES for admission to the DIVINITY SCHOOL are expected to present themselves on the first day of the Term. If unknown to the Faculty, they are to produce testimonials to their moral and serious character. Candidates not Bachelors of Arts will be examined in the following books : —

Latin Grammar, Virgil, Cicero's Select Orations, and Sallust ;

Greek Grammar, Felton's Greek Reader, the first four books of Xenophon's *Anabasis*, and the first book of Herodotus, or the first two books of Xenophon's *Memorabilia* ;

Geography, Arithmetic, Geometry, and Algebra ;

Whately's Logic and Rhetoric (or some other approved treatises on Logic and Rhetoric), Locke's *Essay on the Human Understanding* (Book III.), Stewart's *Elements of the Philosophy of the Mind* (Vol. I.), Dymond's *Essays on the Principles of Morality*, Jouffroy's *Introduction to Ethics*, and Butler's *Analogy*.

Candidates for admission to an advanced standing must have been engaged in the study of Theology as long as the Class into which they propose to be received, and must pass an examination in the studies which that Class has pursued.

Students are required to reside in or near Divinity Hall. They give bonds in the sum of \$200 to the Steward, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of term-bills, which, including charges for instruction, rent and care of room and furniture, and use of class-books, amount to \$75 annually. Board may be had in the city at various prices, from \$3.50 to \$5.00 a week. Rooms in Divinity Hall are let to other than Divinity Students at \$30 a Term.

Each Student must possess a copy of the Old and New Testament Scriptures in the original languages, the latter in Griesbach's or Tischendorf's edition. A copy of all other class-books is furnished on loan. Indigent Students are aided from foundations and other sources. Three years, including the Vacations, which amount to twelve weeks in each year, complete the term of residence.

The course of instruction comprises Lectures, Recitations, and other exercises, on all the subjects usually included in a system of Theological Education, embracing,—

The Hebrew Language ;
The Principles of Criticism and Interpretation ;
The Criticism and Interpretation of the Scriptures ;
Natural Religion, and the Evidences of Revealed Religion ;
Systematic Theology, Christian Ethics, and Practical Divinity ;
Church History, and Church Polity ;
The Composition and Delivery of Sermons, and the Office of Public Prayer ;

And the Duties of the Pastoral Office.

The members of the several Classes have exercises in the practice of Extemporaneous Speaking, and the members of the Senior Class preach occasionally in Cambridge during the Summer Term.

Students are entitled to receive instruction from the Instructor in the German Language, and to attend, free of expense, all public lectures given to Undergraduates in the Academical Department.

INSTRUCTION, LIBRARY, GRADUATION, EXPENSES, PRIZES.

THE design of the LAW SCHOOL is to afford a complete course of legal education for gentlemen intended for the Bar in any of the United States, except in matters of mere local law and practice; and also a systematic course of studies in Commercial Jurisprudence for those who intend to devote themselves exclusively to mercantile pursuits.

Students may enter the School in any stage of their professional studies or mercantile pursuits. But they are advised, with a view to their own advantage and improvement, to enter at the beginning of those studies, rather than at a later period.

No examination, and no particular course of previous study, is required for admission; but the Student, if not a graduate of some college, must be at least nineteen years of age, and produce testimonials of good moral character. He also gives a bond, in the sum of \$ 200, to the Steward, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of College dues; or deposits, at his election, \$150 with the Steward, upon his entrance, and at the commencement of each subsequent Term, to be retained until the end of the Term, and then to be accounted for. No Student is matriculated until such testimonials are produced, and bond given.

The Terms of the Law School coincide with those of the Undergraduate Department; but the exercises begin on the Monday following the commencement of each Term.

The COURSE OF INSTRUCTION for the Bar embraces the various branches of the Common Law, and of Equity; Admiralty; Commercial, International, and Constitutional Law; and the Jurisprudence of the United States.

The COURSE OF INSTRUCTION for the Mercantile Profession is more limited, and embraces the principal branches only of Commercial Jurisprudence; namely, the Law of Agency, of Partnership, of Bailments, of Bills of Exchange and Promissory Notes, of Insurance, of Shipping, Navigation, and other maritime concerns, of Sales, and, if the Students desire it, of Constitutional Law.

No public instruction is given in the local or peculiar municipal jurisprudence of any particular State; but the Students are assisted by the

Professors, as occasion may require, in the private study of the law and practice peculiar to their own States.

Instruction is given by oral lectures and expositions, (and by recitations and examinations, in connection with them,) of which there are ten every week.

The Course of Studies is so arranged as to be completed in two Academical Years; and the studies for each Term are also arranged, as far as they may be, with reference to a course commencing with that Term, and extending through a period of two years; so that those who are beginning the study of the law may enter, at the commencement of either Term, upon branches suitable for them. Students may enter, also, if they so desire it, in the middle, or other part, of a Term. But it is recommended to them to enter at the beginning of an Academical Year, in preference to any other time, if it be convenient. They are at liberty to elect what studies they will pursue, according to their own view of their wants and attainments; but, as a general rule, it is advisable for them, during the First Term, to confine themselves to few branches, as subjects of regular study, giving attendance, however, upon all the lectures.

When a Student is desirous of pursuing a branch of study which does not form the subject of general instruction in that particular Term, the Professors will render him aid in its pursuit as a private study.

The Course of Study, under the different Instructors, is as follows:—

FIRST YEAR.

Commencing in the years 1862, 1864, &c.

FIRST TERM.

ROYALL PROFESSOR. *Agency, Equity Jurisprudence.*

DANE PROFESSOR. *Blackstone's Commentaries, Insurance, Evidence.*

BUSSEY PROFESSOR. *Law of Real Property, Arbitration.*

SECOND TERM.

ROYALL PROFESSOR. *Pleading, Constitutional Law.*

DANE PROFESSOR. *Kent's Commentaries, Evidence, Contracts.*

BUSSEY PROFESSOR. *Law of Real Property, Wills and Administration, Criminal Law.*

SECOND YEAR.

Commencing in the years 1863, 1865, &c.

FIRST TERM.

ROYALL PROFESSOR. *Bailments, Corporations, Equity Jurisprudence.*

DANE PROFESSOR. *Blackstone's Commentaries, Bills and Notes, Shipping and Admiralty.*

BUSSEY PROFESSOR. *Law of Real Property, Domestic Relations, Bankruptcy and Insolvency.*

SECOND TERM.

ROYALL PROFESSOR. *Constitutional Law and Jurisprudence of the United States, Equity Pleading and Evidence.*

DANE PROFESSOR. *Kent and Blackstone, Bills and Notes, Partnership.*

BUSSEY PROFESSOR. *Law of Real Property, Sales, Conflict of Laws.*

A MOOT COURT is held each week, at which a cause, previously assigned, is argued by four Students, and an opinion delivered by the presiding Professor.

Clubs are formed among the Students, in which dissertations upon legal subjects are read, and cases argued.

The LAW LIBRARY consists of about 13,000 volumes, and includes all the American Reports, the Statutes of the United States, those of all the States, a regular series of all the English Reports including the Year-Books, and the English Statutes, as well as the principal treatises in American and English Law; besides a large collection of Scotch, French, German, Dutch, Spanish, Italian, and other Foreign Law; and a very ample collection of the best editions of the Roman or Civil Law, together with the works of the most celebrated commentators upon that Law.

The Library is open for the use of Students during the Terms and the Winter Vacation, and those who desire it pursue their studies there, especially in the preparation of their Moot Court cases.

Students who have pursued their studies for the term of eighteen months in any Law Institution having legal authority to confer the degree of Bachelor of Laws, one year of said term having been spent in this School,—or who, having been admitted to the Bar after a year's previous study, have subsequently pursued their studies in this School for one year,—are entitled, upon the certificate and recommendation of the Law Faculty, and on payment of all dues to the College, to the degree of Bachelor of Laws.

The fees are \$50 a Term, and \$25 for half or any smaller fraction of a Term; for which sum, without any additional charge, Students have the use of the lecture-rooms, the Law and College Libraries, and the text-books; and they are admitted free to all the courses of public lectures delivered to the Undergraduates in the *Academical Department* of the University.

Upon the payment of a fee of \$5 for each course, the Law Students may also attend the Lectures delivered in the Lawrence Scientific School, on Zoölogy and Geology, by Professor AGASSIZ; on Comparative Anatomy and Physiology, by Professor WYMAN; on Botany, by Professor GRAY. They may also study any one of the foreign languages taught in the University, on payment of a fee of \$10 per annum.

The other expenses for a Term are nearly as follows:—

Board, in boarding-houses, twenty weeks, from \$3.50 to \$4.50 per week,	from \$70 to \$90
Room-rent, including care of room, but not making fires,	16 to 60
Furniture (if the Student does not furnish his room),	8 to 16
Washing,	7 to 15
Fuel, for the First or Winter Term, from August to January,	12 to 25
" for the Second or Summer Term, from February to July, from \$6 to \$10.	
Servant (if one is employed) to make fires, &c.,	5 to 10
	\$118 to \$216

Students may enter into economical arrangements, by which board need not exceed \$2.50 or \$3.00 a week.

Fuel, prepared for use, is furnished by the lessee of the College Wharf, at the market price, if the Students desire it.

PRIZE DISSERTATIONS.

PRIZES will hereafter be annually awarded, near the close of the second term of each Academical year, for the best and second-best Dissertations, written by Students of the Law School, on subjects given but by the Law Faculty, as follows:—

First. A prize of *sixty dollars* for the best, and of *fifty dollars* for the

second-best Dissertation, by a Student who has attended the Law School at least three of the four Terms immediately preceding the award.

Second. A prize of *fifty dollars* for the best, and *forty dollars* for the second-best Dissertation, by a Student who has attended two of the three Terms next preceding the award.

The Term in which the award is made is included in the computation.

Students entitled to compete for the prizes on the first subject cannot write for the second.

No Student will write on both subjects.

The merit of the Dissertations will be adjudged by committees of Counsellors at Law, appointed by the Law Faculty.

The prizes will be awarded at the close of each Academical Year. Prizes will not be awarded unless the Dissertations offered shall be deemed to have sufficient merit.

The Dissertations must be left at the office of one of the Faculty, while the writer is a member of the Law School, and by the *first day of May* annually. Each Dissertation must have a motto, or assumed name, written upon it, and be accompanied by a sealed letter, having the same motto or name on the outside, and the true name of the writer within. Unsuccessful Dissertations will be returned to the writers when requested. A copy of the successful Dissertations must be left with one of the Faculty for preservation in the Library of the Law School. They must all be written on letter-paper of good quality, of the usual quarto size, with a suitable margin, so that, if successful, they may be bound up without injury to the writing. The sheets must be securely stitched together.

No Dissertation to exceed in length the amount of thirty pages, as large as the 16th page of the first volume of Greenleaf's Evidence, 2d edition.

Subjects for Dissertations the present Academical year:—

FOR STUDENTS THREE TERMS IN THE SCHOOL.

The Rights, Duties, and Responsibilities of the Directors, Trustees, and Managers of Corporations as they relate to the Stockholders.

FOR STUDENTS TWO TERMS IN THE SCHOOL.

The Extent to which the Doctrine of Tenure, as known to the Common Law, exists in this Country, and the Cases and Manner in which it affects the Rights of Landholders.

The following prizes were assigned for the last year: —

For Dissertation, "The Influence of the Roman Law in the Formation and Determination of the Rules and Principles of the English and American Law."

To ALONZO BOND WENTWORTH, of Somersworth, N. H., a Prize of sixty dollars.

For Dissertations, "Of the Rights of Property or Easement in Subterranean Water."

To WILLIAM HENRY TOWNE, of Brookline, Mass., the First Prize of fifty dollars.

To MELVILLE EZRA INGALLS, of Harrison, Me., the Second Prize of forty dollars.

Committee. — HON. ALONZO C. PAIGE, of New York.

ASA I. FISH, Esq., of Pennsylvania.

THOMAS C. PERKINS, Esq., of Connecticut.

COURSE OF STUDY.

THE books marked thus (*) compose the course which is completed in two years. The studies of gentlemen who remain longer in the School are pursued in other books in the *regular course*, to which others are added from time to time, as far as the leisure and progress of the Students may permit. The *parallel course* is prescribed chiefly for private reading.

REQUISITES FOR ADMISSION.

CANDIDATES for admission must have attained the age of eighteen years, have received a good common English education, and be qualified to pursue to advantage the courses of study to which they propose to give their attention. They must furnish satisfactory evidence of good moral character, give bonds, in the sum of \$200, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of all dues to the School, and register their names with the Dean of the Faculty. They will be admitted only at the commencement of a Term, by special permission. The special requisites for admission to the Departments of Chemistry and Engineering are stated below; and the candidates will present themselves on Monday, January 18, or July 18; or, if unable to come on those days, on Thursday, March 3, or September 1, 1864.

REQUIREMENTS OF STUDENTS.

Students of the Scientific School are required to board and lodge at licensed houses. They shall conduct themselves in a courteous and gentlemanly manner, and shall comply with all the regulations of the School and of the Department to which they belong.

A Scientific Student violating these regulations, or participating with an Undergraduate in an offence against the laws of the College, is liable to dismission from the School.

DEGREES.

The degree of *Bachelor of Science* may be conferred upon any Student who, having attended the instructions of the School for at least one year, and completed the prescribed course of studies in one or more Departments, shall have passed a satisfactory public examination.

The Department or Departments in which the Student has been examined, and his grade of merit, will be specified in the Diploma, and each Diploma will bear the signatures of the President and Faculty.

Certificates may be granted to Students who do not graduate, stating the time they have been present in the School, the studies pursued, and the progress made.

COURSES OF INSTRUCTION.

The number and choice of studies are to a limited extent optional on the part of Students, who will, however, be counselled on these points by the Professors; but a punctual attendance on all prescribed exercises will be required. In the Department of Engineering, examinations are held each Term upon the work of that Term, and no Student will be admitted to an examination for a degree in this Department who has not passed all the Term examinations of the Department.

I. CHEMISTRY.

PROFESSOR GIBBS will receive Special Students to the course of instruction in Experimental Chemistry and research, who will give their attendance in the Laboratory from 9 o'clock, A. M., till 5 o'clock, P. M., five days in the week.

The course will include instruction in —

Theoretical and Experimental Chemistry, and Systematic Qualitative and Quantitative Analysis, in all their branches; and

The solution of problems of research in experimental science and in the applications of science to the arts and manufactures.

The more thorough the previous acquaintance of the Student with Mathematics, Mechanics, Physics, and General Chemistry, the better.

Dalton's Physiology.	Knapp's <i>Chemical Technology</i> .
Dana's Mineralogy.	Bolley's <i>Chemical Technology</i> .

II. ZOOLOGY AND GEOLOGY.

THE instruction in this Department consists, alternately, of a course of Lectures by Professor AGASSIZ on Zoölogy, embracing the fundamental principles of the classification of animals, as founded upon structure and embryonic development, and illustrating their natural affinities, habits, geographical distribution, and the relations which exist between the living and extinct races; and of a course on Geology, both theoretical and practical. The course on Geology will be delivered during the First Term.

Besides the instructions of the lecture-room, Professor Agassiz will afford the Students access to his laboratory during certain hours, in order to show them how to observe isolated facts, how to determine living and fossil animals, how to identify rocks of different formations, and how to conduct a regular geological survey.

For those who intend to make a further study in these sciences, excursions in the neighborhood will be made in Term-time, and longer excursions in vacation, to those parts of the country, near or remote, which offer the most instructive field for observation.

Text-Books and Works for Reading and Reference.

Hitchcock's Elementary Geology.	<i>For Local Information.</i>

Guyot's Earth and Man.	Lyell's Travels in North America.

III. ENGINEERING.

STUDENTS in Engineering will give their attendance at the School from 9 o'clock, A. M., to 5 o'clock, P. M.

The course will include instruction in —

Surveying, with the use of the instruments, and actual operations in the field.

Drawing in all its branches; topographical, outline, shaded, and tinted, including Isometric Projections.

Analytical Geometry and Differential and Integral Calculus.

The principles of Mechanics, and their application to Machinery and Engineering.

Descriptive Geometry.

The theory of shades, shadows, and perspective.

The application of Descriptive Geometry to masonry and stone-cutting, in the construction of groined and cloistered arches, domes, &c.

The nature and properties of building materials, and their application to the construction of railroads, canals, bridges, &c.

The instruction will be given by daily exercises at the blackboard and by lectures.

A knowledge of Algebra, Geometry, and Trigonometry is required before admission.

IV. BOTANY.

PROFESSOR GRAY will give a course of practical lessons in Systematic Botany, twice a week, from the first of May to the close of the Term, to Scientific Students properly prepared for it.

Also, a course of instruction, with a Text-Book, in the elements of Structural and Systematic Botany; two lessons a week, throughout the Second Term.

Text-Books.

Gray's Botanical Text-Book, or Gray's First Lessons in Botany.
Gray's Manual of the Botany of the Northern United States.

V. COMPARATIVE ANATOMY AND PHYSIOLOGY.

SPECIAL instruction will be given in the Anatomical Laboratory in Boylston Hall, by Professor J. WYMAN.

A course of Lectures will be delivered each Term.

VI. MATHEMATICS.

INSTRUCTION will be given in the *Higher Mathematics*, and especially in *Analytical and Celestial Mechanics*, by Professor PEIRCE.

Private instruction in the various branches of Mathematics will be given to those desirous of receiving it, by competent instructors residing at the University.

VII. MINERALOGY.

PROFESSOR COOKE will give, during the Second Term, a course of practical instruction in Mineralogy. The course will embrace Theoretical Crystallography, the Determination and Drawing of Crystals, the Study of the Physical Properties of Minerals, and the Determination of Mineral Species. It will consist of recitations and lectures three times a week during the Term, and of practical exercises in the Laboratory. Students taking this course will have access to the Mineralogical Cabinet of the University, which has recently been greatly enlarged and improved.

Text-Books. Dana's Mineralogy; Cooke's Chemical Physics.

LECTURES, &c.

Students of the Scientific School may attend, without charge, any of the Lectures delivered to Undergraduates by the Professors in the Academical Department. (See page 34.)

The Anatomical Museum, the Museum of Comparative Zoölogy, the Botanic Garden, and the Public Library, are accessible to the Students of the Scientific School.

F E E S.

For *special instruction* of those who become private pupils of any Professor, and pursue studies, practical exercises, or experimental research, or make excursions, under his particular direction, the fees are:—

In the Department of CHEMISTRY, for instruction, per Term of twenty weeks, *fifty dollars*; for Laboratory apparatus and supplies, *fifty dollars*; for one half or any less fraction of a Term, two thirds of the above sums.

The Students in Chemistry are supplied with all needed apparatus, and are required to restore it in as good condition as they receive it.

In the Department of ENGINEERING, for instruction five days in the week, *fifty dollars* per Term; for one half or any less fraction of a Term, two thirds of that sum.

The Special Students in Engineering will supply themselves with drawing materials, necessary text-books, &c.

In any of the other Departments, the fees for special instruction may be agreed upon with the instructor.

In the Department of MINERALOGY, for instruction three hours a week (see p. 77) during the Second Term, *fifteen dollars*.

The Lectures delivered in the Scientific School may be attended by members of the other Professional Schools, and by persons not otherwise connected with the University, on payment of a fee of five dollars *per course*. Students in any department of the Scientific School may attend lectures in any other department of the School, on payment of a fee of five dollars *per course*, and all Academical Lectures (see preceding page) without charge. They may also study any one of the foreign modern languages taught in the University, on payment of a fee of *five dollars* per Term.

The Gymnasium is open to all members of the University. The fee for attendance and instruction is *two dollars* a Term.

For Board, Prizes, Room-rent, &c., see pages 38, 42, and 64.

For further information concerning the School, application may be made to Professor GIBBS.

OBJECTS AND COURSE OF INSTRUCTION.

THE objects of the Observatory are to furnish accurate and systematic observations of the heavenly bodies for the advancement of Astronomical Science, to co-operate in Geodetical and Nautical Surveys, to contribute to the improvement of Tables useful in Navigation, and, in general, to promote the progress of knowledge in Astronomy and the kindred sciences. To aid in effecting these objects, provision is made for publishing the Observations and the Director's Reports, and for increasing the Library.

Practical Astronomy and the Use of Astronomical Instruments will be taught at the Observatory, by Mr. GEORGE P. BOND, Director of the Observatory, and Phillips Professor of Astronomy.

Text-Books and Works for Reference and Reading in the Department of Practical Astronomy.

Herschel's Outlines of Astronomy. Bowditch's Practical Navigator.
Loomis's Introduction to Practical Bowditch's Methods of Comput-
Astronomy. ing the Orbit of a Comet or

Planet. (Appendix to Vol. III. Translation of Mécanique Céleste.)	Gauss's Theoria Combinationis Observationum Erroribus Minimis Obnoxiae.
Lee's Tables and Formulae.	Liagre's Calcul des Probabilités et Théorie des Erreurs.
Mason's Introduction to Practical Astronomy. Supplement to Olmsted's Astronomy.	Chauvenet's Manual of Spherical and Practical Astronomy.
Brünnow's Lehrbuch der Sphärischen Astronomie.	Airy's Theory of Errors of Observations.
Sawitsch's Abriss der Practischen Astronomie. German Translation by Götze.	Olbers's Methode die Bahn eines Cometen zu berechnen. Edited by Encke.

Gauss's Theoria Motus Corporum Coelestium.	

The fees for instruction may be agreed upon with the instructor, but shall not exceed *fifty dollars* per Term.

INSTRUCTION AND DEGREES.

A THOROUGH course of medical instruction, by means of Lectures, recitations, examinations, dissections, and Hospital visits, is afforded to students wishing to enter the medical profession, and to those desirous of an acquaintance with the sciences on which medicine is founded.

Courses of Lectures are delivered annually at the Medical College in North Grove Street, Boston, which commence on the first Wednesday in November, and continue during seventeen weeks. At the termination of these courses there is an examination for degrees, and the successful candidates receive their diplomas at the Commencement on Wednesday of the week succeeding that in which the examinations are held.

On the following Monday (March 16, 1864) instruction is resumed by the Professors for those who attend during the Summer Term. In this Term there are at least five recitations and two Lectures each week. There is a visit at the Hospital every day, four times a week with the physicians, and twice a week with the surgeons. The students have access also to the following courses of Lectures delivered in the University at Cambridge at this time: on Comparative Anatomy and Physiology, by Professor Wyman; on Botany, by Professor Gray; on Acoustics and Optics, by Professor Lovering; and on Zoölogy, by Professor Agassiz.

ANATOMY and PHYSIOLOGY. The Lectures of the Winter Course are delivered every week-day at one o'clock, Saturday excepted. The demonstrations are aided by a very large number of colored illustrations, and by an extensive cabinet (the Warren Anatomical Museum), which is constantly increasing by regular accessions from a fund appropriated to that purpose, as well as from individual contributions. During the first three months of the summer course recitations in Physiology will be held twice each week. Preliminary examinations in anatomy will be held in the month preceding the winter Lectures, and a course of Lectures and demonstrations will be given, illustrating the use of the microscope and microscopic anatomy.

SURGERY. There are three Lectures each week during the Winter Term, and a visit to the Hospital every Saturday. The department is provided with an extensive collection of valuable preparations in wax to show various tumors and diseases of the skin, of colored casts in plaster of Paris, and of many beautiful magnified drawings of subjects in Anatomy and Surgery, and also with the newly-invented surgical instruments. Students have an opportunity of seeing surgical operations,

and these are explained and illustrated by anatomical demonstrations of the parts concerned. Clinical Lectures are delivered on cases seen by the students. There are two recitations a week during the months of March, April, and May, and there are two surgical visits a week at the Massachusetts General Hospital during the eight months of the year occupied by the Summer Term of instruction.

THEORY and PRACTICE. The subjects formerly included in this department are divided amongst three Professors. Dr. Jackson gives Lectures on Pathological Anatomy, exhibits recent specimens, and devotes an hour every week during the Lecture Term to an examination of the specimens in the Museum, pointing out what is of especial interest, and giving some account of symptoms.

Recitations are heard during the Summer Term by his Assistant, who makes the autopsies at the Hospital, and is the Curator of the Museum of Pathological Anatomy belonging to that institution. Dr. Bowditch gives Clinical Lectures at the Hospital, as well as instruction at the bedside; and instruction is given during the Summer Term, at the Hospital by Dr. Jackson, Dr. Gould, and the other physicians, as well as at the Dispensary by the assistants of the Professor of Clinical Medicine and of Pathological Anatomy, and the other medical officers. The Hersey Professor gives Lectures at the College, and holds examinations and recitations there and at the Hospital, where students have an opportunity of practising physical exploration, and of becoming familiar with the use of chemical analysis and the microscope.

A Clinical Conference is held every Friday afternoon during the Winter Term by the Professors of Clinical Medicine and of the Theory and Practice of Physic, assisted by other medical officers of the Massachusetts General Hospital, at which the members are practised in relating, recording, and commenting on medical and surgical cases.

MIDWIFERY and MEDICAL JURISPRUDENCE form one department. The Lectures on the Principles and Practice of Midwifery are illustrated by specimens and plates. Separate instruction is given in Operative Midwifery, and each member of the class has opportunity of learning the use of instruments.

The course on Medical Jurisprudence treats of the practical matters which are involved in the position and duties of experts in medical testimony, and in the examination of medico-legal questions. Recitations are heard twice a week in these departments during the three spring months.

MATERIA MEDICA. The physiological and therapeutical action of drugs is particularly described in these Lectures. Specimens of each drug and of the various pharmaceutical preparations to which it is subjected, and of its most important combinations and reactions, are exhibited to the students. During the Summer Session of the School instruction is given by recitations from approved text-books.

CHEMISTRY. In the Lectures of the Winter Course, the relations of Chemistry to Medicine receive special attention. The principal chemical preparations used in medical practice, poisons, and the tests by which they are detected, are considered. Attention is given to the bearings of Chemistry upon Physiology and Pathology, and to its applications in the diagnosis of diseases. The Lectures are fully illustrated by experiment. During the Summer Term, frequent recitations are heard, and the Laboratory of the Medical College is open for practical instruction in Chemistry daily, for two months.

FEES.

THE fee for matriculation is \$3, which is appropriated to the increase of the Library, and is to be paid to the Dean by all wishing to attend any of the Winter Courses of Lectures.

The fee for instruction during the long Term, from the first of March to the first of November, (the months of August and September being appropriated to a vacation,) is \$100.

The fees for the Winter Courses of Lectures amount in all to \$85, which are required to be paid when the tickets are taken.

The fee for graduation is \$20, which is deposited with the Dean when application is made to him for examination.

A fee of \$5 is to be paid by the students who use the dissecting-room during the winter months. This room is open during the months of March, April, and October, and supplied with subjects for the use of students of the Summer Course without additional expense. There is no charge for the use of the Library or for visits to the Hospital.

The introduction of a Summer Course of instruction involves no change in the amount or character of the Winter Courses of Lectures as heretofore conducted, nor in the requisites for a medical degree.

STATUTE REGULATIONS RELATIVE TO MEDICAL DEGREES.

THE FACULTY OF MEDICINE of this University shall consist of the President, and of the Professors and Lecturers authorized to give instruction to the Medical Students. This Faculty shall always have a Dean, elected by themselves, for such periods as they may think proper, and may also adopt rules for their own government, provided that the same do not in any respect contravene the laws of the University.

Students of Medicine designing to attend the Medical Lectures, or any of them, shall be matriculated in this University by entering their names with the Dean of the Faculty of Medicine, to be enrolled by him, and by signing an obligation to submit to the laws of the University, and to the direction of the Faculty of Medicine.

There shall be holden by the Faculty two meetings in each year for the purpose of examining candidates for the degree of Doctor in Medicine. These shall be holden in the Massachusetts Medical College, unless otherwise specially ordered. They may be continued by adjournment, by vote of the members present, and if only one member attend

at the time and place designated, he may adjourn the meeting from day to day till three members of the Faculty may attend the meeting. Three members of the Faculty must be present at every examination.

The first meeting for examination shall be held on the day next succeeding that on which the Winter Courses end ; the second, on the Monday next but one preceding the Commencement in July. In extraordinary cases, the Faculty may hold meetings for examination at other times.

Every candidate for the degree of Doctor in Medicine must comply with the following conditions before being admitted to examination :—

1. He shall satisfy the Faculty that he has arrived at the age of twenty-one.

2. He shall have attended two courses of Lectures delivered at the Massachusetts Medical College by each of the Professors ; except that, if he have attended a course of similar lectures in any other college or university, the same may take place of one of the above courses.

3. He shall have employed three years in his professional studies under the direction of a regular practitioner of medicine.

4. If he has not received a university education, he shall satisfy the Faculty of Medicine in respect to his knowledge of the Latin language and Experimental Philosophy.

5. He shall, four weeks previous to the day on which he presents himself for examination, have given notice of his intention to the Dean of the Faculty, and at the same time shall have delivered or transmitted to the Dean a dissertation, written by himself, on some subject connected with medicine.

Every dissertation shall be submitted by the Dean to the examination of the Faculty in the mode which they shall point out.

At the meetings for examination, the Faculty shall examine all the candidates who shall present themselves, after having complied with the conditions enumerated in these statutes, upon the following branches of Medical Science ; namely, Anatomy, Physiology, Chemistry, Materia Medica, Pharmacy, Morbid Anatomy, Midwifery, Surgery, Clinical Medicine, and the Theory and Practice of Medicine. The decision in respect to each candidate shall be determined by the vote of the major part of the members of the Faculty present at the examination of the same, and this decision, if favorable to the candidate, shall be recorded by the Dean. In the decisions to be made at these meetings, regard shall be had to the dissertation as well as to the examination.

At the close of the examination, the Faculty shall decide in respect to each candidate whether he shall be recommended as worthy of the degree for which he has applied. The decision of the Faculty in respect to all these candidates whom they so recommend, shall be recorded by the Dean, and shall by him be certified to the President, to be laid before the Corporation and Overseers.

Those candidates who have at the spring examination received from the Corporation and Overseers the final approbation, shall be admitted to the degree of Doctor in Medicine by the President of the University at a public Commencement holden on the Wednesday next succeeding the day of the examination, on which occasion an Address shall be delivered by some one selected for this purpose by the Medical Faculty. Those who may be approved at the summer examination will receive their degrees and diplomas in Cambridge, on Commencement Day. Public invitation to attend the ceremony at the Commencement immediately following the Lectures shall be given by the Dean of the Medical Faculty to the Fellows of the Massachusetts Medical Society, to all Medical Students, and to every person who may take an interest in Medical Science.

BOYLSTON PRIZE DISSERTATIONS.

AN ANNUAL PRIZE is assigned, from the Foundation of Ward Nicholas Boylston, for the best Dissertation on a Medical Subject, proposed by a committee appointed by the President and Fellows of the University.

The prize is of the amount of *one hundred and twenty dollars*, and may be taken either in money, or in the form of a gold medal of that value.

The Dissertations must be sent to Dr. E. Reynolds, on or before the first Wednesday in April.

The Annual Meeting at which the prize is awarded is held on the first Wednesday in August.

Each Dissertation must bear some motto or distinguishing mark, and be accompanied by a sealed letter containing the name of the writer. The unsuccessful Dissertations, with the accompanying letters unopened, are returned to the writers when called for within the year.

No prizes are awarded, if no one of the Dissertations presented is thought to be of sufficient merit.

COMMITTEE for reading the Dissertations and adjudging their merit:—
Edward Reynolds, M.D., *Chairman*; John Jeffries, M.D.; Solomon D. Townsend, M.D.; John B. S. Jackson, M.D.; J. Mason Warren, M.D.; D. Humphreys Storer, M.D., *Secretary*; Charles G. Putnam, M.D.; Morrill Wyman, M.D.; Henry J. Bigelow, M.D.

THIS institution was founded in 1859. It is placed under the direction of a special Faculty, appointed by the Corporation of Harvard College, while the property is held by an independent Board of Trustees. Part of the northern wing of the building is already completed, and the collections have been removed to it. The special instruction in the department of Zoölogy is given in the laboratories, and the public lectures are delivered in the lecture-room of the Museum.

UNIVERSITY LECTURES.

COURSES of Lectures, open to all graduates of colleges and public school teachers who enter their names, to persons connected with the University, except undergraduates, and to others on the payment of five dollars a term, were delivered in the Term commencing February 26th, 1863, as follows:—

On the Natural History of the Cretaceous Period, by PROFESSOR LOUIS AGASSIZ.

L I B R A R Y.

THE UNIVERSITY LIBRARY is divided into four departments, viz. Theological, Medical, Law, and College; which last, besides books in all other departments of learning, embraces also an extensive collection of works on Theology, Medicine, and Law.

The THEOLOGICAL LIBRARY is in Divinity Hall. Persons entitled to its privileges must be connected with the Divinity School. Number of books, about 13,000. They consist of valuable select works, principally in modern Theology, with some of the early Fathers.

The MEDICAL LIBRARY is in the Medical College in Boston. It is placed there for the convenience of students attending the Medical Lectures. The number of books is about 2,000.

The LAW LIBRARY is in Dane Hall. It is designed for the officers and students of the Law School. Number of books, about 13,000. It contains most of the valuable works in English and American Law, and in the Civil Law, together with a variety of others, by writers of France, Germany, and Spain.

The COLLEGE LIBRARY is in Gore Hall. It is for the common use of the whole University, in this respect differing from the other branches of the University Library; and it may be consulted, during Library hours, by all persons, whether connected with the University or not. The total number of books is about 104,000; of which 1,000 belong to the Boylston Medical Library, in immediate connection with it. In Term time, (excepting Christmas day, Fast day, the Fourth of July, and the two Recesses,) the Library is open on the first five secular days of the week, from 9 A. M. till 1 P. M., and from 2 P. M. till 5 P. M., or till sunset when that is before 5. In vacations, it is open from 9 to 1 o'clock on Mondays.

~~13~~ The Library is always closed on Saturdays and Sundays.

The total number of books in the Libraries of the University is, then, as follows:—

Public Library	104,000
Medical "	2,000
Law "	13,000
Theological Library	13,000
Lawrence Scientific Library	7,000
Phillips Astronomical Library	1,500
Society Libraries of the Students	17,000

Smith's Smaller History of Greece, or Sewell's History of Greece,
And the History of Rome in Worcester's Elements of History.

* Instructors are requested to teach their pupils to pronounce Greek with the *Greek accents*, and with the so-called *Continental* sound of the vowels and diphthongs,—for example, giving *a* the sound of *a* in *father*, *η* that of *a* in *fate*, *i* that of *i* in *machine*, *ει* that of *ei* in *height*, *ου* that of *oo* in *moon*, *αυ* that of *ou* in *house*.

TIME AND CONDITIONS OF EXAMINATION.

ALL candidates for admission to any Class in College must in the first place be examined for admission to the *Freshman* Class.

The regular examination for the Freshman and Sophomore Classes will take place on the Monday and Tuesday of Commencement week (July 17th and 18th, 1865), beginning precisely at 8 o'clock, A.M., on Monday. The candidates will assemble in No. 16 University Hall. Attendance on both days is required.*

The continuation of the examination of those who offer themselves for the *Junior* and *Senior* Classes will be deferred to the end of the vacation.

For the convenience of those who are prevented from being present at the regular examination, there will be another examination for the Freshman and Sophomore Classes, at the beginning of the First Term, on Thursday and Friday, August 31st and September 1st, 1865, attendance on both days being required. The candidates will assemble on Thursday, August 31st, in No. 16 University Hall, at 8 o'clock, A. M. On the next Monday, September 4th, the further examination of candidates offered for the Junior and Senior Classes (including those offered on Commencement week) will take place, beginning at 8 A. M. in No. 16 University Hall.

No person will be examined for admission to College at any other time than those above specified.

No person will be received to examination, unless it be his intention, if admitted, to join his Class immediately.

Candidates may be admitted to advanced standing as late as the First Term of the Senior year, provided they present themselves for examination as above directed. In order to admission to advanced standing, the candidate, whether from another College or not, must appear, on examination, to be well versed in the following studies:—

1. In the studies required for admission to the Freshman Class.

* Candidates for admission to the *Sophomore* Class who apply in July must either *finish* their examination at that time, or begin as new applicants at the examination in September.

2. In all the *required* studies already gone over by the Class for which he is offered.*

3. If he apply for admission to the Senior Class, in one of the *elective* studies of the Junior year.

He must also pay to the Steward, at the rate of \$45 per annum, according to the standing to which he is admitted. Any Student, however, who has a regular dismission from another College, may be admitted to the same standing, if, on examination, he is found qualified, without any pecuniary consideration. This charge for advanced standing is also remitted to indigent Students.

Every candidate, before examination, must produce proper testimonials of a good moral character, and, if admitted, must give a bond for four hundred dollars to pay all charges accruing under the laws and customs of the University. The bond must be executed by two bondsmen, who must be satisfactory to the Steward of the College, and one of them must be a citizen of Massachusetts.

* "A student who enters College at the beginning of the Junior year shall receive a place on the General Scale at the close of that year. He shall then be allowed for his Freshman and Sophomore years, in those departments in which he has studied with his Class during the Junior year, the same proportional part of the maximum mark of his Class as that which he has actually gained in the same departments in his Junior year; but in those studies of the first two years which his Class does not continue, or which he does not pursue with his Class, in the Junior year, he shall receive no marks except such as may be determined by a special examination, which he shall be permitted to pass for this purpose within the first term after his entrance.

"No student who enters College at or after the beginning of the Senior year shall be admitted to rank on the General Scale." — *Extract from Orders and Regulations.*

Only *real* equivalents for the prescribed text-books are accepted.

LECTURES TO UNDERGRADUATES.

FIRST TERM.

SENIOR CLASS.*

Modern Literature, — PROFESSOR LOWELL, Friday, at 4 o'clock, in Harvard Hall.

Anatomy, — PROFESSOR WYMAN, Tuesday and Thursday, at 11 o'clock, in Boylston Hall.

Mathematics, — PROFESSOR PEIRCE, Tuesday and Thursday, at 11 o'clock, in Harvard Hall. This course begins after PROFESSOR WYMAN's ends.

Optics, Acoustics, and Electricity, — PROFESSOR LOVERING, Thursday, at 12 o'clock, in No. 2 University Hall.

JUNIOR CLASS.

Electro-Statics, — PROFESSOR LOVERING, Tuesday, at 12 o'clock, in No. 2 University Hall.

Chemistry, — PROFESSOR COOKE, Thursday, at 12 o'clock, in Boylston Hall.

FRESHMAN CLASS.

Integral Education, — PRESIDENT HILL, Tuesday, at 10 o'clock, in No. 8 University Hall.

SECOND TERM.

SENIOR CLASS.

History, — PROFESSOR TORREY, Tuesday, at 11 o'clock, in Harvard Hall.

Mutual Relations of the Sciences, — PRESIDENT HILL, Tuesday, at 11 o'clock, in Harvard Hall.

Greek Language and Literature, — PROFESSOR GOODWIN, Monday, at 12 o'clock, in 16 University Hall.

JUNIOR CLASS.

Electro-Dynamics, — PROFESSOR LOVERING, Tuesday, at 11 o'clock, in No. 2 University Hall.

Botany, — PROFESSOR GRAY, Tuesday and Thursday, at 10 o'clock, in Harvard Hall.

SOPHOMORE CLASS.

English Literature, — PROFESSOR CHILD, Monday, at 12 o'clock, in University Hall.

Chemistry, — PROFESSOR COOKE, Friday, at 12 o'clock, in Boylston Hall.

* The Senior Class may attend Professor Agassiz's lectures at the Museum of Comparative Zoölogy, on Wednesday, at 3 o'clock, P. M., and Saturday, at 10 o'clock, A. M.; — and also the Rumford Lectures on Heat by Professor Gibbs, from 12 to 1 on Tuesday, in the Second Term.

EXERCISES IN COMPOSITION AND ELOCUTION.

THE Sophomore and Freshman Classes have each an exercise in Elocution once a week.

The Junior Class has an exercise in Declamation every week.

The Junior Class has an exercise in Themes once in two weeks, and the Sophomore Class once in four weeks.

The Senior Class has an exercise in Forensics once in two weeks.

Each Class writes Greek and Latin Exercises.

ELECTIVE AND EXTRA STUDIES.

ALL the studies of the Freshman and Sophomore years are *required*, except that French when taken by Sophomores is taken as an *extra*. In the Junior year Mathematics, Chemistry, Patristic and Modern Greek, German, Italian, and French, are elective studies ; — in the Senior year Latin, Greek, Mathematics, and advanced Italian, with a maximum mark of 8 ; Patristic Greek, German, and Spanish, with a maximum mark of 6. The other studies of the Junior and Senior years are required.

EXAMINATIONS.

EACH Class is examined annually, in writing, in the several studies of the year, before committees appointed for that purpose by the Overseers, and the results of these examinations have an important bearing on the rank of the Student, and, in some cases, on his continuance in College.

MUSIC.

INSTRUCTION in Music is given to those Undergraduates who desire it, and are sufficiently acquainted with the Rudiments.

COLLEGE GYMNASIUM.

The Gymnasium is open to all members of the University, subject to certain rules and conditions.

PUBLIC WORSHIP.

THERE are daily devotional services, with the reading of the Scriptures, and singing, in the College Chapel. All Undergraduates are required to be present; as they are also at public worship in the Chapel on Sunday, except such as have special permission, at the request of their parents or guardians, to attend other congregations, in the City of Cambridge or elsewhere.

EXPENSES.

THE expenses of an Undergraduate for a year are as follows:—

Instruction, Library, Lecture-rooms, Gymnasium, &c.	\$104.00
Rent and care of Room, in the College Buildings (average), . . .	28.00
Board for 40 weeks at \$6.00 per week,	240.00
Text-books (average),	16.00
Special Repairs, &c.,	from 1 to 2.00
	\$390.00

Other expenses must vary with the economy of each Student. Wood and coal ready for use are delivered at the Students' rooms, by the lessee of the College Wharf, on contract, at \$13.00 per cord for hard and \$11.00 for pine wood, exclusive of sawing and splitting; and \$13.00 a ton for anthracite, \$35.00 for cannel, and \$18.50 for Sydney coal. When a less quantity of coal than one ton is ordered, there will be an additional charge of fifty cents a ton. On and after October 1, 1864, coal and wood will be furnished at the market price. For carrying coal into the buildings in the College yard and into College House and Harvard Block, 80 cents a ton; into other buildings, 40 cents a ton. The rent of rooms in private houses is from \$52 to \$150 per annum. The price of board at present is from \$5.00 to \$7.00 a week, but of course varies with the provision market. Students living in College buildings find their own beds and furniture.

TERM-BILLS.

THE bills containing College charges are to be made out by the Steward, at the end of each Term; and must be settled *within a week from the commencement of the succeeding Term.*

THE bill for the Second Term of the Senior year must be paid two days at least before Commencement; and no Degree can be conferred until all books are returned to the Library, and all dues to the College are discharged.

PECUNIARY ASSISTANCE TO MERITORIOUS STUDENTS.

SCHOLARSHIPS.

THIRTY-EIGHT Scholarships have been established in the College, varying in their annual income from one hundred to three hundred dollars : —

One founded by persons educated at Phillips Exeter Academy, called, in honor of the late Principal of that school, the **ABBOT SCHOLARSHIP**.

A second, founded by the Class of 1814, and called the **SCHOLARSHIP OF THE CLASS OF 1814**.

A third, founded by the Class of 1817, and called the **SCHOLARSHIP OF THE CLASS OF 1817**.

Four in fulfilment of a bequest of Dr. George C. Shattuck, called the **SHATTUCK SCHOLARSHIPS**, with an income of one hundred and fifty dollars each.

One founded from a bequest of the Hon. Samuel B. Walcott.

Ten founded by John Eliot Thayer, Esq., called the **THAYER SCHOLARSHIPS**, with an income of three hundred dollars each.

Sixteen, with an income of two hundred and fifty dollars each, by a friend of the College, and called the **BOWDITCH SCHOLARSHIPS**, four to be assigned to each Class.

And four, with an income of two hundred and fifty dollars each, called the **TOWNSEND SCHOLARSHIPS**, from the legacy of the late Miss Townsend.

There are special provisions affecting the assignment of the Abbot Scholarship, and the Scholarship of the Class of 1814. The income belonging to the Shattuck and Thayer Scholarships is bestowed upon Students recommended by the Faculty of the College to the Trustees of the funds. The income of the sixteen Bowditch Scholarships will be bestowed by the President and Faculty. The income of the four Townsend Scholarships will be bestowed upon Students recommended by the Faculty to the Corporation. Applications from persons who wish to be considered as candidates will be received *on or before the first day of June* of each year; but none except those who are at once high scholars and need assistance are encouraged to apply. From the list of candidates the Faculty will make nominations to the Trustees of the Shattuck and Thayer Scholarships, and appointments or nominations to the others, being guided principally by the scale of rank for

the year. The nominations and appointments will be made at the end of each Academic Year, as soon as the scales of rank for the year can be prepared. The successful candidates shall receive one half of the annual income immediately upon the assignment of the Scholarships, and the remaining half at the end of the following half-year. But the Scholarships for the Senior Class shall be assigned before Commencement, as soon as the annual scale for that Class can be prepared, and the entire income for the year, of those within the control of the Faculty, shall be paid immediately thereupon. No person who has incurred a serious College censure in the course of the year shall be considered a candidate for a Scholarship.

The Scholarships, when voted, will be understood to cover the College year just ended; but the obtaining of a Scholarship for one year will not be held to constitute any title to a second nomination, unless the superiority for which it was originally awarded be fully maintained.

BENEFICIARY FUND.

VARIOUS bequests and donations have from time to time been made to the President and Fellows, the income of which is appropriated for the aid of deserving Students in narrow circumstances. The annual amount thus distributed from this source is about fourteen hundred dollars, which has usually been given as a gratuity, in sums ranging from twenty to sixty dollars. As some Students prefer to receive the aid in the form of a loan, the Corporation have divided the income of the Beneficiary Funds into two parts; one of which is given as a gratuity, and the other granted on loan to such Students as prefer to receive the aid in that form.

Applications for aid from the Beneficiary Fund are addressed to the President, and must be presented to him on or before *the first day of June*, by the parent or guardian, or by the Student himself if of age. The application should state particularly the circumstances of the case, with the reasons for making it, and whether a gratuity or a loan is desired.

LOAN FUND.

In addition to the Beneficiary Funds above described, of which the President and Fellows are trustees, there is a Loan Fund, raised by subscription among the friends of the University, the interest of which,

amounting to about twelve hundred dollars, is annually lent to meritorious Students desirous of receiving it, in sums ranging from twenty to eighty dollars. This fund is under the control of a Board of Trustees, in Boston; Edward Wigglesworth, Esq., Treasurer. About eight thousand dollars have been already added to the principal by reimbursements to that extent.

The applications for the Loan Fund, made in the same manner as for the Beneficiary Fund, by the parent or guardian, or by the Student himself, if of age, should be left with the President as early as *the first day of December*.

"The Trustees of the Fund for assisting Students at Harvard College request applicants for loans to observe the following rules:—

"1. To address their applications to the Treasurer of the Loan Fund, Edward Wigglesworth, Esq., Boston," and leave them with the President.

"2. To set forth their circumstances fully, as they would do on making application to an individual for like aid.

"3. To state what aid they have received, or expect to receive, from the College.

"4. If an applicant is under twenty-one years of age, his application must be accompanied by the written approval of his parent or guardian."

MONITORSHIPS, &c.

BESIDES the foregoing provisions for the aid of meritorious Students, the various monitorships, &c. amount to four hundred and eighty dollars a year, which may be considered as an addition, to that extent, to the beneficiary funds of the institution.

SCHOOL-KEEPING.

MERITORIOUS Students, whose circumstances require it, may, at the discretion of the Faculty, be absent for a limited time, not exceeding thirteen weeks, including the Winter Vacation, for the purpose of keeping school.

Applications for permission to keep school must be presented to the President as early as the *15th day of November*, and no absence will be allowed till a certificate of such permission has been first obtained from the President.

P R I Z E S.

I. D E T U R S.

A DISTRIBUTION of books, called "Deturs," is made from the income of the Hopkins Foundation, near the commencement of the Academical Year, to meritorious Students of the Sophomore Class, and to those Juniors who entered the Sophomore Class, and whose merit would have entitled them to this distinction. Thirty-two *Deturs* were given in the Sophomore Class, and four in the Junior Class, the last year.

Deturs are also given to such members of the Junior Class as, not having received them in the Sophomore year, shall, in the course of that year, make decided improvement in scholarship.

II. BOWDOIN PRIZE DISSERTATIONS.

In the Second Term of the Academical Year, prizes are assigned, from the Foundation of James Bowdoin, for English Dissertations, as follows:—

A prize of *fifty dollars* for the best Dissertation by a resident Graduate of the University, on either of the subjects proposed for writers of that standing;

A prize of *forty dollars* for the best, and a prize of *thirty dollars* for the second-best Dissertation by a member of the Senior Class of Undergraduates, on either of the subjects proposed for that Class;

A prize of *forty dollars* for the best, and a prize of *thirty dollars* for the second-best Dissertation by a member of the Junior Class, on either of the subjects proposed for that Class;

Provided there be so many Dissertations worthy of prizes in the opinion of the judges.

The Dissertations must be left at the President's office by the *first day of May*. *No performance will be received after that date.* The title-page must, with an assumed name, state the standing of the writer, as Graduate or Undergraduate, and if the latter, of what Class. A sealed letter must be sent in at the same time, under cover with the Dissertation, containing the true name of the writer, and superscribed with his assumed name.

The Dissertations must be written upon letter-paper of good quality, of the quarto size, with a margin of not less than one inch at the top and bottom and on each side, so that, if successful, they may be bound up without injury to the writing. The sheets on which the Dissertation is written must be securely stitched together.

No Dissertation to exceed in length the amount of twenty-five printed pages of the North American Review.

The following are the subjects for the present Academical Year:—

FOR RESIDENT GRADUATES.

Psychological and Physiological Criticism of Shakespeare.

The Federalist and De Tocqueville.

The Debt of Language and Literature to Christian Missions.

FOR MEMBERS OF THE SENIOR CLASS.

The Paradise Lost compared with the Divina Commedia.

Admiral Coligny.

Carey's View of Trade as the Instrument of Commerce.

FOR MEMBERS OF THE JUNIOR CLASS.

Aristophanes and Molière.

Roman Letter-Writers.

Newly discovered Agencies and Relations of Light.

The prizes for the last Academical Year were assigned as follows:—

Resident Graduates.

To HENRY GEORGE SPAULDING, a First Prize.

COMMITTEE.—The Rev. Rufus Ellis, George Otis Shattuck, and Charles Franklin Dunbar, Esquires.

Senior Class.

To JOHN LORING ELDREDGE, a First Prize.

COMMITTEE.—The Rev. Rollin Heber Neale, D.D., John Bacon, M.D., and Thomas Bulfinch, Esquire.

Junior Class.

To JAMES OTIS HOYT, a First Prize.

" F. JOSEPH COOK, a Second Prize.

COMMITTEE.—Epes S. Dixwell, Esquire, Prof. Wolcott Gibbs, Prof. Joseph Winlock, James Cushing Merrill, Esquire, and Edwin Hale Abbot.

III. BOWDOIN PRIZES FOR LATIN AND GREEK COMPOSITION.

Two Prizes will be assigned for Latin and Greek compositions, from the Bowdoin Prize Fund, under the following regulations for the present year.

A prize of *thirty-five dollars* for the best composition in Latin Verse, by a member of either the Senior or the Junior Class.

A prize of *thirty-five dollars* for the best composition in Greek Prose, by a member of either the Senior or the Junior Class.

The subjects for the compositions are given out, and the prizes awarded, by the Latin and Greek Departments, acting, in conjunction with the President, as a committee of the Faculty for that purpose.

No prize will be awarded unless the absolute merit of the composition shall be such as to deserve it.

The compositions, inscribed with assumed names, must be left at the President's Office by the *first day of May*, accompanied by sealed letters containing the authors' names, and superscribed with the assumed names.

The following are the subjects of the Compositions for the present Academical Year:—

FOR LATIN VERSIFICATION.

Thomson's Seasons, *Winter*, from verse 834, "Wide o'er the spacious regions," to verse 887, "Still pressing on,"— to be turned into Hexameters.

FOR GREEK PROSE COMPOSITION.

The "Description of Constantinople," in Gibbon's "Roman Empire," Chap. XVII., beginning with paragraph 3, "If we survey Byzantium," and ending with paragraph 8, "the commerce of the ancient world,"— to be *freely* translated into Attic prose.

No Student is allowed to write on both subjects.

The following Prize was awarded last year:—

For Greek Prose.

To ISAAC FLAGG, of the Senior Class.

For Latin Versification.

No Prize was awarded.

IV. BOYLSTON PRIZES FOR ELOCUTION.

AGREEABLY to the institution of the "Boylston Prizes for Elocution," on the day after Commencement in each year there will be held in University Hall, or in the First Church in Cambridge, a public exhibition and trial of the skill and improvement of the Students of the University in elocution.

The speakers are not to rehearse their own compositions ; but to select pieces in prose or verse from English, Greek, or Latin authors, the selections to be approved by the Boylston Professor of Rhetoric and Oratory. The proportion in English is to be at least two out of three.

The competitors must be Graduates of the year, or Undergraduates of one of the next two Classes ; and their names must be entered with the Professor, at the latest, *fourteen days* before Commencement. No applications will be received after that time.

The Corporation will, each year, select five gentlemen distinguished for their elocution, either at the bar, in the pulpit, or in the senate, who, with the Corporation, or a major part of them, will judge of the merits of the competitors, and award the prizes. They will assign five prizes : two First Prizes, namely, *fifteen dollars* to each of the best two speakers ; and three Second Prizes, namely, *ten dollars* to each of the next three best : Provided, that if the judges shall be of opinion that none of the competitors have exhibited sufficient skill and improvement to be entitled to the First Prizes, they may withhold them.

At this exhibition, no prompting of the speakers will be allowed ; and a failure of memory in any one will exclude him from being considered in the assignment of the prizes.

The following prizes were assigned, July 16th, 1863 :—

The two First Prizes.

To EDWARD TUFTS WILLIAMS, *of the Senior Class.*
" CHARLES BROOKS BRIGHAM, *of the Junior Class.*

The three Second Prizes.

To CHARLES WARREN CLIFFORD, *of the Senior Class.*
" ROLAND CROCKER LINCOLN, *of the Senior Class.*
" HENRY FOSTER BUSWELL, *of the Junior Class.*

V. PRIZES FOR READING.

Through the liberality of a friend of the College, prizes have been established, to be awarded to those who shall excel in the reading aloud of English prose. The prizes offered for the present year are as follows: —

To Members of the Senior and Junior Classes; at a public trial on Saturday, June 17, 1865,

One First Prize of *Forty Dollars*,
Two Second Prizes of *Thirty Dollars* each,
Two Third Prizes of *Twenty Dollars* each.

To Members of the Junior and Sophomore Classes (1865-6), at a public trial on Saturday, October 7, 1865,

One First Prize of *Thirty Dollars*,
Two Second Prizes of *Twenty Dollars* each,
Two Third Prizes of *Fifteen Dollars* each.

Provided that at each contest there is sufficient merit in the reading to warrant the giving of all the prizes. No competitor can receive a prize lower in grade than any which he has received at a previous contest.

To Members of the Freshman Class of 1865-6, at a private trial, September, 1865,

One First Prize of *Fifteen Dollars*,
Two Second Prizes of *Ten Dollars* each.

All the prizes will be given in books, unless the successful competitors satisfy the President that the prize in another form will be more useful to them.

The pieces to be read will be placed in the hands of the candidates on the morning of the day of trial. In their selection, declamatory pieces will be avoided, and such narratives, descriptions, or essays chosen as shall require varied expression and correct enunciation.

Candidates must hand in their names to the President at least one fortnight before the day of trial; and the Faculty reserve the right to select for each contest a limited number of the most promising candidates.

At a public trial, held June 18, 1864, there were awarded

A First Prize to F. JOSEPH COOK, of the Junior Class;

*Second Prizes to JAMES SWIFT ROGERS, of the Junior Class ;
JOHN WESLEY CHURCHILL, of the Junior Class ;*

*Third Prizes to EDWARD ROBBINS HOWE, of the Senior Class ;
CHARLES WARREN CLIFFORD, of the Junior Class ;
HENRY HARRISON SPRAGUE, of the Senior Class.*

LODGING AND BOARDING HOUSES FOR UNDERGRADUATES.

EXTRACT FROM THE STATUTES OF THE UNIVERSITY.

"CHAPTER XII. § 115. No Student shall lodge or board out of the College, except at such houses as are approved by the Faculty, and with the approbation of a parent or guardian, if the Student is under age; and no houses will be so approved, except such as conform to the Regulations the Faculty may establish."

REGULATIONS RELATIVE TO LODGING AND BOARDING HOUSES FOR UNDERGRADUATES.

At a meeting of the Faculty of Harvard College :—

Voted, That no Undergraduate shall be allowed to occupy a room in any house or building, (except a public College Hall,) in which a family approved by the Faculty of the College does not reside; or to take lodgings or board in any house, or board in any family, unless the house or family has been approved by a vote of the Faculty.

Voted, That no house shall be approved as a lodging or boarding house, unless the keeper of the house shall conform to the following regulations :—

1. That, in case of any festive entertainment, riotous noise, or other disturbance in a house so approved, or improper conduct at the table, the keeper of the house shall give immediate notice of the same, and of the persons concerned, to the President of the College.
2. That no wine or spirituous liquors be used; and that no smoking be permitted at the table or in the dining-room.
3. That the hours of meals shall conform to the times most suitable for the exercises of Undergraduates prescribed by the College Laws;

that is, for breakfast, immediately after prayers; and for dinner, at one o'clock, except from the Thanksgiving recess to the end of the First Term, when it shall be at two o'clock.

4. That the keepers of boarding-houses shall hand in their names to the Steward, with the price of board, a fortnight before the end of the Summer Term, the names and prices to be entered in a book, which shall be kept at the Steward's office for inspection; and that within a fortnight from the beginning of each Term they shall send the Regent a list of their boarders.

5. That the keepers of every lodging or boarding house shall report to the Regent the name of any Student leaving the lodging or boarding house, or coming to the lodging or boarding house during the Term.

Voted, That no Student shall change his room in any of the College buildings, without giving immediate notice thereof to the REGISTRAR; and that no Student shall change his lodging or boarding house, without giving similar notice to the REGENT, and notice also of the lodging or boarding house to which he has removed.

LAWS RELATIVE TO THE PATRON.

EXTRACT FROM THE STATUTES OF THE UNIVERSITY.

"CHAPTER XIV. § 121. Some gentleman of Cambridge, not of the Faculty, shall be appointed by the Corporation to be Patron of all Students, not of this Commonwealth, who belong to places more than one hundred miles distant from Cambridge, and whose parents or guardians desire to avail themselves of the regulations herein provided; and the Patron shall have charge of all the funds of such Students.

"§ 122. The parent or guardian of each Student shall be informed what are the necessary annual expenses included in the term-bills; and he shall also be informed by the Patron what funds for the support and use of his son or ward must be remitted to him; and the Patron is to have the whole control of the same, under the direction of the Faculty.

"§ 123. Every Student subject to the Patron Law is to be charged in his term-bill at the rate of two and a half per cent, as a compensation to the Patron for the disbursements made on his account.

"§ 124. No such Student is allowed to contract any debt without an order from the Patron, or from his parent or guardian."

JOHN B. DANA, Esq., of Cambridge, Assistant Steward, has been appointed Patron, and is confidently recommended to parents and guardians as a gentleman in whose discretion and fidelity to the trust entire confidence may be placed.

RESIDENT GRADUATES.

GRADUATES of the University, or of other collegiate institutions, desirous of pursuing their studies at Cambridge without joining any of the Professional Schools, are permitted to do so, in the capacity of Resident Graduates. They are allowed to enjoy the use of the Library and scientific collections, on the payment of *five dollars* a year, one half in advance, at the beginning of each Term.

They give to the Steward satisfactory bonds in the sum of two hundred dollars, signed by two bondsmen, one of whom must be a citizen of Massachusetts, and they are subject to the laws and regulations of the College, as far as applicable to them. They are admitted free to all the courses of public lectures delivered to the Undergraduates; and, upon the payment of a fee of five dollars for each course, to the Lectures delivered in the Scientific School.

DEGREE OF MASTER OF ARTS.

THE Degree of Master of Arts is conferred in course on every Bachelor of Arts of three years' standing, on the payment of the usual fee, who shall, in the interval, have sustained a good moral character. Graduates of longer standing may also have the Master's Degree upon the same condition. In both cases, application should be made at the Steward's office, either personally or by letter, as soon as the second day before Commencement. The fee, including the Diploma, is *five dollars*, payable in advance.

~~12~~ "The College will not be responsible for the safe-keeping of *any* DIPLOMA, unless a request, in writing, is left at the Steward's office two days, at least, before Commencement, that it may be taken from the files, and reserved for the applicant."

TERMS OF ADMISSION AND COURSE OF STUDY.

CANDIDATES for admission to the DIVINITY SCHOOL are expected to present themselves on the first day of the Term. If unknown to the Faculty, they are to produce testimonials to their moral and serious character. Candidates not Bachelors of Arts will be examined in the following books : —

Latin Grammar, Virgil, Cicero's Select Orations, and Sallust ;

Greek Grammar, Felton's Greek Reader, the first four books of Xenophon's *Anabasis*, and the first book of Herodotus, or the first two books of Xenophon's *Memorabilia* ;

Geography, Arithmetic, Geometry, and Algebra ;

Whately's Logic and Rhetoric (or some other approved treatises on Logic and Rhetoric), Locke's *Essay on the Human Understanding* (Book III.), Stewart's *Elements of the Philosophy of the Mind* (Vol. I.), Dymond's *Essays on the Principles of Morality*, Jouffroy's *Introduction to Ethics*, and Butler's *Analogy*.

Candidates for admission to an advanced standing must have been engaged in the study of Theology as long as the Class into which they propose to be received, and must pass an examination in the studies which that Class has pursued.

Students are required to reside in or near Divinity Hall. They give bonds in the sum of \$ 200 to the Steward, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of term-bills, which, including charges for instruction, rent and care of room and furniture, and use of class-books, amount to \$ 75 annually. Rooms in Divinity Hall are let to other than Divinity Students at \$ 30 a Term.

Each Student must possess a copy of the Old and New Testament Scriptures in the original languages, the latter in Griesbach's or Tischendorf's edition. A copy of all other class-books is furnished on loan. Indigent Students are aided from foundations and other sources. Three years, including the Vacations, which amount to twelve weeks in each year, complete the term of residence.

The course of instruction comprises Lectures, Recitations, and other exercises, on all the subjects usually included in a system of Theological Education, embracing,—

The Hebrew Language ;
The Principles of Criticism and Interpretation ;
The Criticism and Interpretation of the Scriptures ;
Natural Religion, and the Evidences of Revealed Religion ;
Systematic Theology, Christian Ethics, and Practical Divinity ;
Church History, and Church Polity ;
The Composition and Delivery of Sermons, and the Office of Public Prayer ;

And the Duties of the Pastoral Office.

The members of the several Classes have exercises in the practice of Extemporaneous Speaking, and the members of the Senior Class preach occasionally in Cambridge during the Summer Term.

Students are entitled to receive instruction from the Instructor in the German Language, and to attend, free of expense, all public lectures given to Undergraduates in the Academical Department.

INSTRUCTION, LIBRARY, GRADUATION, EXPENSES, PRIZES.

THE design of the LAW SCHOOL is to afford a complete course of legal education for gentlemen intended for the Bar in any of the United States, except in matters of mere local law and practice; and also a systematic course of studies in Commercial Jurisprudence for those who intend to devote themselves exclusively to mercantile pursuits.

Students may enter the School in any stage of their professional studies or mercantile pursuits. But they are advised, with a view to their own advantage and improvement, to enter at the beginning of those studies, rather than at a later period.

No examination, and no particular course of previous study, is required for admission; but the Student, if not a graduate of some college, must be at least nineteen years of age, and produce testimonials of good moral character. He also gives a bond, in the sum of \$ 200, to the Steward, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of College dues; or deposits, at his election, \$ 150 with the Steward, upon his entrance, and at the commencement of each subsequent Term, to be retained until the end of the Term, and then to be accounted for. No Student is matriculated until such testimonials are produced, and bond given.

The Terms of the Law School coincide with those of the Undergraduate Department; but the exercises begin on the Monday following the commencement of each Term.

The COURSE OF INSTRUCTION for the Bar embraces the various branches of the Common Law, and of Equity; Admiralty; Commercial, International, and Constitutional Law; and the Jurisprudence of the United States.

The COURSE OF INSTRUCTION for the Mercantile Profession is more limited, and embraces the principal branches only of Commercial Jurisprudence; namely, the Law of Agency, of Partnership, of Bailments, of Bills of Exchange and Promissory Notes, of Insurance, of Shipping, Navigation, and other maritime concerns, of Sales, and, if the Students desire it, of Constitutional Law.

No public instruction is given in the local or peculiar municipal jurisprudence of any particular State; but the Students are assisted by the

Professors, as occasion may require, in the private study of the law and practice peculiar to their own States.

Instruction is given by oral lectures and expositions, (and by recitations and examinations, in connection with them,) of which there are ten every week.

The Course of Studies is so arranged as to be completed in two Academical Years; and the studies for each Term are also arranged, as far as they may be, with reference to a course commencing with that Term, and extending through a period of two years; so that those who are beginning the study of the law may enter, at the commencement of either Term, upon branches suitable for them. Students may enter, also, if they so desire it, in the middle, or other part, of a Term. But it is recommended to them to enter at the beginning of an Academical Year, in preference to any other time, if it be convenient. They are at liberty to elect what studies they will pursue, according to their own view of their wants and attainments; but, as a general rule, it is advisable for them, during the First Term, to confine themselves to few branches, as subjects of regular study, giving attendance, however, upon all the lectures.

When a Student is desirous of pursuing a branch of study which does not form the subject of general instruction in that particular Term, the Professors will render him aid in its pursuit as a private study.

The Course of Study, under the different Instructors, is as follows:—

FIRST YEAR.

Commencing in the years 1862, 1864, &c.

FIRST TERM.

ROYALL PROFESSOR. *Agency, Equity Jurisprudence.*

DANE PROFESSOR. *Blackstone's Commentaries, Contracts, Evidence.*

BUSSEY PROFESSOR. *Law of Real Property, Arbitration.*

SECOND TERM.

ROYALL PROFESSOR. *Pleading, Constitutional Law.*

DANE PROFESSOR. *Kent's Commentaries, Evidence, Law of Nations.*

BUSSEY PROFESSOR. *Law of Real Property, Wills and Administration, Criminal Law.*

SECOND YEAR.

Commencing in the years 1863, 1865, &c.

FIRST TERM.

ROYALL PROFESSOR. *Bailments, Corporations, Equity Jurisprudence.*

DANE PROFESSOR. *Blackstone's Commentaries, Shipping and Admiralty, Insurance.*

BUSSEY PROFESSOR. *Law of Real Property, Domestic Relations, Bankruptcy and Insolvency.*

SECOND TERM.

ROYALL PROFESSOR. *Constitutional Law and Jurisprudence of the United States, Equity Pleading and Evidence.*

DANE PROFESSOR. *Kent and Blackstone, Bills and Notes, Partnership.*

BUSSEY PROFESSOR. *Law of Real Property, Sales, Conflict of Laws.*

EDWARD EVERETT, LL.D., will deliver a course of Lectures on the *Law of Nations*, during the year 1864 - 65, commencing the latter part of the Fall Term.

A Moot Court is held each week, at which a cause, previously assigned, is argued by four Students, and an opinion delivered by the presiding Professor.

Clubs are formed among the Students, in which dissertations upon legal subjects are read, and cases argued.

The LAW LIBRARY consists of about 13,000 volumes, and includes all the American Reports, the Statutes of the United States, those of all the States, a regular series of all the English Reports including the Year-Books, and the English Statutes, as well as the principal treatises in American and English Law; besides a large collection of Scotch, French, German, Dutch, Spanish, Italian, and other Foreign Law; and a very ample collection of the best editions of the Roman or Civil Law, together with the works of the most celebrated commentators upon that Law.

The Library is open for the use of Students during the Terms and the Winter Vacation, and those who desire it pursue their studies there, especially in the preparation of their Moot Court cases.

Students who have pursued their studies for the term of eighteen months in any Law Institution having legal authority to confer the degree

of Bachelor of Laws, one year of said term having been spent in this School,—or who, having been admitted to the Bar after a year's previous study, have subsequently pursued their studies in this School for one year,—are entitled, upon the certificate and recommendation of the Law Faculty, and on payment of all dues to the College, to the degree of Bachelor of Laws.

The fees are \$50 a Term, and \$25 for half or any smaller fraction of a Term; for which sum, without any additional charge, Students have the use of the lecture-rooms, the Law and College Libraries, and the textbooks; and they are admitted free to all the courses of public lectures delivered to the Undergraduates in the *Academical Department* of the University.

Upon the payment of a fee of \$5 for each course, the Law Students may also attend the Lectures delivered in the Lawrence Scientific School, on Zoölogy and Geology, by Professor AGASSIZ; on Comparative Anatomy and Physiology, by Professor WYMAN; on Botany, by Professor GRAY. They may also study any one of the foreign languages taught in the University, on payment of a fee of \$10 per annum.

The other expenses for a Term are nearly as follows:—

Board, in boarding-houses, twenty weeks, from \$ 5.00 to	
\$ 8.00 per week,	from \$ 100 to \$ 160
Room-rent, including care of room, but not making fires,	16 to 60
Furniture (if the Student does not furnish his room),	8 to 16
Washing,	7 to 15
Fuel, for the First or Winter Term, from August to January,	12 to 25
" for the Second or Summer Term, from February to July,	
from \$ 6 to \$ 10.	
Servant (if one is employed) to make fires, &c.,	5 to 10
	\$ 148 to \$ 286

Students may enter into economical arrangements, by which board need not exceed \$ 3.00 or \$ 5.00 a week.

Fuel, prepared for use, is furnished by the lessee of the College Wharf, at the market price, if the Students desire it.

PRIZE DISSERTATIONS.

PRIZES will hereafter be annually awarded, near the close of the second term of each Academical year, for the best and second-best Dissertations, written by Students of the Law School, on subjects given out by the Law Faculty, as follows:—

First. A prize of *sixty dollars* for the best, and of *fifty dollars* for the second-best Dissertation, by a Student who has attended the Law School at least three of the four Terms immediately preceding the award.

Second. A prize of *fifty dollars* for the best, and *forty dollars* for the second-best Dissertation, by a Student who has attended two of the three Terms next preceding the award.

The Term in which the award is made is included in the computation.

Students entitled to compete for the prizes on the first subject cannot write for the second.

No Student will write on both subjects.

The merit of the Dissertations will be adjudged by committees of Counsellors at Law, appointed by the Law Faculty.

The prizes will be awarded at the close of each Academical Year. Prizes will not be awarded unless the Dissertations offered shall be deemed to have sufficient merit.

The Dissertations must be left at the office of one of the Faculty, while the writer is a member of the Law School, and by the *first day of May* annually. Each Dissertation must have a motto, or assumed name, written upon it, and be accompanied by a sealed letter, having the same motto or name on the outside, and the true name of the writer within. Unsuccessful Dissertations will be returned to the writers when requested. A copy of the successful Dissertations must be left with one of the Faculty for preservation in the Library of the Law School. They must all be written on letter-paper of good quality, of the usual quarto size, with a suitable margin, so that, if successful, they may be bound up without injury to the writing. The sheets must be securely stitched together.

No Dissertation to exceed in length the amount of thirty pages, as large as the 16th page of the first volume of Greenleaf's Evidence, 2d edition.

Subjects for Dissertations the present Academical year:—

FOR STUDENTS THREE TERMS IN THE SCHOOL.

By what Means and to what Extent a Common Carrier may limit his Liability.

FOR STUDENTS TWO TERMS IN THE SCHOOL.

Of the Rights and Duties of Neutrals in respect to the armed Vessels of Belligerents.

The following prizes were assigned for the last year:—

For Dissertations, "The Rights, Duties, and Responsibilities of the Directors, Trustees, and Managers of Corporations as they relate to the Stockholders."

To JAMES PLUMMER BROWN, of Pittsburg, Pa., the First Prize of *sixty dollars*.

To FLAVIUS JOSEPHUS MACMILLAN, of Colborne, C. W., the Second Prize of *fifty dollars*.

For Dissertations, "The Extent to which the Doctrine of Tenure, as known to the Common Law, exists in this Country, and the Cases and Manner in which it affects the Rights of Landholders."

To DOUGLAS CAMPBELL, of Cherry Valley, N. Y., the First Prize of *fifty dollars*.

To FREDERIC ADAMS, of Orange, N. J., the Second Prize of *forty dollars*.

Committee. — HON. W. H. LOWRIE, of Pennsylvania.

HON. T. FRELINGHUYSEN, of New Jersey.

HON. J. G. ABBOTT, of Massachusetts.

COURSE OF STUDY.

THE books marked thus (*) compose the course which is completed in two years. The studies of gentlemen who remain longer in the School are pursued in other books in the *regular course*, to which others are added from time to time, as far as the leisure and progress of the Students may permit. REQUISITES FOR ADMISSION.

CANDIDATES for admission must have attained the age of eighteen years, have received a good common English education, and be qualified to pursue to advantage the courses of study to which they propose to give their attention. They must furnish satisfactory evidence of good moral character, give bonds, in the sum of \$200, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of all dues to the School, and register their names with the Dean of the Faculty. They will be admitted only at the commencement of a Term, unless by special permission. The special requisites for admission to the Departments of Chemistry and Engineering are stated below; and the candidates will present themselves on Monday, January 16, or July 17; or, if unable to come on those days, on Thursday, March 2, or August 31, 1865.

REQUIREMENTS OF STUDENTS.

Students of the Scientific School are required to board and lodge at licensed houses. They shall conduct themselves in a courteous and gentlemanly manner, and shall comply with all the regulations of the School and of the Department to which they belong.

A Scientific Student violating these regulations, or participating with an Undergraduate in an offence against the laws of the College, is liable to dismission from the School.

DEGREES.

The degree of *Bachelor of Science* may be conferred upon any Student who, having attended the instructions of the School for at least one year, and completed the prescribed course of studies in one or more Departments, shall have passed a satisfactory public examination.

The Department or Departments in which the Student has been examined, and his grade of merit, will be specified in the Diploma, and each Diploma will bear the signatures of the President and Faculty.

Certificates may be granted to Students who do not graduate, stating the time they have been present in the School, the studies pursued, and the progress made.

COURSES OF INSTRUCTION.

The number and choice of studies are to a limited extent optional on the part of Students, who will, however, be counselled on these points by the Professors; but a punctual attendance on all prescribed exercises will be required. In the Department of Engineering, examinations are held each Term upon the work of that Term, and no Student will be admitted to an examination for a degree in this Department who has not passed all the Term examinations of the Department.

I. CHEMISTRY.

PROFESSOR GIBBS will receive Special Students to the course of instruction in Experimental Chemistry and research, who will give their attendance in the Laboratory from 9 o'clock, A. M., till 5 o'clock, P. M., five days in the week.

The course will include instruction in —

Theoretical and Experimental Chemistry, and Systematic Qualitative and Quantitative Analysis, in all their branches; and

The solution of problems of research in experimental science and in the applications of science to the arts and manufactures.

The more thorough the previous acquaintance of the Student with Mathematics, Mechanics, Physics, and General Chemistry, the better.

Bolley's Chemical Technology.

II. ZOOLOGY AND GEOLOGY.

THE instruction in this Department consists, alternately, of a course of Lectures by Professor AGASSIZ on Zoölogy, embracing the fundamental principles of the classification of animals, as founded upon structure and embryonic development, and illustrating their natural affinities, habits, geographical distribution, and the relations which exist between the living and extinct races; and of a course on Geology, both theoretical and practical. The course on Geology will be delivered during the First Term.

Besides the instructions of the lecture-room, Professor Agassiz will afford the Students access to his laboratory during certain hours, in order to show them how to observe isolated facts, how to determine living and fossil animals, how to identify rocks of different formations, and how to conduct a regular geological survey.

For those who intend to make a further study in these sciences, excursions in the neighborhood will be made in Term-time, and longer excursions in vacation, to those parts of the country, near or remote, which offer the most instructive field for observation.

Text-Books and Works for Reading and Reference.

De la Beche's Geological Manual,	<i>For Local Information.</i>
Geological Observer, and Researches in Theoretical Geology.	Hitchcock's Geology of Massachusetts. Also,
Lyell's Elements of Geology, and Principles of Geology.	The Geological Reports published by the different States.
Guyot's Earth and Man.	Lyell's Travels in North America.
Dana's Geology.	Marcou's Geological Map of the World.

III. ENGINEERING.

STUDENTS in Engineering will give their attendance at the School from 9 o'clock, A. M., to 5 o'clock, P. M.

The course will include instruction in —

Surveying, with the use of the instruments, and actual operations in the field.

Drawing in all its branches; topographical, outline, shaded, and tinted, including Isometric Projections.

Analytical Geometry and Differential and Integral Calculus.

The principles of Mechanics, and their application to Machinery and Engineering.

Descriptive Geometry.

The theory of shades, shadows, and perspective.

The application of Descriptive Geometry to masonry and stone-cutting, in the construction of groined and cloistered arches, domes, &c.

The nature and properties of building materials, and their application to the construction of railroads, canals, bridges, &c.

The instruction will be given by daily exercises at the blackboard and by lectures.

Candidates will be examined in Sherwin's Algebra, Legendre's Geometry, and Plane Trigonometry, or their equivalents.

Candidates presenting themselves in January or March will also be examined in Church's Analytical Geometry, or its equivalent.

IV. BOTANY.

PROFESSOR GRAY will give a course of practical lessons in Systematic Botany, twice a week, from the first of May to the close of the Term, to Scientific Students properly prepared for it.

Also, a course of instruction, with a Text-Book, in the elements of Structural and Systematic Botany; two lessons a week, throughout the Second Term.

Text-Books.

Gray's Botanical Text-Book, or Gray's First Lessons in Botany.

Gray's Manual of the Botany of the Northern United States.

V. COMPARATIVE ANATOMY AND PHYSIOLOGY.

SPECIAL instruction will be given in the Anatomical Laboratory in Boylston Hall, by Professor J. WYMAN.

A course of Lectures will be delivered each Term.

Books of Reference.

Comparative Anatomy, by Siebold and Stannius, translated by W. I. Burnett, M. D.	Kirke and Paget's Hand-Book of Physiology.
Carpenter's General and Comparative Physiology, 4th ed.	Agassiz's Lectures on Comparative Embryology.
Wagner's Comparative Anatomy of Vertebrated Animals.	Owen's Lectures on Comparative Anatomy.
Rymer Jones's Outlines of the Animal Kingdom.	Müller's Physiology.
	Dalton's Physiology.

VI. MATHEMATICS.

INSTRUCTION will be given in the *Higher Mathematics*, and especially in *Analytical and Celestial Mechanics*, by Professor PEIRCE.

Private instruction in the various branches of Mathematics will be given to those desirous of receiving it, by competent instructors residing at the University.

VII. MINERALOGY.

PROFESSOR COOKE will give, during the Second Term, a course of practical instruction in Mineralogy. The course will embrace Theoretical Crystallography, the Determination and Drawing of Crystals, the Study of the Physical Properties of Minerals, and the Determination of Mineral Species. It will consist of recitations and lectures three times a week during the Term, and of practical exercises in the Laboratory. Students taking this course will have access to the Mineralogical Cabinet of the University, which has recently been greatly enlarged and improved.

Text-Books. Dana's Mineralogy; Cooke's Chemical Physics.

LECTURES, &c.

Students of the Scientific School may attend, without charge, any of the Lectures delivered to Undergraduates by the Professors in the Academical Department. (See page 33.)

The Anatomical Museum, the Museum of Comparative Zoölogy, the Botanic Garden, and the Public Library, are accessible to the Students of the Scientific School.

F E E S.

The fees are:—

In the Department of CHEMISTRY, for instruction, per Term of twenty weeks, *fifty dollars*; for Laboratory apparatus and supplies, *fifty dollars*; for one half or any less fraction of a Term, two thirds of the above sums.

The Students in Chemistry are supplied with all needed apparatus, and are required to restore it in as good condition as they receive it.

In the Department of ENGINEERING, for instruction five days in the week, *seventy-five dollars* per Term; for one half or any less fraction of a Term, two thirds of that sum.

Students in Engineering will supply themselves with drawing materials, necessary text-books, &c.

In the Department of MINERALOGY, for instruction three hours a week (see p. 76) during the Second Term, *fifteen dollars*.

In any of the other Departments, the fees for special instruction may be agreed upon with the instructor.

The Lectures delivered in the Scientific School may be attended by members of the other Professional Schools, and by persons not otherwise connected with the University, on payment of a fee of five dollars *per course*. Students in any department of the Scientific School may attend lectures in any other department of the School, on payment of a fee of five dollars *per course*, and all Academical Lectures (see preceding page) without charge. They may also study any one of the foreign modern languages taught in the University, on payment of a fee of *five dollars* per Term.

The Gymnasium is open to all members of the University. The fee for attendance and instruction is *two dollars* a Term.

For Board, Room-rent, &c., see pages 37, and 63.

For further information concerning the School, application may be made to Professor GIBBS.

OBJECTS AND COURSE OF INSTRUCTION.

THE objects of the Observatory are to furnish accurate and systematic observations of the heavenly bodies for the advancement of Astronomical Science, to co-operate in Geodetical and Nautical Surveys, to contribute to the improvement of Tables useful in Navigation, and, in general, to promote the progress of knowledge in Astronomy and the kindred sciences. To aid in effecting these objects, provision is made for publishing the Observations and the Director's Reports, and for increasing the Library.

Practical Astronomy and the Use of Astronomical Instruments will be taught at the Observatory, by Mr. GEORGE P. BOND, Director of the Observatory, and Phillips Professor of Astronomy, and by Truman H. Safford, Assistant.

INSTRUCTION AND DEGREES.

A THOROUGH course of medical instruction, by means of Lectures, recitations, examinations, dissections, and Hospital visits, is afforded to students wishing to enter the medical profession, and to those desirous of an acquaintance with the sciences on which medicine is founded.

Courses of Lectures are delivered annually at the Medical College in North Grove Street, Boston, which commence on the first Wednesday in November, and continue during seventeen weeks. At the termination of these courses there is an examination for degrees, and the successful candidates receive their diplomas at the Commencement on Wednesday of the week succeeding that in which the examinations are held.

On the following Monday (March 13, 1865) instruction is resumed by the Professors for those who attend during the Summer Term. In this Term there are at least five recitations and two Lectures each week. There is a visit at the Hospital every day, four times a week with the physicians, and twice a week with the surgeons. The students have access also to the following courses of Lectures delivered in the University at Cambridge at this time: on Comparative Anatomy and Physiology, by Professor Wyman; on Botany, by Professor Gray; on Acoustics and Optics, by Professor Lovering; and on Zoölogy, by Professor Agassiz.

ANATOMY and PHYSIOLOGY. The Lectures of the Winter Course are delivered every week-day at one o'clock, Saturday excepted. The demonstrations are aided by a very large number of colored illustrations, and by an extensive cabinet (the Warren Anatomical Museum), which is constantly increasing by regular accessions from a fund appropriated to that purpose, as well as from individual contributions. During the first three months of the summer course recitations in Physiology will be held twice each week. Preliminary examinations in anatomy will be held before the commencement of the winter Lectures, and a course of Lectures and demonstrations will be given, illustrating the use of the microscope and microscopic anatomy.

SURGERY. There are three Lectures each week during the Winter Term, and a visit to the Hospital every Saturday. The department is provided with an extensive collection of valuable preparations in wax to show various tumors and diseases of the skin, of colored casts in plaster of Paris, and of many beautiful magnified drawings of subjects in Anatomy and Surgery, and also with the newly-invented surgical instruments. Students have an opportunity of seeing surgical operations,

and these are explained and illustrated by anatomical demonstrations of the parts concerned. Clinical Lectures are delivered on cases seen by the students. There are two recitations a week during the months of March, April, and May, and there are two surgical visits a week at the Massachusetts General Hospital during the eight months of the year occupied by the Summer Term of instruction.

THEORY and PRACTICE. The subjects formerly included in this department are divided amongst three Professors. Dr. Jackson gives Lectures on Pathological Anatomy, exhibits recent specimens, and devotes an hour every week during the Lecture Term to an examination of the specimens in the Museum, pointing out what is of especial interest, and giving some account of symptoms.

Recitations are heard during the Summer Term by his Assistant, who makes the autopsies at the Hospital, and is the Curator of the Museum of Pathological Anatomy belonging to that institution. Dr. Bowditch gives Clinical Lectures at the Hospital, as well as instruction at the bedside; and instruction is given during the Summer Term, at the Hospital by Dr. Jackson, Dr. Gould, and the other physicians, as well as at the Dispensary by the assistants of the Professor of Clinical Medicine and of Pathological Anatomy, and the other medical officers. The Hersey Professor gives Lectures at the College, and holds examinations and recitations there and at the Hospital, where students have an opportunity of practising physical exploration, and of becoming familiar with the use of chemical analysis and the microscope.

A Clinical Conference is held every Friday afternoon during the Winter Term by the Professors of Clinical Medicine and of the Theory and Practice of Physic, assisted by other medical officers of the Massachusetts General Hospital, at which the members are practised in relating, recording, and commenting on medical and surgical cases.

MIDWIFERY and MEDICAL JURISPRUDENCE form one department. The Lectures on the Principles and Practice of Midwifery are illustrated by specimens and plates. Separate instruction is given in Operative Midwifery, and each member of the class has opportunity of learning the use of instruments.

The course on Medical Jurisprudence treats of the practical matters which are involved in the position and duties of experts in medical testimony, and in the examination of medico-legal questions. Recitations are heard twice a week in these departments during the three spring months.

MATERIA MEDICA. The physiological and therapeutical action of drugs is particularly described in these Lectures. Specimens of each drug and of the various pharmaceutical preparations to which it is subjected, and of its most important combinations and reactions, are exhibited to the students. During the Summer Session of the School instruction is given by recitations from approved text-books.

CHEMISTRY. In the Lectures of the Winter Course, the relations of Chemistry to Medicine receive special attention. The principal chemical preparations used in medical practice, poisons, and the tests by which they are detected, are considered. Attention is given to the bearings of Chemistry upon Physiology and Pathology, and to its applications in the diagnosis of diseases. The Lectures are fully illustrated by experiment. During the Summer Term, frequent recitations are heard, and the Laboratory of the Medical College is open for practical instruction in Chemistry daily, for two months.

FEES.

THE fee for matriculation is \$3, which is appropriated to the increase of the Library, and is to be paid to the Dean by all wishing to attend any of the Winter Courses of Lectures.

The fee for instruction during the long Term, from the first of March to the first of November, (the months of August and September being appropriated to a vacation,) is \$100.

The fees for the Winter Courses of Lectures amount in all to \$95, which are required to be paid when the tickets are taken.

The fee for graduation is \$20, which is deposited with the Dean when application is made to him for examination.

A fee of \$5 is to be paid by the students who use the dissecting-room during the winter months. This room is open during the months of March, April, and October, and supplied with subjects for the use of students of the Summer Course without additional expense. There is no charge for the use of the Library or for visits to the Hospital.

The introduction of a Summer Course of instruction involves no change in the amount or character of the Winter Courses of Lectures as heretofore conducted, nor in the requisites for a medical degree.

STATUTE REGULATIONS RELATIVE TO MEDICAL DEGREES.

THE FACULTY OF MEDICINE of this University shall consist of the President, and of the Professors and Lecturers authorized to give instruction to the Medical Students. This Faculty shall always have a Dean, elected by themselves, for such periods as they may think proper, and may also adopt rules for their own government, provided that the same do not in any respect contravene the laws of the University.

Students of Medicine designing to attend the Medical Lectures, or any of them, shall be matriculated in this University by entering their names with the Dean of the Faculty of Medicine, to be enrolled by him, and by signing an obligation to submit to the laws of the University, and to the direction of the Faculty of Medicine.

There shall be helden by the Faculty two meetings in each year for the purpose of examining candidates for the degree of Doctor in Medicine. These shall be helden in the Massachusetts Medical College, unless otherwise specially ordered. They may be continued by adjournment, by vote of the members present, and if only one member attend

at the time and place designated, he may adjourn the meeting from day to day till three members of the Faculty may attend the meeting. Three members of the Faculty must be present at every examination.

The first meeting for examination shall be held on the day next succeeding that on which the Winter Courses end ; the second, on the Monday next but one preceding the Commencement in July. In extraordinary cases, the Faculty may hold meetings for examination at other times.

Every candidate for the degree of Doctor in Medicine must comply with the following conditions before being admitted to examination :—

1. He shall satisfy the Faculty that he has arrived at the age of twenty-one.

2. He shall have attended two courses of Lectures delivered at the Massachusetts Medical College by each of the Professors ; except that, if he have attended a course of similar lectures in any other college or university, the same may take place of one of the above courses.

3. He shall have employed three years in his professional studies under the direction of a regular practitioner of medicine.

4. If he has not received a university education, he shall satisfy the Faculty of Medicine in respect to his knowledge of the Latin language and Experimental Philosophy.

5. He shall, four weeks previous to the day on which he presents himself for examination, have given notice of his intention to the Dean of the Faculty, and at the same time shall have delivered or transmitted to the Dean a dissertation, written by himself, on some subject connected with medicine.

Every dissertation shall be submitted by the Dean to the examination of the Faculty in the mode which they shall point out.

At the meetings for examination, the Faculty shall examine all the candidates who shall present themselves, after having complied with the conditions enumerated in these statutes, upon the following branches of Medical Science ; namely, Anatomy, Physiology, Chemistry, Materia Medica, Pharmacy, Morbid Anatomy, Midwifery, Surgery, Clinical Medicine, and the Theory and Practice of Medicine. The decision in respect to each candidate shall be determined by the vote of the major part of the members of the Faculty present at the examination of the same, and this decision, if favorable to the candidate, shall be recorded by the Dean. In the decisions to be made at these meetings, regard shall be had to the dissertation as well as to the examination.

At the close of the examination, the Faculty shall decide in respect to each candidate whether he shall be recommended as worthy of the degree for which he has applied. The decision of the Faculty in respect to all these candidates whom they so recommend, shall be recorded by the Dean, and shall by him be certified to the President, to be laid before the Corporation and Overseers.

Those candidates who have at the spring examination received from the Corporation and Overseers the final approbation, shall be admitted to the degree of Doctor in Medicine by the President of the University at a public Commencement holden on the Wednesday next succeeding the day of the examination, on which occasion an Address shall be delivered by some one selected for this purpose by the Medical Faculty. Those who may be approved at the summer examination will receive their degrees and diplomas in Cambridge, on Commencement Day. Public invitation to attend the ceremony at the Commencement immediately following the Lectures shall be given by the Dean of the Medical Faculty to the Fellows of the Massachusetts Medical Society, to all Medical Students, and to every person who may take an interest in Medical Science.

BOYLSTON PRIZE DISSERTATIONS.

AN ANNUAL PRIZE is assigned, from the Foundation of Ward Nicholas Boylston, for the best Dissertation on a Medical Subject, proposed by a committee appointed by the President and Fellows of the University.

The prize is of the amount of *one hundred and twenty dollars*, and may be taken either in money, or in the form of a gold medal of that value.

The Dissertations must be sent to Dr. E. Reynolds, on or before the first Wednesday in April.

The Annual Meeting at which the prize is awarded is held on the first Wednesday in August.

Each Dissertation must bear some motto or distinguishing mark, and be accompanied by a sealed letter containing the name of the writer. The unsuccessful Dissertations, with the accompanying letters unopened, are returned to the writers when called for within the year.

No prizes are awarded, if no one of the Dissertations presented is thought to be of sufficient merit.

COMMITTEE for reading the Dissertations and adjudging their merit:— Edward Reynolds, M.D., *Chairman*; John Jeffries, M.D.; Solomon D. Townsend, M.D.; John B. S. Jackson, M.D.; J. Mason Warren, M.D.; D. Humphreys Storer, M.D., *Secretary*; Charles G. Putnam, M.D.; Morrill Wyman, M.D.; Henry J. Bigelow, M.D.

This institution was founded in 1859. It is placed under the direction of a special Faculty, partly appointed by the Corporation of Harvard College, while the property is held by an independent Board of Trustees. Part of the northern wing of the building is already completed, and the collections have been removed to it. The special instruction in the zoological department of the Lawrence Scientific School is given in the laboratory, and the public lectures are delivered in the lecture-room of the Museum.

UNIVERSITY LECTURES.

COURSES of Lectures, open to all graduates of colleges and public school teachers who enter their names, to persons connected with the University, except undergraduates, and to others on the payment of five dollars a term, were delivered during the past year, as follows:—

- On the Natural History and Embryology of the Acalephæ, by **A. E. R. AGASSIZ, S.B.**
- On the Principles of Machinery, four lectures, by **PROFESSOR FAIRMAN ROGERS.**
- On Recent Researches in Exudative and Parasitic Diseases of the Skin, by **DR. JAMES C. WHITE.**
- On Physical Geography, by **REV. WILLIAM L. GAGE.**
- On Determinants, by **JAMES E. OLIVER, A. M.**
- On the Nebular Hypothesis, by **PROFESSOR BENJAMIN PEIRCE.**
- On the Theory of Space developed by Quaternions, by **PROFESSOR BENJAMIN PEIRCE.**
- Special Investigations in Dynamics, by **WILLIAM WATSON, Ph. D.**
- How and What to Observe in Natural History, by **PROFESSOR LOUIS AGASSIZ.**
- On English Literature, by **PROFESSOR LOWELL.**
- On the Uses of the Microscope in Anatomy, by **PROFESSOR OLIVER WENDELL HOLMES.**
- Instruction in Counterpoint and Fugue, by **J. K. PINE.**

The following Lectures will be delivered during the First Term of the Academical Year, 1864-5:—

1. On the Anatomy of the Medulla Oblongata and Spinal Cord. Four Lectures. By **DR. JOHN DEAN**, at the Medical College, Boston.
2. On Mental Diseases and Insanity. By **DR. JOHN E. TYLER**, at the Medical College, on Thursdays, at 4 o'clock, P. M., beginning November 9.
3. On the Origin of the Romance Languages, and their Connection with English. By **MR. FERDINAND BOCHE**, in Boylston Hall, on Mondays, at 5 o'clock, P. M., beginning November 21.
4. On the Natural History of Domesticated Animals. By **PROFESSOR L. AGASSIZ**, in the Museum, on Fridays, at 2 o'clock, P. M., beginning October 14.
5. How and what to Observe in Natural History. By **PROFESSOR L. AGASSIZ**, in the Museum, on Tuesdays, at 12 o'clock, M., beginning October 18.
6. On the Marine Animals of Massachusetts Bay. By **ALEXANDER AGASSIZ, S. B.**, in the Museum, on Thursdays, at 12 o'clock, M., beginning November 3.
7. On Theoretical Chemistry, six lectures. By **PROFESSOR WOLCOTT GIBBS**, every Wednesday, at 12 o'clock, M., beginning October 19, in the Lecture-Room of the Lawrence Scientific School.

L I B R A R Y.

THE UNIVERSITY LIBRARY is divided into four departments, viz. Theological, Medical, Law, and College; which last, besides books in all other departments of learning, embraces also an extensive collection of works on Theology, Medicine, and Law.

The **THEOLOGICAL LIBRARY** is in Divinity Hall. Persons entitled to its privileges must be connected with the Divinity School. Number of books, about 16,000. They consist of valuable select works, principally in modern Theology, with some of the early Fathers.

The **MEDICAL LIBRARY** is in the Medical College in Boston. It is placed there for the convenience of students attending the Medical Lectures. The number of books is about 2,000.

The **LAW LIBRARY** is in Dane Hall. It is designed for the officers and students of the Law School. Number of books, about 13,000. It contains most of the valuable works in English and American Law, and in the Civil Law, together with a variety of others, by writers of France, Germany, and Spain.

The **COLLEGE LIBRARY** is in Gore Hall. It is for the common use of the whole University, in this respect differing from the other branches of the University Library; and it may be consulted, during Library hours, by all persons, whether connected with the University or not. The total number of books is about 108,000; of which 1,000 belong to the Boylston Medical Library, in immediate connection with it. In Term time, (excepting Christmas day, Fast day, the Fourth of July, and the two Recesses,) the Library is open on the first five secular days of the week, from 9 A. M. till 1 P. M., and from 2 P. M. till 5 P. M., or till sunset when that is before 5. In vacations, it is open from 9 to 1 o'clock on Mondays.

[G] The Library is always closed on Saturdays and Sundays.

The total number of books in the Libraries of the University is, then, as follows: —

Public Library	108,000
Medical "	2,000
Law "	13,000
Theological Library	16,000
Lawrence Scientific Library	7,000
Phillips Astronomical Library	1,500

REQUISITES FOR ADMISSION.

CANDIDATES for admission to the Freshman Class are examined as follows: —

LATIN DEPARTMENT.

In the whole of Virgil,
The whole of Caesar's Commentaries,
Cicero's Select Orations, Folsom's or Johnson's edition,
Andrews and Stoddard's Latin Grammar, including Prosody,
And in writing Latin.

GREEK DEPARTMENT.*

In Felton's Greek Reader, or the whole of the Anabasis of Xenophon and the first three books of the Iliad (omitting the Catalogue of Ships in the second book),
Sophocles's, Crosby's, or Hadley's Greek Grammar, including Prosody and Versification,
And in writing Greek with the Accents.

MATHEMATICAL DEPARTMENT.

In Chase's Common School Arithmetic,
Sherwin's Common School Algebra, to Section XXXVIII.,
And in Hill's Second Book in Geometry, Parts I. and II., or "An Introduction to Geometry and the Science of Form," as far as Part III. vii. page 130.

HISTORICAL DEPARTMENT.

In Mitchell's Ancient and Modern Geography,
Smith's Smaller History of Greece, or Sewell's History of Greece,
And the History of Rome in Worcester's Elements of History.

* Instructors are requested to teach their pupils to pronounce Greek with the *Greek accents*, and with the so-called *Continental* sound of the vowels and diphthongs, — for example, giving *a* the sound of *a* in *father*, *ŋ* that of *a* in *face*, *i* that of *i* in *machine*, *ɛ* that of *ei* in *height*, *ou* that of *oo* in *moon*, *av* that of *ou* in *house*.

TIME AND CONDITIONS OF EXAMINATION.

ALL candidates for admission to any Class in College must in the first place be examined for admission to the *Freshman Class*.

The regular examination for the Freshman and Sophomore Classes will take place on the Monday and Tuesday of Commencement week (July 17th and 18th, 1865), beginning precisely at 8 o'clock, A.M., on Monday. The candidates will assemble in No. 16 University Hall. Attendance on both days is required.*

The continuation of the examination of those who offer themselves for the *Junior* and *Senior Classes* will be deferred to the end of the vacation.

For the convenience of those who are prevented from being present at the regular examination, there will be another examination for the Freshman and Sophomore Classes, at the beginning of the First Term, on Thursday and Friday, August 31st and September 1st, 1865, attendance on both days being required. The candidates will assemble on Thursday, August 31st, in No. 16 University Hall, at 8 o'clock, A.M. On the next Monday, September 4th, the further examination of candidates offered for the *Junior* and *Senior Classes* (including those offered on Commencement week) will take place, beginning at 8 A. M. in No. 16 University Hall.

No person will be examined for admission to College at any other time than those above specified.

No person will be received to examination, unless it be his intention, if admitted, to join his Class immediately.

Candidates may be admitted to advanced standing as late as the First Term of the Senior year, provided they present themselves for examination as above directed. In order to admission to advanced standing, the candidate, whether from another College or not, must appear, on examination, to be well versed in the following studies:—

1. In the studies required for admission to the Freshman Class.

* Candidates for admission to the *Sophomore Class* who apply in July must either *finish* their examination at that time, or begin as new applicants at the examination in September.

2. In all the *required* studies already gone over by the Class for which he is offered.*
3. If he apply for admission to the *Senior Class*, in one of the *elective* studies of the Junior year.

He must also pay to the Steward, at the rate of \$45 per annum, according to the standing to which he is admitted. Any Student, however, who has a regular dismission from another College, may be admitted to the same standing, if, on examination, he is found qualified, without any pecuniary consideration. This charge for advanced standing is also remitted to indigent Students.

Every candidate, before examination, must produce proper testimonials of a good moral character, and, if admitted, must give a bond for four hundred dollars to pay all charges accruing under the laws and customs of the University. The bond must be executed by two bondsmen, who must be satisfactory to the Steward of the College, and one of them must be a citizen of Massachusetts.

* "A student who enters College at the beginning of the Junior year shall receive a place on the General Scale at the close of that year. He shall then be allowed for his Freshman and Sophomore years, in those departments in which he has studied with his Class during the Junior year, the same proportional part of the maximum mark of his Class as that which he has actually gained in the same departments in his Junior year; but in those studies of the first two years which his Class does not continue, or which he does not pursue with his Class, in the Junior year, he shall receive no marks except such as may be determined by a special examination, which he shall be permitted to pass for this purpose within the first term after his entrance.

"No student who enters College at or after the beginning of the Senior year shall be admitted to rank on the General Scale."—*Extract from Orders and Regulations.*

Only *real* equivalents for the prescribed text-books are accepted.

Botany, — PROFESSOR GRAY, Tuesday and Thursday, at 10 o'clock, in Harvard Hall.

SOPHOMORE CLASS.

English Literature, — PROFESSOR CHILD, Monday, at 12 o'clock, in University Hall.

Chemistry, — PROFESSOR COOKE, Friday, at 12 o'clock, in Boylston Hall.

* The Senior Class may attend Professor Agassiz's lectures at the Museum of Comparative Zoölogy, on Wednesday, at 8 o'clock, P. M., and Saturday, at 10 o'clock, A. M.; — and also the Rumford Lectures on Heat by Professor Gibbs, from 12 to 1 on Tuesday, in the Second Term.

EXERCISES IN COMPOSITION AND ELOCUTION.

THE Sophomore and Freshman Classes have each an exercise in Elocution once a week.

The Junior Class has an exercise in Declamation every week.

The Junior Class has an exercise in Themes once in two weeks, and the Sophomore Class once in four weeks.

The Senior Class has an exercise in Forensics once in two weeks.

Each Class writes Greek and Latin Exercises.

ELECTIVE AND EXTRA STUDIES.

ALL the studies of the Freshman and Sophomore years are *required*, except that French when taken by Sophomores is taken as an *extra*. In the Junior year Mathematics, Chemistry, Patristic and Modern Greek, German, Italian, and French, are elective studies ; — in the Senior year Latin, Greek, Mathematics, and advanced Italian, with a maximum mark of 8 ; Patristic Greek, German, and Spanish, with a maximum mark of 6. The other studies of the Junior and Senior years are required.

EXAMINATIONS.

EACH Class is examined annually, in writing, in the several studies of the year, before committees appointed for that purpose by the Overseers, and the results of these examinations have an important bearing on the rank of the Student, and, in some cases, on his continuance in College.

MUSIC.

INSTRUCTION in Music is given to those Undergraduates who desire it, and are sufficiently acquainted with the Rudiments.

* Lectures.

† Half-hour recitations.

‡ In two divisions.

§ In three divisions.

NOT.— Where no special designation is added, it will be understood that the Seniors and Juniors recite in three divisions, the Sophomores in four (except on Tuesday and Thursday, when they recite in three), and the Freshmen in two.

COLLEGE GYMNASIUM.

THE Gymnasium is open to all members of the University, subject to certain rules and conditions.

PUBLIC WORSHIP.

THERE are daily devotional services, with the reading of the Scriptures, and singing, in the College Chapel. All Undergraduates are required to be present; as they are also at public worship in the Chapel on Sunday, except such as have special permission, at the request of their parents or guardians, to attend other congregations, in the City of Cambridge or elsewhere.

EXPENSES.

THE expenses of an Undergraduate for a year are as follows:—

Instruction, Library, Lecture-rooms, Gymnasium, &c.	\$104.00
Rent and care of Room, in the College Buildings (average), . .	28.00
Board for 40 weeks at \$6.00 per week,	240.00
Text-books (average),	16.00
Special Repairs, &c.,	from 1 to 2.00
	\$390.00

Other expenses must vary with the economy of each Student. Wood and coal ready for use are delivered at the Students' rooms, by the lessee of the College Wharf, on contract, at \$13.00 per cord for hard and \$11.00 for pine wood, exclusive of sawing and splitting; and \$13.00 a ton for anthracite, \$35.00 for cannel, and \$18.50 for Sydney coal. When a less quantity of coal than one ton is ordered, there will be an additional charge of fifty cents a ton. On and after October 1, 1864, coal and wood will be furnished at the market price. For carrying coal into the buildings in the College yard and into College House and Harvard Block, 80 cents a ton; into other buildings, 40 cents a ton. The rent of rooms in private houses is from \$52 to \$150 per annum. The price of board at present is from \$5.00 to \$7.00 a week, but of course varies with the provision market. Students living in College buildings find their own beds and furniture.

TERM-BILLS.

THE bills containing College charges are to be made out by the Steward, at the end of each Term; and must be settled within a week from the commencement of the succeeding Term.

The bill for the Second Term of the Senior year must be paid two days at least before Commencement; and no Degree can be conferred until all books are returned to the Library, and all dues to the College are discharged.

PECUNIARY ASSISTANCE TO MERITORIOUS STUDENTS.

SCHOLARSHIPS.

FOORTY Scholarships have been established in the College, varying in their annual income from one hundred to three hundred dollars :—

One founded by persons educated at Phillips Exeter Academy, called, in honor of the late Principal of that school, the **ABBOT SCHOLARSHIP**.

A second, founded by the Class of 1814, and called the **SCHOLARSHIP OF THE CLASS OF 1814**.

A third, founded by the Class of 1815, and called the **KIRKLAND SCHOLARSHIP**.

A fourth, founded by the Class of 1817, and called the **SCHOLARSHIP OF THE CLASS OF 1817**.

Four in fulfilment of a bequest of Dr. George C. Shattuck, called the **SHATTUCK SCHOLARSHIPS**, with an income of one hundred and fifty dollars each.

One founded from a bequest of the Hon. Samuel B. Walcott.

Ten founded by John Eliot Thayer, Esq., called the **THAYER SCHOLARSHIPS**, with an income of three hundred dollars each.

Sixteen, with an income of two hundred and fifty dollars each, by a friend of the College, and called the **BOWDITCH SCHOLARSHIPS**, four to be assigned to each Class.

Four, with an income of two hundred and fifty dollars each, called the **TOWNSEND SCHOLARSHIPS**, from the legacy of the late Miss Townsend.

And one, founded by Augustus Story, Esq., and called the **STORY SCHOLARSHIP**.

There are special provisions affecting the assignment of the Abbot Scholarship, and the Scholarship of the Class of 1814. The income belonging to the Shattuck and Thayer Scholarships is bestowed upon Students recommended by the Faculty of the College to the Trustees of the funds. The income of the sixteen Bowditch Scholarships will be bestowed by the President and Faculty. The income of the four Townsend Scholarships will be bestowed upon Students recommended by the Faculty to the Corporation. Applications from persons who wish to be considered as candidates will be received on or before the *first day of June* of each year; but none except those who are at once high scholars and need assistance are encouraged to apply. From the list of candidates the Faculty will make nominations to the Trustees

of the Shattuck and Thayer Scholarships, and appointments or nominations to the others, being guided principally by the scale of rank for the year. The nominations and appointments will be made at the end of each Academic Year, as soon as the scales of rank for the year can be prepared. The successful candidates shall receive one half of the annual income immediately upon the assignment of the Scholarships, and the remaining half at the end of the following half-year. But the Scholarships for the Senior Class shall be assigned before Commencement, as soon as the annual scale for that Class can be prepared, and the entire income for the year, of those within the control of the Faculty, shall be paid immediately thereupon. No person who has incurred a serious College censure in the course of the year shall be considered a candidate for a Scholarship.

The Scholarships, when voted, will be understood to cover the College year just ended; but the obtaining of a Scholarship for one year will not be held to constitute any title to a second nomination, unless the superiority for which it was originally awarded be fully maintained.

BENEFICIARY FUND.

VARIOUS bequests and donations have from time to time been made to the President and Fellows, the income of which is appropriated for the aid of deserving Students in narrow circumstances. The annual amount thus distributed from this source is about fourteen hundred dollars, which has usually been given as a gratuity, in sums ranging from twenty to sixty dollars. As some Students prefer to receive the aid in the form of a loan, the Corporation have divided the income of the Beneficiary Funds into two parts; one of which is given as a gratuity, and the other granted on loan to such Students as prefer to receive the aid in that form.

Applications for aid from the Beneficiary Fund are addressed to the President, and must be presented to him on or before *the first day of June*, by the parent or guardian, or by the Student himself if of age. The application should state particularly the circumstances of the case, with the reasons for making it, and whether a gratuity or a loan is desired.

LOAN FUND.

In addition to the Beneficiary Funds above described, of which the President and Fellows are trustees, there is a Loan Fund, raised by

subscription among the friends of the University, the interest of which, amounting to about twelve hundred dollars, is annually lent to meritorious Students desirous of receiving it, in sums ranging from twenty to eighty dollars. This fund is under the control of a Board of Trustees, in Boston; John Lowell, Esq., Treasurer. About eight thousand dollars have been already added to the principal by reimbursements to that extent.

The applications for the Loan Fund, made in the same manner as for the Beneficiary Fund, by the parent or guardian, or by the Student himself, if of age, should be left with the President as early as *the first day of December*.

"The Trustees of the Fund for assisting Students at Harvard College request applicants for loans to observe the following rules:—

"1. To address their applications to the Treasurer of the Loan Fund, John Lowell, Esq., Boston," and leave them with the President.

"2. To set forth their circumstances fully, as they would do on making application to an individual for like aid.

"3. To state what aid they have received, or expect to receive, from the College.

"4. If an applicant is under twenty-one years of age, his application must be accompanied by the written approval of his parent or guardian."

MONITORSHIPS, &c.

BESIDES the foregoing provisions for the aid of meritorious Students, the various monitorships, &c. amount to four hundred and eighty dollars a year, which may be considered as an addition, to that extent, to the beneficiary funds of the institution.

SCHOOL-KEEPING.

MERITORIOUS Students, whose circumstances require it, may, at the discretion of the Faculty, be absent for a limited time, not exceeding thirteen weeks, including the Winter Vacation, for the purpose of keeping school.

Applications for permission to keep school must be presented to the President as early as the *15th day of November*, and no absence will be allowed till a certificate of such permission has been first obtained from the President.

P R I Z E S.

I. DETURS.

A DISTRIBUTION of books, called "Deturs," is made from the income of the Hopkins Foundation, near the commencement of the Academical Year, to meritorious Students of the Sophomore Class, and to those Juniors who entered the Sophomore Class, and whose merit would have entitled them to this distinction. Thirty-two *Deturs* were given in the Sophomore Class, and four in the Junior Class, the last year.

Deturs are also given to such members of the Junior Class as, not having received them in the Sophomore year, shall, in the course of that year, make decided improvement in scholarship.

II. BOWDOIN PRIZE DISSERTATIONS.

In the Second Term of the Academical Year, prizes are assigned, from the Foundation of James Bowdoin, for English Dissertations, as follows:—

A prize of *fifty dollars* for the best Dissertation by a resident Graduate of the University, on either of the subjects proposed for writers of that standing;

A prize of *forty dollars* for the best, and a prize of *thirty dollars* for the second-best Dissertation by a member of the Senior Class of Undergraduates, on either of the subjects proposed for that Class;

A prize of *forty dollars* for the best, and a prize of *thirty dollars* for the second-best Dissertation by a member of the Junior Class, on either of the subjects proposed for that Class;

Provided there be so many Dissertations worthy of prizes in the opinion of the judges.

The Dissertations must be left at the President's office by the *first day of May*. No performance will be received after that date. The title-page must, with an assumed name, state the standing of the writer, as Graduate or Undergraduate, and if the latter, of what Class. A sealed letter must be sent in at the same time, under cover with the Dissertation, containing the true name of the writer, and superscribed with his assumed name.

The Dissertations must be written upon letter-paper of good quality, of the quarto size, with a margin of not less than one inch at the top and bottom and on each side, so that, if successful, they may be bound up without injury to the writing. The sheets on which the Dissertation is written must be securely stitched together.

No Dissertation to exceed in length the amount of twenty-five printed pages of the North American Review.

The following are the subjects for the present Academical Year:—

FOR RESIDENT GRADUATES.

Psychological and Physiological Criticism of Shakespeare.

The Federalist and De Tocqueville.

The Debt of Language and Literature to Christian Missions.

FOR MEMBERS OF THE SENIOR CLASS.

The Paradise Lost compared with the Divina Commedia.

Admiral Coligny.

Carey's View of Trade as the Instrument of Commerce.

FOR MEMBERS OF THE JUNIOR CLASS.

Aristophanes and Molière.

Roman Letter-Writers.

Newly discovered Agencies and Relations of Light.

The prizes for the last Academical Year were assigned as follows:—

Resident Graduates.

To HENRY GEORGE SPAULDING, a First Prize.

COMMITTEE.—The Rev. Rufus Ellis, George Otis Shattuck, and Charles Franklin Dunbar, Esquires.

Senior Class.

To JOHN LORING ELDREDGE, a First Prize.

COMMITTEE.—The Rev. Rollin Heber Neale, D.D., John Bacon, M.D., and Thomas Bulfinch, Esquire.

Junior Class.

To JAMES OTIS HOYT, a First Prize.

“ F. JOSEPH COOK, a Second Prize.

COMMITTEE.—Epes S. Dixwell, Esquire, Prof. Wolcott Gibbs, Prof. Joseph Winlock, James Cushing Merrill, Esquire, and Edwin Hale Abbot.

III. BOWDOIN PRIZES FOR LATIN AND GREEK COMPOSITION.

Two Prizes will be assigned for Latin and Greek compositions, from the Bowdoin Prize Fund, under the following regulations for the present year.

A prize of *thirty-five dollars* for the best composition in Latin Verse, by a member of either the Senior or the Junior Class.

A prize of *thirty-five dollars* for the best composition in Greek Prose, by a member of either the Senior or the Junior Class.

The subjects for the compositions are given out, and the prizes awarded, by the Latin and Greek Departments, acting, in conjunction with the President, as a committee of the Faculty for that purpose.

No prize will be awarded unless the absolute merit of the composition shall be such as to deserve it.

The compositions, inscribed with assumed names, must be left at the President's Office by the *first day of May*, accompanied by sealed letters containing the authors' names, and superscribed with the assumed names.

The following are the subjects of the Compositions for the present Academical Year:—

FOR LATIN VERSIFICATION.

Thomson's Seasons, *Winter*, from verse 834, "Wide o'er the spacious regions," to verse 887, "Still pressing on,"—to be turned into Hexameters.

FOR GREEK PROSE COMPOSITION.

The "Description of Constantinople," in Gibbon's "Roman Empire," Chap. XVII., beginning with paragraph 3, "If we survey Byzantium," and ending with paragraph 8, "the commerce of the ancient world,"—to be *freely* translated into Attic prose.

No Student is allowed to write on both subjects.

The following Prize was awarded last year:—

For Greek Prose.

To ISAAC FLAGG, *of the Senior Class.*

For Latin Versification.

No Prize was awarded.

IV. BOYLSTON PRIZES FOR ELOCUTION.

AGREEABLY to the institution of the "Boylston Prizes for Elocution," on the day after Commencement in each year there will be held in University Hall, or in the First Church in Cambridge, a public exhibition and trial of the skill and improvement of the Students of the University in elocution.

The speakers are not to rehearse their own compositions; but to select pieces in prose or verse from English, Greek, or Latin authors, the selections to be approved by the Boylston Professor of Rhetoric and Oratory. The proportion in English is to be at least two out of three.

The competitors must be Graduates of the year, or Undergraduates of one of the next two Classes; and their names must be entered with the Professor, at the latest, *fourteen days* before Commencement. No applications will be received after that time.

The Corporation will, each year, select five gentlemen distinguished for their elocution, either at the bar, in the pulpit, or in the senate, who, with the Corporation, or a major part of them, will judge of the merits of the competitors, and award the prizes. They will assign five prizes: two First Prizes, namely, *fifteen dollars* to each of the best two speakers; and three Second Prizes, namely, *ten dollars* to each of the next three best: Provided, that if the judges shall be of opinion that none of the competitors have exhibited sufficient skill and improvement to be entitled to the First Prizes, they may withhold them.

At this exhibition, no prompting of the speakers will be allowed; and a failure of memory in any one will exclude him from being considered in the assignment of the prizes.

The following prizes were assigned, July 16th, 1863:—

The two First Prizes.

To EDWARD TUFTS WILLIAMS, *of the Senior Class.*
" CHARLES BROOKS BRIGHAM, *of the Junior Class.*

The three Second Prizes.

To CHARLES WARREN CLIFFORD, *of the Senior Class.*
" ROLAND CROCKER LINCOLN, *of the Senior Class.*
" HENRY FOSTER BUSWELL, *of the Junior Class.*

V. PRIZES FOR READING.

THROUGH the liberality of a friend of the College, prizes have been established, to be awarded to those who shall excel in the reading aloud of English prose. The prizes offered for the present year are as follows: —

To Members of the Senior and Junior Classes, at a public trial on Saturday, June 17, 1865,

One First Prize of *Forty Dollars*,

Two Second Prizes of *Thirty Dollars* each,

Two Third Prizes of *Twenty Dollars* each.

To Members of the Junior and Sophomore Classes (1865-6), at a public trial on Saturday, October 7, 1865,

One First Prize of *Thirty Dollars*,

Two Second Prizes of *Twenty Dollars* each,

Two Third Prizes of *Fifteen Dollars* each.

Provided that at each contest there is sufficient merit in the reading to warrant the giving of all the prizes. No competitor can receive a prize lower in grade than any which he has received at a previous contest.

To Members of the Freshman Class of 1865-6, at a private trial, September, 1865,

One First Prize of *Fifteen Dollars*,

Two Second Prizes of *Ten Dollars* each.

All the prizes will be given in books, unless the successful competitors satisfy the President that the prize in another form will be more useful to them.

The pieces to be read will be placed in the hands of the candidates on the morning of the day of trial. In their selection, declamatory pieces will be avoided, and such narratives, descriptions, or essays chosen as shall require varied expression and correct enunciation.

Candidates must hand in their names to the President at least one fortnight before the day of trial; and the Faculty reserve the right to select for each contest a limited number of the most promising candidates.

At a public trial, held June 18, 1864, there were awarded

A First Prize to F. JOSEPH COOK, of the Junior Class;

46 LODGING AND BOARDING HOUSES FOR UNDERGRADUATES.

*Second Prizes to JAMES SWIFT ROGERS, of the Junior Class ;
JOHN WESLEY CHURCHILL, of the Junior Class ;*
*Third Prizes to EDWARD ROBBINS HOWE, of the Senior Class ;
CHARLES WARREN CLIFFORD, of the Junior Class ;
HENRY HARRISON SPRAGUE, of the Senior Class.*

LODGING AND BOARDING HOUSES FOR UNDERGRADUATES.

EXTRACT FROM THE STATUTES OF THE UNIVERSITY.

"CHAPTER XII. § 115. No Student shall lodge or board out of the College, except at such houses as are approved by the Faculty, and with the approbation of a parent or guardian, if the Student is under age; and no houses will be so approved, except such as conform to the Regulations the Faculty may establish."

REGULATIONS RELATIVE TO LODGING AND BOARDING HOUSES FOR UNDERGRADUATES.

At a meeting of the Faculty of Harvard College :—

Voted, That no Undergraduate shall be allowed to occupy a room in any house or building, (except a public College Hall,) in which a family approved by the Faculty of the College does not reside; or to take lodgings or board in any house, or board in any family, unless the house or family has been approved by a vote of the Faculty.

Voted, That no house shall be approved as a lodging or boarding house, unless the keeper of the house shall conform to the following regulations :—

1. That, in case of any festive entertainment, riotous noise, or other disturbance in a house so approved, or improper conduct at the table, the keeper of the house shall give immediate notice of the same, and of the persons concerned, to the President of the College.

2. That no wine or spirituous liquors be used; and that no smoking be permitted at the table or in the dining-room.

3. That the hours of meals shall conform to the times most suitable for the exercises of Undergraduates prescribed by the College Laws;

that is, for breakfast, immediately after prayers ; and for dinner, at one o'clock, except from the Thanksgiving recess to the end of the First Term, when it shall be at two o'clock.

4. That the keepers of boarding-houses shall hand in their names to the Steward, with the price of board, a fortnight before the end of the Summer Term, the names and prices to be entered in a book, which shall be kept at the Steward's office for inspection ; and that within a fortnight from the beginning of each Term they shall send the Regent a list of their boarders.

5. That the keepers of every lodging or boarding house shall report to the Regent the name of any Student leaving the lodging or boarding house, or coming to the lodging or boarding house during the Term.

Voted, That no Student shall change his room in any of the College buildings, without giving immediate notice thereof to the REGISTRAR ; and that no Student shall change his lodging or boarding house, without giving similar notice to the REGENT, and notice also of the lodging or boarding house to which he has removed.

LAWS RELATIVE TO THE PATRON.

EXTRACT FROM THE STATUTES OF THE UNIVERSITY.

"CHAPTER XIV. § 121. Some gentleman of Cambridge, not of the Faculty, shall be appointed by the Corporation to be Patron of all Students, not of this Commonwealth, who belong to places more than one hundred miles distant from Cambridge, and whose parents or guardians desire to avail themselves of the regulations herein provided; and the Patron shall have charge of all the funds of such Students.

"§ 122. The parent or guardian of each Student shall be informed what are the necessary annual expenses included in the term-bills; and he shall also be informed by the Patron what funds for the support and use of his son or ward must be remitted to him; and the Patron is to have the whole control of the same, under the direction of the Faculty.

"§ 123. Every Student subject to the Patron Law is to be charged in his term-bill at the rate of two and a half per cent, as a compensation to the Patron for the disbursements made on his account.

"§ 124. No such Student is allowed to contract any debt without an order from the Patron, or from his parent or guardian."

JOHN B. DANA, Esq., of Cambridge, Assistant Steward, has been appointed Patron, and is confidently recommended to parents and guardians as a gentleman in whose discretion and fidelity to the trust entire confidence may be placed.

RESIDENT GRADUATES.

GRADUATES of the University, or of other collegiate institutions, desirous of pursuing their studies at Cambridge without joining any of the Professional Schools, are permitted to do so, in the capacity of Resident Graduates. They are allowed to enjoy the use of the Library and scientific collections, on the payment of *five dollars* a year, one half in advance, at the beginning of each Term.

They give to the Steward satisfactory bonds in the sum of two hundred dollars, signed by two bondsmen, one of whom must be a citizen of Massachusetts, and they are subject to the laws and regulations of the College, as far as applicable to them. They are admitted free to all the courses of public lectures delivered to the Undergraduates; and, upon the payment of a fee of five dollars for each course, to the Lectures delivered in the Scientific School.

DEGREE OF MASTER OF ARTS.

THE Degree of Master of Arts is conferred in course on every Bachelor of Arts of three years' standing, on the payment of the usual fee, who shall, in the interval, have sustained a good moral character. Graduates of longer standing may also have the Master's Degree upon the same condition. In both cases, application should be made at the Steward's office, either personally or by letter, as soon as the second day before Commencement. The fee, including the Diploma, is *five dollars*, payable in advance.

NOTE "The College will not be responsible for the safe-keeping of *any* DIPLOMA, unless a request, in writing, is left at the Steward's office two days, at least, before Commencement, that it may be taken from the files, and reserved for the applicant."

TERMS OF ADMISSION AND COURSE OF STUDY.

CANDIDATES for admission to the DIVINITY SCHOOL are expected to present themselves on the first day of the Term. If unknown to the Faculty, they are to produce testimonials to their moral and serious character. Candidates not Bachelors of Arts will be examined in the following books : —

Latin Grammar, Virgil, Cicero's Select Orations, and Sallust ;

Greek Grammar, Felton's Greek Reader, the first four books of Xenophon's *Anabasis*, and the first book of Herodotus, or the first two books of Xenophon's *Memorabilia* ;

Geography, Arithmetic, Geometry, and Algebra ;

Whately's Logic and Rhetoric (or some other approved treatises on Logic and Rhetoric), Locke's Essay on the Human Understanding (Book III.), Stewart's Elements of the Philosophy of the Mind (Vol. I.), Dymond's Essays on the Principles of Morality, Jouffroy's Introduction to Ethics, and Butler's Analogy.

Candidates for admission to an advanced standing must have been engaged in the study of Theology as long as the Class into which they propose to be received, and must pass an examination in the studies which that Class has pursued.

Students are required to reside in or near Divinity Hall. They give bonds in the sum of \$ 200 to the Steward, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of term-bills, which, including charges for instruction, rent and care of room and furniture, and use of class-books, amount to \$ 75 annually. Rooms in Divinity Hall are let to other than Divinity Students at \$ 30 a Term.

Each Student must possess a copy of the Old and New Testament Scriptures in the original languages, the latter in Griesbach's or Tischendorf's edition. A copy of all other class-books is furnished on loan. Indigent Students are aided from foundations and other sources. Three years, including the Vacations, which amount to twelve weeks in each year, complete the term of residence.

The course of instruction comprises Lectures, Recitations, and other exercises, on all the subjects usually included in a system of Theological Education, embracing,—

The Hebrew Language ;
The Principles of Criticism and Interpretation ;
The Criticism and Interpretation of the Scriptures ;
Natural Religion, and the Evidences of Revealed Religion ;
Systematic Theology, Christian Ethics, and Practical Divinity ;
Church History, and Church Polity ;
The Composition and Delivery of Sermons, and the Office of Public Prayer ;

And the Duties of the Pastoral Office.

The members of the several Classes have exercises in the practice of Extemporaneous Speaking, and the members of the Senior Class preach occasionally in Cambridge during the Summer Term.

Students are entitled to receive instruction from the Instructor in the German Language, and to attend, free of expense, all public lectures given to Undergraduates in the Academical Department.

LODGING AND BOARDING HOUSES FOR UNDERGRADUATES.

EXTRACT FROM THE STATUTES OF THE UNIVERSITY.

"CHAPTER XII. § 115. No Student shall lodge or board out of the College, except at such houses as are approved by the Faculty, and with the approbation of a parent or guardian, if the Student is under age; and no houses will be so approved, except such as conform to the Regulations the Faculty may establish."

REGULATIONS RELATIVE TO LODGING AND BOARDING HOUSES FOR UNDERGRADUATES.

At a meeting of the Faculty of Harvard College :—

Voted, That no Undergraduate shall be allowed to occupy a room in any house or building, (except a public College Hall,) in which a family approved by the Faculty of the College does not reside; or to take lodgings or board in any house, or board in any family, unless the house or family has been approved by a vote of the Faculty.

Voted, That no house shall be approved as a lodging or boarding house, unless the keeper of the house shall conform to the following regulations :—

1. That, in case of any festive entertainment, riotous noise, or other disturbance in a house so approved, or improper conduct at the table, the keeper of the house shall give immediate notice of the same, and of the persons concerned, to the President of the College.

2. That no wine or spirituous liquors be used; and that no smoking be permitted at the table or in the dining-room.

3. That the hours of meals shall conform to the times most suitable for the exercises of Undergraduates prescribed by the College Laws;

that is, for breakfast, immediately after prayers ; and for dinner, at one o'clock, except from the Thanksgiving recess to the end of the First Term, when it shall be at two o'clock.

4. That the keepers of boarding-houses shall hand in their names to the Steward, with the price of board, a fortnight before the end of the Summer Term, the names and prices to be entered in a book, which shall be kept at the Steward's office for inspection ; and that within a fortnight from the beginning of each Term they shall send the Regent a list of their boarders.

5. That the keepers of every lodging or boarding house shall report to the Regent the name of any Student leaving the lodging or boarding house, or coming to the lodging or boarding house during the Term.

Voted, That no Student shall change his room in any of the College buildings, without giving immediate notice thereof to the REGISTRAR ; and that no Student shall change his lodging or boarding house, without giving similar notice to the REGENT, and notice also of the lodging or boarding house to which he has removed.

LAWS RELATIVE TO THE PATRON.

EXTRACT FROM THE STATUTES OF THE UNIVERSITY.

"CHAPTER XIV. § 121. Some gentleman of Cambridge, not of the Faculty, shall be appointed by the Corporation to be Patron of all Students, not of this Commonwealth, who belong to places more than one hundred miles distant from Cambridge, and whose parents or guardians desire to avail themselves of the regulations herein provided; and the Patron shall have charge of all the funds of such Students.

"§ 122. The parent or guardian of each Student shall be informed what are the necessary annual expenses included in the term-bills; and he shall also be informed by the Patron what funds for the support and use of his son or ward must be remitted to him; and the Patron is to have the whole control of the same, under the direction of the Faculty.

"§ 123. Every Student subject to the Patron Law is to be charged in his term-bill at the rate of two and a half per cent, as a compensation to the Patron for the disbursements made on his account.

"§ 124. No such Student is allowed to contract any debt without an order from the Patron, or from his parent or guardian."

JOHN B. DANA, Esq., of Cambridge, Assistant Steward, has been appointed Patron, and is confidently recommended to parents and guardians as a gentleman in whose discretion and fidelity to the trust entire confidence may be placed.

IV. BOYLSTON PRIZES FOR ELOCUTION.

AGREEABLY to the institution of the "Boylston Prizes for Elocution," on the day after Commencement in each year there will be held in University Hall, or in the First Church in Cambridge, a public exhibition and trial of the skill and improvement of the Students of the University in elocution.

The speakers are not to rehearse their own compositions; but to select pieces in prose or verse from English, Greek, or Latin authors, the selections to be approved by the Boylston Professor of Rhetoric and Oratory. The proportion in English is to be at least two out of three.

The competitors must be Graduates of the year, or Undergraduates of one of the next two Classes; and their names must be entered with the Professor, at the latest, *fourteen days* before Commencement. No applications will be received after that time.

The Corporation will, each year, select five gentlemen distinguished for their elocution, either at the bar, in the pulpit, or in the senate, who, with the Corporation, or a major part of them, will judge of the merits of the competitors, and award the prizes. They will assign five prizes: two First Prizes, namely, *fifteen dollars* to each of the best two speakers; and three Second Prizes, namely, *ten dollars* to each of the next three best: Provided, that if the judges shall be of opinion that none of the competitors have exhibited sufficient skill and improvement to be entitled to the First Prizes, they may withhold them.

At this exhibition, no prompting of the speakers will be allowed; and a failure of memory in any one will exclude him from being considered in the assignment of the prizes.

The following prizes were assigned, July 16th, 1863:—

The two First Prizes.

To EDWARD TUFTS WILLIAMS, *of the Senior Class.*
" CHARLES BROOKS BRIGHAM, *of the Junior Class.*

The three Second Prizes.

To CHARLES WARREN CLIFFORD, *of the Senior Class.*
" ROLAND CROCKER LINCOLN, *of the Senior Class.*
" HENRY FOSTER BUSWELL, *of the Junior Class.*

V. PRIZES FOR READING.

THROUGH the liberality of a friend of the College, prizes have been established, to be awarded to those who shall excel in the reading aloud of English prose. The prizes offered for the present year are as follows: —

To Members of the Senior and Junior Classes, at a public trial on Saturday, June 17, 1865,

One First Prize of *Forty Dollars*,
Two Second Prizes of *Thirty Dollars* each,
Two Third Prizes of *Twenty Dollars* each.

To Members of the Junior and Sophomore Classes (1865-6), at a public trial on Saturday, October 7, 1865,

One First Prize of *Thirty Dollars*,
Two Second Prizes of *Twenty Dollars* each,
Two Third Prizes of *Fifteen Dollars* each.

Provided that at each contest there is sufficient merit in the reading to warrant the giving of all the prizes. No competitor can receive a prize lower in grade than any which he has received at a previous contest.

To Members of the Freshman Class of 1865-6, at a private trial, September, 1865,

One First Prize of *Fifteen Dollars*,
Two Second Prizes of *Ten Dollars* each.

All the prizes will be given in books, unless the successful competitors satisfy the President that the prize in another form will be more useful to them.

The pieces to be read will be placed in the hands of the candidates on the morning of the day of trial. In their selection, declamatory pieces will be avoided, and such narratives, descriptions, or essays chosen as shall require varied expression and correct enunciation.

Candidates must hand in their names to the President at least one fortnight before the day of trial; and the Faculty reserve the right to select for each contest a limited number of the most promising candidates.

At a public trial, held June 18, 1864, there were awarded

A First Prize to F. JOSEPH COOK, of the Junior Class;

46 LODGING AND BOARDING HOUSES FOR UNDERGRADUATES.

*Second Prizes to JAMES SWIFT ROGERS, of the Junior Class ;
JOHN WESLEY CHURCHILL, of the Junior Class ;*
*Third Prizes to EDWARD ROBBINS HOWE, of the Senior Class ;
CHARLES WARREN CLIFFORD, of the Junior Class ;
HENRY HARRISON SPRAGUE, of the Senior Class.*

RESIDENT GRADUATES.

GRADUATES of the University, or of other collegiate institutions, desirous of pursuing their studies at Cambridge without joining any of the Professional Schools, are permitted to do so, in the capacity of Resident Graduates. They are allowed to enjoy the use of the Library and scientific collections, on the payment of *five dollars* a year, one half in advance, at the beginning of each Term.

They give to the Steward satisfactory bonds in the sum of two hundred dollars, signed by two bondsmen, one of whom must be a citizen of Massachusetts, and they are subject to the laws and regulations of the College, as far as applicable to them. They are admitted free to all the courses of public lectures delivered to the Undergraduates; and, upon the payment of a fee of five dollars for each course, to the Lectures delivered in the Scientific School.

DEGREE OF MASTER OF ARTS.

THE Degree of Master of Arts is conferred in course on every Bachelor of Arts of three years' standing, on the payment of the usual fee, who shall, in the interval, have sustained a good moral character. Graduates of longer standing may also have the Master's Degree upon the same condition. In both cases, application should be made at the Steward's office, either personally or by letter, as soon as the second day before Commencement. The fee, including the Diploma, is *five dollars*, payable in advance.

 "The College will not be responsible for the safe-keeping of *any* DIPLOMA, unless a request, in writing, is left at the Steward's office two days, at least, before Commencement, that it may be taken from the files, and reserved for the applicant."

TERMS OF ADMISSION AND COURSE OF STUDY.

CANDIDATES for admission to the DIVINITY SCHOOL are expected to present themselves on the first day of the Term. If unknown to the Faculty, they are to produce testimonials to their moral and serious character. Candidates not Bachelors of Arts will be examined in the following books : —

Latin Grammar, Virgil, Cicero's Select Orations, and Sallust ;

Greek Grammar, Felton's Greek Reader, the first four books of Xenophon's *Anabasis*, and the first book of Herodotus, or the first two books of Xenophon's *Memorabilia* ;

Geography, Arithmetic, Geometry, and Algebra ;

Whately's Logic and Rhetoric (or some other approved treatises on Logic and Rhetoric), Locke's *Essay on the Human Understanding* (Book III.), Stewart's *Elements of the Philosophy of the Mind* (Vol. I.), Dymond's *Essays on the Principles of Morality*, Jouffroy's *Introduction to Ethics*, and Butler's *Analogy*.

Candidates for admission to an advanced standing must have been engaged in the study of Theology as long as the Class into which they propose to be received, and must pass an examination in the studies which that Class has pursued.

Students are required to reside in or near Divinity Hall. They give bonds in the sum of \$ 200 to the Steward, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of term-bills, which, including charges for instruction, rent and care of room and furniture, and use of class-books, amount to \$ 75 annually. Rooms in Divinity Hall are let to other than Divinity Students at \$ 30 a Term.

Each Student must possess a copy of the Old and New Testament Scriptures in the original languages, the latter in Griesbach's or Tischendorf's edition. A copy of all other class-books is furnished on loan. Indigent Students are aided from foundations and other sources. Three years, including the Vacations, which amount to twelve weeks in each year, complete the term of residence.

. The course of instruction comprises Lectures, Recitations, and other exercises, on all the subjects usually included in a system of Theological Education, embracing,—

The Hebrew Language ;
The Principles of Criticism and Interpretation ;
The Criticism and Interpretation of the Scriptures ;
Natural Religion, and the Evidences of Revealed Religion ;
Systematic Theology, Christian Ethics, and Practical Divinity ;
Church History, and Church Polity ;
The Composition and Delivery of Sermons, and the Office of Public Prayer ;

And the Duties of the Pastoral Office.

The members of the several Classes have exercises in the practice of Extemporaneous Speaking, and the members of the Senior Class preach occasionally in Cambridge during the Summer Term.

Students are entitled to receive instruction from the Instructor in the German Language, and to attend, free of expense, all public lectures given to Undergraduates in the Academical Department.

INSTRUCTION, LIBRARY, GRADUATION, EXPENSES, PRIZES.

THE design of the LAW SCHOOL is to afford a complete course of legal education for gentlemen intended for the Bar in any of the United States, except in matters of mere local law and practice; and also a systematic course of studies in Commercial Jurisprudence for those who intend to devote themselves exclusively to mercantile pursuits.

Students may enter the School in any stage of their professional studies or mercantile pursuits. But they are advised, with a view to their own advantage and improvement, to enter at the beginning of those studies, rather than at a later period.

No examination, and no particular course of previous study, is required for admission; but the Student, if not a graduate of some college, must be at least nineteen years of age, and produce testimonials of good moral character. He also gives a bond, in the sum of \$ 200, to the Steward, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of College dues; or deposits, at his election, \$150 with the Steward, upon his entrance, and at the commencement of each subsequent Term, to be retained until the end of the Term, and then to be accounted for. No Student is matriculated until such testimonials are produced, and bond given.

The Terms of the Law School coincide with those of the Undergraduate Department; but the exercises begin on the Monday following the commencement of each Term.

The COURSE OF INSTRUCTION for the Bar embraces the various branches of the Common Law, and of Equity; Admiralty; Commercial, International, and Constitutional Law; and the Jurisprudence of the United States.

The COURSE OF INSTRUCTION for the Mercantile Profession is more limited, and embraces the principal branches only of Commercial Jurisprudence; namely, the Law of Agency, of Partnership, of Bailments, of Bills of Exchange and Promissory Notes, of Insurance, of Shipping, Navigation, and other maritime concerns, of Sales, and, if the Students desire it, of Constitutional Law.

No public instruction is given in the local or peculiar municipal jurisprudence of any particular State; but the Students are assisted by the

Professors, as occasion may require, in the private study of the law and practice peculiar to their own States.

Instruction is given by oral lectures and expositions, (and by recitations and examinations, in connection with them,) of which there are ten every week.

The Course of Studies is so arranged as to be completed in two Academical Years; and the studies for each Term are also arranged, as far as they may be, with reference to a course commencing with that Term, and extending through a period of two years; so that those who are beginning the study of the law may enter, at the commencement of either Term, upon branches suitable for them. Students may enter, also, if they so desire it, in the middle, or other part, of a Term. But it is recommended to them to enter at the beginning of an Academical Year, in preference to any other time, if it be convenient. They are at liberty to elect what studies they will pursue, according to their own view of their wants and attainments; but, as a general rule, it is advisable for them, during the First Term, to confine themselves to few branches, as subjects of regular study, giving attendance, however, upon all the lectures.

When a Student is desirous of pursuing a branch of study which does not form the subject of general instruction in that particular Term, the Professors will render him aid in its pursuit as a private study.

The Course of Study, under the different Instructors, is as follows:—

FIRST YEAR.

Commencing in the years 1862, 1864, &c.

FIRST TERM.

ROYALL PROFESSOR. *Agency, Equity Jurisprudence.*

DANE PROFESSOR. *Blackstone's Commentaries, Contracts, Evidence.*

BUSSEY PROFESSOR. *Law of Real Property, Arbitration.*

SECOND TERM.

ROYALL PROFESSOR. *Pleading, Constitutional Law.*

DANE PROFESSOR. *Kent's Commentaries, Evidence, Law of Nations.*

BUSSEY PROFESSOR. *Law of Real Property, Wills and Administration, Criminal Law.*

SECOND YEAR.

Commencing in the years 1863, 1865, &c.

FIRST TERM.

ROYALL PROFESSOR. *Bailments, Corporations, Equity Jurisprudence.*

DANE PROFESSOR. *Blackstone's Commentaries, Shipping and Admiralty, Insurance.*

BUSSNEY PROFESSOR. *Law of Real Property, Domestic Relations, Bankruptcy and Insolvency.*

SECOND TERM.

ROYALL PROFESSOR. *Constitutional Law and Jurisprudence of the United States, Equity Pleading and Evidence.*

DANE PROFESSOR. *Kent and Blackstone, Bills and Notes, Partnership.*

BUSSNEY PROFESSOR. *Law of Real Property, Sales, Conflict of Laws.*

EDWARD EVERETT, LL.D., will deliver a course of Lectures on the *Law of Nations*, during the year 1864 - 65, commencing the latter part of the Fall Term.

A MOOT COURT is held each week, at which a cause, previously assigned, is argued by four Students, and an opinion delivered by the presiding Professor.

Clubs are formed among the Students, in which dissertations upon legal subjects are read, and cases argued.

The LAW LIBRARY consists of about 13,000 volumes, and includes all the American Reports, the Statutes of the United States, those of all the States, a regular series of all the English Reports including the Year-Books, and the English Statutes, as well as the principal treatises in American and English Law; besides a large collection of Scotch, French, German, Dutch, Spanish, Italian, and other Foreign Law; and a very ample collection of the best editions of the Roman or Civil Law, together with the works of the most celebrated commentators upon that Law.

The Library is open for the use of Students during the Terms and the Winter Vacation, and those who desire it pursue their studies there, especially in the preparation of their Moot Court cases.

Students who have pursued their studies for the term of eighteen months in any Law Institution having legal authority to confer the degree

of Bachelor of Laws, one year of said term having been spent in this School,—or who, having been admitted to the Bar after a year's previous study, have subsequently pursued their studies in this School for one year,—are entitled, upon the certificate and recommendation of the Law Faculty, and on payment of all dues to the College, to the degree of Bachelor of Laws.

The fees are \$50 a Term, and \$25 for half or any smaller fraction of a Term; for which sum, without any additional charge, Students have the use of the lecture-rooms, the Law and College Libraries, and the text-books; and they are admitted free to all the courses of public lectures delivered to the Undergraduates in the *Academical Department* of the University.

Upon the payment of a fee of \$5 for each course, the Law Students may also attend the Lectures delivered in the Lawrence Scientific School, on Zoölogy and Geology, by Professor AGASSIZ; on Comparative Anatomy and Physiology, by Professor WYMAN; on Botany, by Professor GRAY. They may also study any one of the foreign languages taught in the University, on payment of a fee of \$10 per annum.

The other expenses for a Term are nearly as follows:—

Board, in boarding-houses, twenty weeks, from \$ 5.00 to	
\$ 8.00 per week,	from \$ 100 to \$ 160
Room-rent, including care of room, but not making fires, . . .	16 to 60
Furniture (if the Student does not furnish his room),	8 to 16
Washing,	7 to 15
Fuel, for the First or Winter Term, from August to January,	12 to 25
" for the Second or Summer Term, from February to July,	
from \$ 6 to \$ 10.	
Servant (if one is employed) to make fires, &c.,	5 to 10
	\$ 148 to \$ 286

Students may enter into economical arrangements, by which board need not exceed \$ 3.00 or \$ 5.00 a week.

Fuel, prepared for use, is furnished by the lessee of the College Wharf, at the market price, if the Students desire it.

PRIZE DISSERTATIONS.

PRIZES will hereafter be annually awarded, near the close of the second term of each Academical year, for the best and second-best Dissertations, written by Students of the Law School, on subjects given out by the Law Faculty, as follows:—

First. A prize of *sixty dollars* for the best, and of *fifty dollars* for the second-best Dissertation, by a Student who has attended the Law School at least three of the four Terms immediately preceding the award.

Second. A prize of *fifty dollars* for the best, and *forty dollars* for the second-best Dissertation, by a Student who has attended two of the three Terms next preceding the award.

The Term in which the award is made is included in the computation.

Students entitled to compete for the prizes on the first subject cannot write for the second.

No Student will write on both subjects.

The merit of the Dissertations will be adjudged by committees of Counsellors at Law, appointed by the Law Faculty.

The prizes will be awarded at the close of each Academical Year. Prizes will not be awarded unless the Dissertations offered shall be deemed to have sufficient merit.

The Dissertations must be left at the office of one of the Faculty, while the writer is a member of the Law School, and by the *first day of May* annually. Each Dissertation must have a motto, or assumed name, written upon it, and be accompanied by a sealed letter, having the same motto or name on the outside, and the true name of the writer within. Unsuccessful Dissertations will be returned to the writers when requested. A copy of the successful Dissertations must be left with one of the Faculty for preservation in the Library of the Law School. They must all be written on letter-paper of good quality, of the usual quarto size, with a suitable margin, so that, if successful, they may be bound up without injury to the writing. The sheets must be securely stitched together.

No Dissertation to exceed in length the amount of thirty pages, as large as the 16th page of the first volume of Greenleaf's Evidence, 2d edition.

Subjects for Dissertations the present Academical year:—

FOR STUDENTS THREE TERMS IN THE SCHOOL.

By what Means and to what Extent a Common Carrier may limit his Liability.

FOR STUDENTS TWO TERMS IN THE SCHOOL.

Of the Rights and Duties of Neutrals in respect to the armed Vessels of Belligerents.

The following prizes were assigned for the last year:—

For Dissertations, "The Rights, Duties, and Responsibilities of the Directors, Trustees, and Managers of Corporations as they relate to the Stockholders."

To JAMES PLUMMER BROWN, of Pittsburg, Pa., the First Prize of *sixty dollars*.

To FLAVIUS JOSEPHUS MACMILLAN, of Colborne, C. W., the Second Prize of *fifty dollars*.

For Dissertations, "The Extent to which the Doctrine of Tenure, as known to the Common Law, exists in this Country, and the Cases and Manner in which it affects the Rights of Landholders."

To DOUGLAS CAMPBELL, of Cherry Valley, N. Y., the First Prize of *fifty dollars*.

To FREDERIC ADAMS, of Orange, N. J., the Second Prize of *forty dollars*.

Committee. — HON. W. H. LOWRIE, of Pennsylvania.

HON. T. FRELINGHUYSEN, of New Jersey.

HON. J. G. ABBOTT, of Massachusetts.

COURSE OF STUDY.

THE books marked thus (*) compose the course which is completed in two years. The studies of gentlemen who remain longer in the School are pursued in other books in the *regular course*, to which others are added from time to time, as far as the leisure and progress of the Students may permit. The *parallel course* is prescribed chiefly for private reading.

REQUISITES FOR ADMISSION.

CANDIDATES for admission must have attained the age of eighteen years, have received a good common English education, and be qualified to pursue to advantage the courses of study to which they propose to give their attention. They must furnish satisfactory evidence of good moral character, give bonds, in the sum of \$200, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of all dues to the School, and register their names with the Dean of the Faculty. They will be admitted only at the commencement of a Term, unless by special permission. The special requisites for admission to the Departments of Chemistry and Engineering are stated below; and the candidates will present themselves on Monday, January 16, or July 17; or, if unable to come on those days, on Thursday, March 2, or August 31, 1865.

REQUIREMENTS OF STUDENTS.

STUDENTS of the Scientific School are required to board and lodge at licensed houses. They shall conduct themselves in a courteous and gentlemanly manner, and shall comply with all the regulations of the School and of the Department to which they belong.

A Scientific Student violating these regulations, or participating with an Undergraduate in an offence against the laws of the College, is liable to dismission from the School.

DEGREES.

THE degree of *Bachelor of Science* may be conferred upon any Student who, having attended the instructions of the School for at least one year, and completed the prescribed course of studies in one or more Departments, shall have passed a satisfactory public examination.

The Department or Departments in which the Student has been examined, and his grade of merit, will be specified in the Diploma, and each Diploma will bear the signatures of the President and Faculty.

Certificates may be granted to Students who do not graduate, stating the time they have been present in the School, the studies pursued, and the progress made.

COURSES OF INSTRUCTION.

THE number and choice of studies are to a limited extent optional on the part of Students, who will, however, be counselled on these points by the Professors; but a punctual attendance on all prescribed exercises will be required. In the Department of Engineering, examinations are held each Term upon the work of that Term, and no Student will be admitted to an examination for a degree in this Department who has not passed all the Term examinations of the Department.

I. CHEMISTRY.

PROFESSOR GIBBS will receive Special Students to the course of instruction in Experimental Chemistry and research, who will give their attendance in the Laboratory from 9 o'clock, A. M., till 5 o'clock, P. M., five days in the week.

The course will include instruction in —

Theoretical and Experimental Chemistry, and Systematic Qualitative and Quantitative Analysis, in all their branches; and

The solution of problems of research in experimental science and in the applications of science to the arts and manufactures.

The more thorough the previous acquaintance of the Student with Mathematics, Mechanics, Physics, and General Chemistry, the better.

Text-Books.

Fownes's Chemistry.

Will's Outlines of Chemical Analysis.

Fresenius's Analysis.

Cooke's Chemical Physics.

Miller's Chemical Physics.

Miller's Elements of Chemistry.

Bowman's Medical Chemistry.

Dalton's Physiology.

Dana's Mineralogy.

Books of Reference.

Gmelin's Hand-Book of Chemistry.

Muspratt's Chemistry applied to Arts and Manufactures.

Lehmann's Physiological Chemistry.

Percy's Metallurgy.

Regnault's Elements de Chimie.

Knapp's Chemical Technology.

Bolley's Chemical Technology.

II. ZOOLOGY AND GEOLOGY.

THE instruction in this Department is given at the Museum of Comparative Zoölogy (see p. 95), and consists this year of a course of Lectures by Professor AGASSIZ on Zoölogy, embracing the fundamental principles of the classification of animals, as founded upon structure and embryonic development, and illustrating their natural affinities, habits, geographical distribution, and the relations which exist between the living and extinct races; and of a course on Geology, both theoretical and practical. The course on Geology will be delivered during the First Term.

Besides the instructions of the lecture-room, Professor Agassiz will afford the Students occasional access to his laboratory, in order to show them how to observe isolated facts, how to determine living and fossil animals, and how to identify rocks of different formations.

III. ENGINEERING.

STUDENTS in Engineering will give their attendance at the School from 9 o'clock, A. M., to 5 o'clock, P. M.

The course will include instruction in—

Surveying, with the use of the instruments, and actual operations in the field.

Drawing in all its branches; topographical, outline, shaded, and tinted, including Isometric Projections.

Analytical Geometry and Differential and Integral Calculus.

The principles of Mechanics, and their application to Machinery and Engineering.

Descriptive Geometry.

The theory of shades, shadows, and perspective.

The application of Descriptive Geometry to masonry and stone-cutting, in the construction of groined and cloistered arches, domes, &c.

The nature and properties of building materials, and their application to the construction of railroads, canals, bridges, &c.

The instruction will be given by daily exercises at the blackboard and by lectures.

Candidates will be examined in Sherwin's Algebra, Legendre's Geometry, and Plane Trigonometry, or their equivalents.

Candidates presenting themselves in January or March will also be examined in Church's Analytical Geometry, or its equivalent.

IV. BOTANY.

PROFESSOR GRAY will give a course of practical lessons in Systematic Botany, twice a week, from the first of May to the close of the Term, to Scientific Students properly prepared for it.

Also, a course of instruction, with a Text-Book, in the elements of Structural and Systematic Botany; two lessons a week, throughout the Second Term.

Text-Books.

Gray's Botanical Text-Book, or Gray's First Lessons in Botany.

Gray's Manual of the Botany of the Northern United States.

V. COMPARATIVE ANATOMY AND PHYSIOLOGY.

SPECIAL instruction will be given in the Anatomical Laboratory in Boylston Hall, by Professor J. WYMAN.

A course of Lectures will be delivered each Term.

VI. MATHEMATICS.

INSTRUCTION will be given in the *Higher Mathematics*, and especially in *Analytical and Celestial Mechanics*, by Professor PEIRCE.

Private instruction in the various branches of Mathematics will be given to those desirous of receiving it, by competent instructors residing at the University.

VII. MINERALOGY.

PROFESSOR COOKE will give, during the Second Term, a course of practical instruction in Mineralogy. The course will embrace Theoretical Crystallography, the Determination and Drawing of Crystals, the Study of the Physical Properties of Minerals, and the Determination of Mineral Species. It will consist of recitations and lectures three times a week during the Term, and of practical exercises in the Laboratory. Students taking this course will have access to the Mineralogical Cabinet of the University, which has recently been greatly enlarged and improved.

Text-Books. Dana's Mineralogy; Cooke's Chemical Physics.

LECTURES, &c.

STUDENTS of the Scientific School may attend, without charge, any of the Lectures delivered to Undergraduates by the Professors in the Academical Department. (See page 33.)

The Anatomical Museum, the Museum of Comparative Zoölogy, the Botanic Garden, and the Public Library, are accessible to the Students of the Scientific School.

Through the munificent gift of \$ 52,500, made January 1, 1865, by JAMES LAWRENCE, Esq., the facilities in the Departments of Engineering and Chemistry have been much increased.

F E E S.

In the Department of CHEMISTRY, for instruction, per Term of twenty weeks, *fifty dollars*; for Laboratory apparatus and supplies, *fifty dollars*; for one half or any less fraction of a Term, two thirds of the above sums.

The Students in Chemistry are supplied with all needed apparatus, and are required to restore it in as good condition as they receive it.

In the Department of ENGINEERING, for instruction five days in the week, *seventy-five dollars* per Term; for one half or any less fraction of a Term, two thirds of that sum.

Students in Engineering will supply themselves with drawing materials, necessary text-books, &c.

In the Department of MINERALOGY, for instruction three hours a week (see p. 76) during the Second Term, *fifteen dollars*.

In any of the other Departments, the fees for special instruction may be agreed upon with the instructor.

The Lectures delivered in the Scientific School may be attended by members of the other Professional Schools, and by persons not otherwise connected with the University, on payment of a fee of five dollars *per course*. Students in any department of the Scientific School may attend lectures in any other department of the School, on payment of a fee of five dollars *per course*, and all Academical Lectures (see preceding page) without charge. They may also study any one of the foreign modern languages taught in the University, on payment of a fee of *five dollars* per Term.

The Gymnasium is open to all members of the University. The fee for attendance and instruction is *two dollars* a Term.

For Board, Room-rent, &c., see pages 37 and 63.

For further information concerning the School, application may be made to Professor GIBBS.

OBJECTS AND COURSE OF INSTRUCTION.

The objects of the Observatory are to furnish accurate and systematic observations of the heavenly bodies for the advancement of Astronomical Science, to co-operate in Geodetical and Nautical Surveys, to contribute to the improvement of Tables useful in Navigation, and, in general, to promote the progress of knowledge in Astronomy and the kindred sciences. To aid in effecting these objects, provision is made for publishing the Observations and the Director's Reports, and for increasing the Library.

Practical Astronomy and the Use of Astronomical Instruments will be taught at the Observatory, by Mr. GEORGE P. BOND, Director of the Observatory, and Phillips Professor of Astronomy, and by Truman H. Safford, Assistant.

INSTRUCTION AND DEGREES.

A THOROUGH course of medical instruction, by means of Lectures, recitations, examinations, dissections, and Hospital visits, is afforded to students wishing to enter the medical profession, and to those desirous of an acquaintance with the sciences on which medicine is founded.

Courses of Lectures are delivered annually at the Medical College in North Grove Street, Boston, which commence on the first Wednesday in November, and continue during seventeen weeks. At the termination of these courses there is an examination for degrees, and the successful candidates receive their diplomas at the Commencement on Wednesday of the week succeeding that in which the examinations are held.

On the following Monday (March 13, 1865) instruction is resumed by the Professors for those who attend during the Summer Term. In this Term there are at least five recitations and two Lectures each week. There is a visit at the Hospital every day, four times a week with the physicians, and twice a week with the surgeons. The students have access also to the following courses of Lectures delivered in the University at Cambridge at this time: on Comparative Anatomy and Physiology, by Professor Wyman; on Botany, by Professor Gray; on Acoustics and Optics, by Professor Lovering; and on Zoölogy, by Professor Agassiz.

ANATOMY and PHYSIOLOGY. The Lectures of the Winter Course are delivered every week-day at one o'clock, Saturday excepted. The demonstrations are aided by a very large number of colored illustrations, and by an extensive cabinet (the Warren Anatomical Museum), which is constantly increasing by regular accessions from a fund appropriated to that purpose, as well as from individual contributions. During the first three months of the summer course recitations in Physiology will be held twice each week. Preliminary examinations in anatomy will be held before the commencement of the winter Lectures, and a course of Lectures and demonstrations will be given, illustrating the use of the microscope and microscopic anatomy.

SURGERY. There are three Lectures each week during the Winter Term, and a visit to the Hospital every Saturday. The department is provided with an extensive collection of valuable preparations in wax to show various tumors and diseases of the skin, of colored casts in plaster of Paris, and of many beautiful magnified drawings of subjects in Anatomy and Surgery, and also with the newly-invented surgical instruments. Students have an opportunity of seeing surgical operations,

and these are explained and illustrated by anatomical demonstrations of the parts concerned. Clinical Lectures are delivered on cases seen by the students. There are two recitations a week during the months of March, April, and May, and there are two surgical visits a week at the Massachusetts General Hospital during the eight months of the year occupied by the Summer Term of instruction.

THEORY and PRACTICE. The subjects formerly included in this department are divided amongst three Professors. Dr. Jackson gives Lectures on Pathological Anatomy, exhibits recent specimens, and devotes an hour every week during the Lecture Term to an examination of the specimens in the Museum, pointing out what is of especial interest, and giving some account of symptoms.

Recitations are heard during the Summer Term by his Assistant, who makes the autopsies at the Hospital, and is the Curator of the Museum of Pathological Anatomy belonging to that institution. Dr. Bowditch gives Clinical Lectures at the Hospital, as well as instruction at the bedside; and instruction is given during the Summer Term, at the Hospital by Dr. Jackson, Dr. Gould, and the other physicians, as well as at the Dispensary by the assistants of the Professor of Clinical Medicine and of Pathological Anatomy, and the other medical officers. The Hersey Professor gives Lectures at the College, and holds examinations and recitations there and at the Hospital, where students have an opportunity of practising physical exploration, and of becoming familiar with the use of chemical analysis and the microscope.

A Clinical Conference is held every Friday afternoon during the Winter Term by the Professors of Clinical Medicine and of the Theory and Practice of Physic, assisted by other medical officers of the Massachusetts General Hospital, at which the members are practised in relating, recording, and commenting on medical and surgical cases.

MIDWIFERY and MEDICAL JURISPRUDENCE form one department. The Lectures on the Principles and Practice of Midwifery are illustrated by specimens and plates. Separate instruction is given in Operative Midwifery, and each member of the class has opportunity of learning the use of instruments.

The course on Medical Jurisprudence treats of the practical matters which are involved in the position and duties of experts in medical testimony, and in the examination of medico-legal questions. Recitations are heard twice a week in these departments during the three spring months.

MATERIA MEDICA. The physiological and therapeutical action of drugs is particularly described in these Lectures. Specimens of each drug and of the various pharmaceutical preparations to which it is subjected, and of its most important combinations and reactions, are exhibited to the students. During the Summer Session of the School instruction is given by recitations from approved text-books.

CHEMISTRY. In the Lectures of the Winter Course, the relations of Chemistry to Medicine receive special attention. The principal chemical preparations used in medical practice, poisons, and the tests by which they are detected, are considered. Attention is given to the bearings of Chemistry upon Physiology and Pathology, and to its applications in the diagnosis of diseases. The Lectures are fully illustrated by experiment. During the Summer Term, frequent recitations are heard, and the Laboratory of the Medical College is open for practical instruction in Chemistry daily, for two months.

FEES.

THE fee for matriculation is \$3, which is appropriated to the increase of the Library, and is to be paid to the Dean by all wishing to attend any of the Winter Courses of Lectures.

The fee for instruction during the long Term, from the first of March to the first of November, (the months of August and September being appropriated to a vacation,) is \$100.

The fees for the Winter Courses of Lectures amount in all to \$95, which are required to be paid when the tickets are taken.

The fee for graduation is \$20, which is deposited with the Dean when application is made to him for examination.

A fee of \$5 is to be paid by the students who use the dissecting-room during the winter months. This room is open during the months of March, April, and October, and supplied with subjects for the use of students of the Summer Course without additional expense. There is no charge for the use of the Library or for visits to the Hospital.

The introduction of a Summer Course of instruction involves no change in the amount or character of the Winter Courses of Lectures as heretofore conducted, nor in the requisites for a medical degree.

STATUTE REGULATIONS RELATIVE TO MEDICAL DEGREES.

THE FACULTY OF MEDICINE of this University shall consist of the President, and of the Professors and Lecturers authorized to give instruction to the Medical Students. This Faculty shall always have a Dean, elected by themselves, for such periods as they may think proper, and may also adopt rules for their own government, provided that the same do not in any respect contravene the laws of the University.

Students of Medicine designing to attend the Medical Lectures, or any of them, shall be matriculated in this University by entering their names with the Dean of the Faculty of Medicine, to be enrolled by him, and by signing an obligation to submit to the laws of the University, and to the direction of the Faculty of Medicine.

There shall be holden by the Faculty two meetings in each year for the purpose of examining candidates for the degree of Doctor in Medicine. These shall be holden in the Massachusetts Medical College, unless otherwise specially ordered. They may be continued by adjournment, by vote of the members present, and if only one member attend

at the time and place designated, he may adjourn the meeting from day to day till three members of the Faculty may attend the meeting. Three members of the Faculty must be present at every examination.

The first meeting for examination shall be held on the day next succeeding that on which the Winter Courses end ; the second, on the Monday next but one preceding the Commencement in July. In extraordinary cases, the Faculty may hold meetings for examination at other times.

Every candidate for the degree of Doctor in Medicine must comply with the following conditions before being admitted to examination : —

1. He shall satisfy the Faculty that he has arrived at the age of twenty-one.

2. He shall have attended two courses of Lectures delivered at the Massachusetts Medical College by each of the Professors ; except that if he have attended a course of similar lectures in any other college or university, the same may take place of one of the above courses.

3. He shall have employed three years in his professional studies under the direction of a regular practitioner of medicine.

4. If he has not received a university education, he shall satisfy the Faculty of Medicine in respect to his knowledge of the Latin language and Experimental Philosophy.

5. He shall, four weeks previous to the day on which he presents himself for examination, have given notice of his intention to the Dean of the Faculty, and at the same time shall have delivered or transmitted to the Dean a dissertation, written by himself, on some subject connected with medicine.

Every dissertation shall be submitted by the Dean to the examination of the Faculty in the mode which they shall point out.

At the meetings for examination, the Faculty shall examine all the candidates who shall present themselves, after having complied with the conditions enumerated in these statutes, upon the following branches of Medical Science ; namely, Anatomy, Physiology, Chemistry, Materia Medica, Pharmacy, Morbid Anatomy, Midwifery, Surgery, Clinical Medicine, and the Theory and Practice of Medicine. The decision in respect to each candidate shall be determined by the vote of the major part of the members of the Faculty present at the examination of the same, and this decision, if favorable to the candidate, shall be recorded by the Dean. In the decisions to be made at these meetings, regard shall be had to the dissertation as well as to the examination.

At the close of the examination, the Faculty shall decide in respect to each candidate whether he shall be recommended as worthy of the degree for which he has applied. The decision of the Faculty in respect to all these candidates whom they so recommend, shall be recorded by the Dean, and shall by him be certified to the President, to be laid before the Corporation and Overseers.

Those candidates who have at the spring examination received from the Corporation and Overseers the final approbation, shall be admitted to the degree of Doctor in Medicine by the President of the University at a public Commencement holden on the Wednesday next succeeding the day of the examination, on which occasion an Address shall be delivered by some one selected for this purpose by the Medical Faculty. Those who may be approved at the summer examination will receive their degrees and diplomas in Cambridge, on Commencement Day. Public invitation to attend the ceremony at the Commencement immediately following the Lectures shall be given by the Dean of the Medical Faculty to the Fellows of the Massachusetts Medical Society, to all Medical Students, and to every person who may take an interest in Medical Science.

BOYLSTON PRIZE DISSERTATIONS.

AN ANNUAL PRIZE is assigned, from the Foundation of Ward Nicholas Boylston, for the best Dissertation on a Medical Subject, proposed by a committee appointed by the President and Fellows of the University.

The prize is of the amount of *one hundred and twenty dollars*, and may be taken either in money, or in the form of a gold medal of that value.

The Dissertations must be sent to Dr. E. Reynolds, on or before the first Wednesday in April.

The Annual Meeting at which the prize is awarded is held on the first Wednesday in August.

Each Dissertation must bear some motto or distinguishing mark, and be accompanied by a sealed letter containing the name of the writer. The unsuccessful Dissertations, with the accompanying letters unopened, are returned to the writers when called for within the year.

No prizes are awarded, if no one of the Dissertations presented is thought to be of sufficient merit.

COMMITTEE for reading the Dissertations and adjudging their merit:— Edward Reynolds, M.D., *Chairman*; John Jeffries, M.D.; Solomon D. Townsend, M.D.; John B. S. Jackson, M.D.; J. Mason Warren, M.D.; D. Humphreys Storer, M.D., *Secretary*; Charles G. Putnam, M.D.; Morrill Wyman, M.D.; Henry J. Bigelow, M.D.

This institution was founded in 1859. It is under the direction of the Faculty, while the property is held by the Trustees. The Lawrence Professor of Zoölogy in the Scientific School is, *ex officio*, Curator, and charged with the direction of the scientific and educational interests of the Museum. The Director is appointed by the Trustees, and is charged with the relations of the Museum to the public. The Assistants are appointed by the Faculty. The collections, so far as arranged in the part of the building already erected, are open to visitors every day except Sundays and Mondays.

The instruction offered by the Curator the present year is announced on pages 74 and 96; and other lectures, given under his direction, on page 96.

UNIVERSITY LECTURES.

COURSES of Lectures, open to all graduates of colleges and public school teachers who enter their names, to persons connected with the University, except undergraduates, and to others on the payment of five dollars a term, were delivered during the past year, as follows:—

- On the Natural History and Embryology of the Acalephæ, by A. E. R. AGASSIZ, S.B.
- On the Principles of Machinery, four lectures, by PROFESSOR FAIRMAN ROGERS.
- On Recent Researches in Exudative and Parasitic Diseases of the Skin, by DR. JAMES C. WHITE.
- On Physical Geography, by REV. WILLIAM L. GAGE.
- On Determinants, by JAMES E. OLIVER, A. M.
- On the Nebular Hypothesis, by PROFESSOR BENJAMIN PEIRCE.
- On the Theory of Space developed by Quaternions, by PROFESSOR BENJAMIN PEIRCE.
- Special Investigations in Dynamics, by WILLIAM WATSON, Ph. D.
- How and What to Observe in Natural History, by PROFESSOR LOUIS AGASSIZ.
- On English Literature, by PROFESSOR LOWELL.
- On the Uses of the Microscope in Anatomy, by PROFESSOR OLIVER WENDELL HOLMES.
- Instruction in Counterpoint and Fugue, by J. K. PINE.

The following Lectures were delivered during the present Term of the Academical Year, 1864-5:—

- On Mental Diseases and Insanity. By DR. JOHN E. TYLER, at the Medical College, on Thursdays, at 4 o'clock, P. M., beginning November 9.
- On the Origin of the Romance Languages, and their Connection with English. By MR. FERDINAND BOCHE, in Boylston Hall, on Mondays, at 5 o'clock, P. M., beginning November 21.
- On the Natural History of Domesticated Animals. By PROFESSOR L. AGASSIZ, in the Museum, on Fridays, at 2 o'clock, P. M., beginning October 14.
- How and what to Observe in Natural History. By PROFESSOR L. AGASSIZ, in the Museum, on Tuesdays, at 12 o'clock, M., beginning October 18.
- On the Marine Animals of Massachusetts Bay. By ALEXANDER AGASSIZ, S. B., in the Museum, on Thursdays, at 12 o'clock, M., beginning November 3.
- On Theoretical Chemistry, six lectures. By PROFESSOR WOLCOTT GIBBS, every Wednesday, at 12 o'clock, M., beginning October 19, in the Lecture-Room of the Lawrence Scientific School.

L I B R A R Y.

THE UNIVERSITY LIBRARY is divided into four departments, viz. Theological, Medical, Law, and College; which last, besides books in all other departments of learning, embraces also an extensive collection of works on Theology, Medicine, and Law.

The THEOLOGICAL LIBRARY is in Divinity Hall. Persons entitled to its privileges must be connected with the Divinity School. Number of books, about 16,000. They consist of valuable select works, principally in modern Theology, with some of the early Fathers.

The MEDICAL LIBRARY is in the Medical College in Boston. It is placed there for the convenience of students attending the Medical Lectures. The number of books is about 2,000.

The LAW LIBRARY is in Dane Hall. It is designed for the officers and students of the Law School. Number of books, about 13,000. It contains most of the valuable works in English and American Law, and in the Civil Law, together with a variety of others, by writers of France, Germany, and Spain.

The COLLEGE LIBRARY is in Gore Hall. It is for the common use of the whole University, in this respect differing from the other branches of the University Library; and it may be consulted, during Library hours, by all persons, whether connected with the University or not. The total number of books is about 108,000; of which 1,000 belong to the Boylston Medical Library, in immediate connection with it. In Term time, (excepting Christmas day, Fast day, the Fourth of July, and the two Recesses,) the Library is open on the first five secular days of the week, from 9 A. M. till 1 P. M., and from 2 P. M. till 5 P. M., or till sunset when that is before 5. In vacations, it is open from 9 to 1 o'clock on Mondays.

~~(C)~~ *The Library is always closed on Saturdays and Sundays.*

The total number of books in the Libraries of the University is, then, as follows: —

Public Library	108,000
Medical "	2,000
Law "	13,000
Theological Library	16,000
Lawrence Scientific Library	7,000
Phillips Astronomical Library	1,500

REQUISITES FOR ADMISSION.

CANDIDATES for admission to the Freshman Class are examined as follows:—

LATIN DEPARTMENT.

In the whole of Virgil,
The whole of Caesar's Commentaries,
Cicero's Select Orations, Folsom's or Johnson's edition,
Andrews and Stoddard's or Harkness's Latin Grammar, including Prosody,
And in writing Latin.

GREEK DEPARTMENT.*

In Felton's Greek Reader, or the whole of the *Anabasis of Xenophon* and the first three books of the *Iliad* (omitting the Catalogue of Ships in the second book),
Sophocles's, Crosby's, or Hadley's Greek Grammar, including Prosody and Versification,
And in writing Greek, with the Accents.

MATHEMATICAL DEPARTMENT.

In Chase's Common School Arithmetic,
Sherwin's Common School Algebra, to Section XXXVIII.,
And in Hill's Second Book in Geometry, Parts I. and II., or "An Introduction to Geometry and the Science of Form," as far as Part III. vii. page 130.

HISTORICAL DEPARTMENT.

In Mitchell's Ancient and Modern Geography,
Smith's Smaller History of Greece, or Sewell's History of Greece,
And the History of Rome in Worcester's Elements of History.

* Instructors are requested to teach their pupils to pronounce Greek with the *Greek accents*, and with the so-called *Continental* sound of the vowels and diphthongs,—for example, giving *a* the sound of *a* in *father*, *η* that of *a* in *fate*, *ε* that of *i* in *machine*, *ει* that of *ei* in *height*, *ου* that of *oo* in *moon*, *αυ* that of *ou* in *house*.

TIME AND CONDITIONS OF EXAMINATION.

ALL candidates for admission to any Class in College must in the first place be examined for admission to the *Freshman Class*.

The regular examination for the Freshman and Sophomore Classes will take place on the Monday and Tuesday of Commencement week (July 16th and 17th, 1866), beginning precisely at 8 o'clock, A.M., on Monday. The candidates will assemble in No. 16 University Hall. Attendance on both days is required.*

The continuation of the examination of those who offer themselves for the *Junior* and *Senior* Classes will be deferred to the end of the vacation.

For the convenience of those who are prevented from being present at the regular examination, there will be another examination for the Freshman and Sophomore Classes, at the beginning of the First Term, on Thursday and Friday, September 13th and 14th, 1866, attendance on both days being required. The candidates will assemble on Thursday, September 13th, in No. 16 University Hall, at 8 o'clock, A.M. On the next Monday, September 17th, the further examination of candidates offered for the Junior and Senior Classes (including those offered on Commencement week) will take place, beginning at 8 A. M. in No. 16 University Hall.

No person will be examined for admission to College at any other time than those above specified.

Candidates may be admitted to advanced standing as late as the First Term of the Senior year, provided they present themselves for examination as above directed. In order to admission to advanced standing, the candidate, whether from another College or not, must appear, on examination, to be well versed in the following studies:—

1. In the studies required for admission to the Freshman Class.

* Candidates for admission to the *Sophomore Class* who apply in July must either finish their examination at that time, or begin as new applicants at the examination in September.

2. In all the required studies already gone over by the Class for which he is offered.*

3. If he apply for admission to the Senior Class, in two of the elective studies of the Junior year.

He must also pay to the Steward, at the rate of \$45 per annum, according to the standing to which he is admitted. Any Student, however, who has a regular dismission from another College, may be admitted to the same standing, if, on examination, he is found qualified, without any pecuniary consideration. This charge for advanced standing is also remitted to indigent Students.

Every candidate, before examination, must produce proper testimonials of a good moral character, and, if admitted, must give a bond for four hundred dollars to pay all charges accruing under the laws and customs of the University. The bond must be executed by two bondsmen, who must be satisfactory to the Steward of the College, and one of them must be a citizen of Massachusetts.

* "A student who enters College at the beginning of the Junior year shall receive a place on the General Scale at the close of that year. He shall then be allowed for his Freshman and Sophomore years, in those departments in which he has studied with his Class during the Junior year, the same proportional part of the maximum mark of his Class as that which he has actually gained in the same departments in his Junior year; but in those studies of the first two years which his Class does not continue, or which he does not pursue with his Class, in the Junior year, he shall receive no marks except such as may be determined by a special examination, which he shall be permitted to pass for this purpose within the first term after his entrance.

"No student who enters College at or after the beginning of the Senior year shall be admitted to rank on the General Scale." — *Extract from Orders and Regulations.*

Only real equivalents for the prescribed text-books are accepted.

* Lectures.

† In two divisions.

NOT.— Where no special designation is added, it will be understood that the Seniors and Juniors recite in three divisions, the Sophomores in four (except on Tuesday and Thursday, when they recite in three), and the Freshmen in four.

COLLEGE GYMNASIUM.

THE Gymnasium is open to all members of the University, subject to certain rules and conditions.

PUBLIC WORSHIP.

THERE are daily devotional services, with the reading of the Scriptures, and singing, in the College Chapel. All Undergraduates are required to be present; as they are also at public worship in the Chapel on Sunday, except such as have special permission, at the request of their parents or guardians, to attend other congregations, in the City of Cambridge or elsewhere.

EXPENSES.

The expenses of an Undergraduate for a year are as follows:—

Instruction, Library, Lecture-rooms, Gymnasium, &c.	\$104.00
Rent and care of Room, in the College Buildings (average), . .	28.00
Board for 40 weeks,	from \$130.00 to 280.00
Text-books (average),	" 16.00 " 16.00
Special Repairs, &c.,	" 1.00 " 2.00

Total, from \$279.00 to \$430.00

Other expenses must vary with the economy of each Student. Wood and coal ready for use are delivered at the Students' rooms, by the lessee of the College Wharf, on contract, at \$14.00 per cord for hard and \$11.00 for pine wood, exclusive of sawing and splitting; and \$9.50 a ton for anthracite, \$25.00 for cannel, and \$13.00 for Sydney coal. When a less quantity of coal than one ton is ordered, there will be an additional charge of fifty cents a ton. On and after October 1, 1865, coal and wood will be furnished at the market price. For carrying coal into the buildings in the College yard and into College House and Harvard Block, 80 cents a ton; into other buildings, 40 cents a ton. The rent of rooms in private houses is from \$52 to \$150 per annum. The price of board at present is from \$5.00 to \$7.00 a week, but of course varies with the provision market. A club is established which enables undergraduates to board at cost, at present estimated at \$3.25 a week. Students living in College buildings find their own beds and furniture.

TERM-BILLS.

13 THE bills containing College charges are to be made out by the Steward, at the end of each Term; and must be settled *within a week from the commencement of the succeeding Term.*

13 The bill for the Second Term of the Senior year must be paid two days at least before Commencement; and no Degree can be conferred until all books are returned to the Library, and all dues to the College are discharged.

PECUNIARY ASSISTANCE TO MERITORIOUS STUDENTS.

SCHOLARSHIPS.

FORTY-ONE Scholarships have been established in the College, varying in their annual income from one hundred to three hundred dollars :—

One founded by persons educated at Phillips Exeter Academy, called, in honor of the late Principal of that school, the **ABBOT SCHOLARSHIP**.

A second, founded by the Class of 1814, and called the **SCHOLARSHIP OF THE CLASS OF 1814**.

A third, founded by the Class of 1815, and called the **KIRKLAND SCHOLARSHIP**.

A fourth, founded by the Class of 1817, and called the **SCHOLARSHIP OF THE CLASS OF 1817**.

A fifth, founded by the Class of 1835, and called the **SCHOLARSHIP OF THE CLASS OF 1835**.

Four in fulfilment of a bequest of Dr. George C. Shattuck, called the **SHATTUCK SCHOLARSHIPS**, with an income of one hundred and fifty dollars each.

One founded from a bequest of the Hon. Samuel B. Walcott.

Ten founded by John Eliot Thayer, Esq., called the **THAYER SCHOLARSHIPS**, with an income of three hundred dollars each.

Sixteen, with an income of two hundred and fifty dollars each, by a friend of the College, and called the **BOWDITCH SCHOLARSHIPS**, four to be assigned to each Class.

Four, with an income of two hundred and fifty dollars each, called the **TOWNSEND SCHOLARSHIPS**, from the legacy of the late Miss Townsend.

And one, founded by Augustus Story, Esq., and called the **STORY SCHOLARSHIP**.

There are special provisions affecting the assignment of the Abbot Scholarship, and the Scholarships of the Classes. The income belonging to the Thayer Scholarships is bestowed upon those ten Students deemed the most meritorious by the Trustees of the funds. The income of the sixteen Bowditch Scholarships will be bestowed by the President, in accordance with directions given by the donor. The income of the Townsend and Shattuck Scholarships will be bestowed upon Students recommended by the Faculty to the Corporation. Applications from persons who wish to be considered as candidates will be received *on or before the first day of June* of each year; but none except those who are at once high scholars and need assistance are encouraged

to apply. From the list of candidates the Trustees appoint ten to Thayer Scholarships, and the Faculty make appointments or nominations to the others, being guided principally by the scale of rank for the year. The nominations and appointments will be made at the end of each Academic Year, as soon as the scales of rank for the year can be prepared. The successful candidates shall receive one half of the annual income immediately upon the assignment of the Scholarships, and the remaining half at the end of the following half-year. But the Scholarships for the Senior Class shall be assigned before Commencement, as soon as the annual scale for that Class can be prepared, and the entire income for the year, of those within the control of the Faculty, shall be paid immediately thereupon. No person who has incurred a serious College censure in the course of the year shall be considered a candidate for a Scholarship.

The Scholarships, when voted, will be understood to cover the College year just ended; but the obtaining of a Scholarship for one year will not be held to constitute any title to a second nomination, unless the superiority for which it was originally awarded be fully maintained.

Scholarships from the "Bigelow Fund" just established will be awarded to Freshmen at the time of their entrance.

BENEFICIARY FUND.

VARIOUS bequests and donations have from time to time been made to the President and Fellows, the income of which is appropriated for the aid of deserving Students in narrow circumstances. The annual amount thus distributed from this source is about fourteen hundred dollars, which has usually been given as a gratuity, in sums ranging from twenty to sixty dollars. As some Students prefer to receive the aid in the form of a loan, the Corporation have divided the income of the Beneficiary Funds into two parts; one of which is given as a gratuity, and the other granted on loan to such Students as prefer to receive the aid in that form.

Applications for aid from the Beneficiary Fund are addressed to the President, and must be presented to him on or before *the first day of June*, by the parent or guardian, or by the Student himself if of age. The application should state particularly the circumstances of the case, with the reasons for making it, and whether a gratuity or a loan is desired.

LOAN FUND.

In addition to the Beneficiary Funds above described, of which the President and Fellows are trustees, there is a Loan Fund, raised by subscription among the friends of the University, the interest of which, amounting to about twelve hundred dollars, is annually lent to meritorious Students desirous of receiving it, in sums ranging from twenty to eighty dollars. This fund is under the control of a Board of Trustees, in Boston; Hon. John Lowell, Treasurer. About eight thousand dollars have been already added to the principal by reimbursements to that extent.

The applications for the Loan Fund, made in the same manner as for the Beneficiary Fund, by the parent or guardian, or by the Student himself, if of age, should be left with the President as early as *the first day of December*.

"The Trustees of the Fund for assisting Students at Harvard College request applicants for loans to observe the following rules:—

"1. To address their applications to the Treasurer of the Loan Fund, Hon. John Lowell, Boston," and leave them with the President.

"2. To set forth their circumstances fully, as they would do on making application to an individual for like aid.

"3. To state what aid they have received, or expect to receive, from the College.

"4. If an applicant is under twenty-one years of age, his application must be accompanied by the written approval of his parent or guardian."

MONITORSHIPS, &c.

BESIDES the foregoing provisions for the aid of meritorious Students, the various monitorships, &c. amount to four hundred and eighty dollars a year, which may be considered as an addition, to that extent, to the beneficiary funds of the institution.

SCHOOL-KEEPING.

MERITORIOUS Students, whose circumstances require it, may, at the discretion of the Faculty, be absent for a limited time, not exceeding thirteen weeks, including the Winter Vacation, for the purpose of keeping school.

Applications for permission to keep school must be presented to the President as early as the *15th day of November*, and no absence will be allowed till a certificate of such permission has been first obtained from the President.

P R I Z E S.

I. D E T U R S.

A DISTRIBUTION of books, called "Deturs," is made from the income of the Hopkins Foundation, near the commencement of the Academical Year, to meritorious Students of the Sophomore Class, and to those Juniors who entered the Sophomore Class, and whose merit would have entitled them to this distinction. Twenty-seven *Deturs* were given in the Sophomore Class, and nine in the Junior Class, the last year.

Deturs are also given to such members of the Junior Class as, not having received them in the Sophomore year, shall, in the course of that year, make decided improvement in scholarship.

II. BOWDOIN PRIZE DISSERTATIONS.

In the Second Term of the Academical Year, prizes are assigned, from the Foundation of James Bowdoin, for English Dissertations, as follows:—

A prize of *fifty dollars* for the best Dissertation by a resident Graduate of the University, on either of the subjects proposed for writers of that standing;

A prize of *forty dollars* for the best, and a prize of *thirty dollars* for the second-best Dissertation by a member of the Senior Class of Undergraduates, on either of the subjects proposed for that Class;

A prize of *forty dollars* for the best, and a prize of *thirty dollars* for the second-best Dissertation by a member of the Junior Class, on either of the subjects proposed for that Class;

Provided there be so many Dissertations worthy of prizes in the opinion of the judges.

The Dissertations must be left at the President's office by the *first day of May*. No performance will be received after that date. The title-page must, with an assumed name, state the standing of the writer, as Graduate or Undergraduate, and if the latter, of what Class. A sealed letter must be sent in at the same time, under cover with the Dissertation, containing the true name of the writer, and superscribed with his assumed name.

The Dissertations must be written upon letter-paper of good quality, of the quarto size, with a margin of not less than one inch at the top and bottom and on each side, so that, if successful, they may be bound up without injury to the writing. The sheets on which the Dissertation is written must be securely stitched together.

No Dissertation to exceed in length the amount of twenty-five printed pages of the North American Review.

The following are the subjects for the present Academical Year:—

FOR RESIDENT GRADUATES.

Mill's Criticisms on Sir William Hamilton.

The Corpus Juris Civilis as a Study in Language and Manners.

The Importance of the Study of Political Science.

FOR MEMBERS OF THE SENIOR CLASS.

The Army of Cromwell.

Merivale's Estimate of Tacitus.

Marcus Aurelius Antoninus.

FOR MEMBERS OF THE JUNIOR CLASS.

Russia and England in Central Asia.

Plutarch and the Civil Wars.

Horace as his own Biographer.

The prizes for the last Academical Year were assigned as follows:—

Resident Graduates.

To SAMUEL DANA HORTON, a First Prize.

COMMITTEE.—The Rev. Rufus Ellis, George Otis Shattuck, Esq., and Charles Franklin Dunbar, Esq.

Senior Class.

To F. JOSEPH COOK, a First Prize.

" GEORGE ALBERT STEARNS, a Second Prize.

COMMITTEE.—The Rev. Rollin Heber Neale, D.D., John Bacon, M.D., and Thomas Bulfinch, Esq.

Junior Class.

To HENRY FOSTER BUSWELL, a First Prize.

" JOHN HENRY WATSON, a Second Prize.

COMMITTEE.—Epes S. Dixwell, Esq., Prof. Wolcott Gibbs, Prof. Joseph Winlock, James Cushing Merrill, Esq., and Edwin Hale Abbot, Esq.

III. BOWDOIN PRIZES FOR LATIN AND GREEK COMPOSITION.

Two Prizes will be assigned for Latin and Greek compositions, from the Bowdoin Prize Fund, under the following regulations for the present year.

A prize of *thirty-five dollars* for the best composition in Latin Verse, by a member of either the Senior or the Junior Class.

A prize of *thirty-five dollars* for the best composition in Greek Prose, by a member of either the Senior or the Junior Class.

The subjects for the compositions are given out, and the prizes awarded, by the Latin and Greek Departments, acting, in conjunction with the President, as a committee of the Faculty for that purpose.

No prize will be awarded unless the absolute merit of the composition shall be such as to deserve it.

The compositions, inscribed with assumed names, must be left at the President's Office by the *first day of May*, accompanied by sealed letters containing the authors' names, and superscribed with the assumed names.

The following are the subjects of the Compositions for the present Academical Year:—

FOR LATIN VERSIFICATION.

Philip's Cyder, Book II., from the verse "Meanwhile blind *British* Bards with volant Touch," to the verse, "Luxt his Neck-joint, and spinal Marrow bruis'd," — to be turned into Hexameters.

FOR GREEK PROSE COMPOSITION.

. The introduction of Webster's Oration on The First Settlement of New England, beginning, "Let us rejoice that we behold this day," and ending, "with unabated affection and regard," omitting the *third* paragraph, — to be *freely* translated into Attic prose.

No Student is allowed to write on both subjects.

The following Prize was awarded last year:—

For Greek Prose.

To JAMES WILLIAM HAWES, *of the Junior Class.*

For Latin Versification.

To ROLAND CROCKER LINCOLN, *of the Senior Class.*

IV. BOYLSTON PRIZES FOR ELOCUTION.

AGREEABLY to the institution of the "Boylston Prizes for Elocution," on the day after Commencement in each year there will be held in University Hall, or in the First Church in Cambridge, a public exhibition and trial of the skill and improvement of the Students of the University in elocution.

The speakers are not to rehearse their own compositions; but to select pieces in prose or verse from English, Greek, or Latin authors, the selections to be approved by the Boylston Professor of Rhetoric and Oratory. The proportion in English is to be at least two out of three.

The competitors must be Graduates of the year, or Undergraduates of one of the next two Classes; and their names must be entered with the Professor, at the latest, *fourteen days* before Commencement. No applications will be received after that time.

The Corporation will, each year, select five gentlemen distinguished for their elocution, either at the bar, in the pulpit, or in the senate, who, with the Corporation, or a major part of them, will judge of the merits of the competitors, and award the prizes. They will assign five prizes: two First Prizes, namely, *fifteen dollars* to each of the best two speakers; and three Second Prizes, namely, *ten dollars* to each of the next three best: Provided, that if the judges shall be of opinion that none of the competitors have exhibited sufficient skill and improvement to be entitled to the First Prizes, they may withhold them.

At this exhibition, no prompting of the speakers will be allowed; and a failure of memory in any one will exclude him from being considered in the assignment of the prizes.

The following prizes were assigned, July 16th, 1863:—

The two First Prizes.

To F. JOSEPH COOK, *of the Graduating Class.*

" ROLAND CROCKER LINCOLN, *of the Graduating Class.*

The three Second Prizes.

To CHARLES BROOKS BRIGHAM, *of the Senior Class.*

" HENRY FOSTER BUSWELL, *of the Senior Class.*

" EDWARD WALDO EMERSON, *of the Senior Class.*

V. PRIZES FOR READING.

THROUGH the liberality of a friend of the College, prizes have been established, to be awarded to those who shall excel in the reading aloud of English prose. The prizes offered for the present year are as follows: —

To Members of the Senior and Junior Classes, at a public trial on Saturday, June 9, 1866,

One First Prize of *Forty Dollars*,
Two Second Prizes of *Thirty Dollars* each,
Two Third Prizes of *Twenty Dollars* each.

To Members of the Junior and Sophomore Classes (1866-67), at a public trial on Saturday, October 20, 1866,

One First Prize of *Thirty Dollars*,
Two Second Prizes of *Twenty Dollars* each,
Two Third Prizes of *Fifteen Dollars* each.

Provided that at each contest there is sufficient merit in the reading to warrant the giving of all the prizes. No competitor can receive a prize lower in grade than any which he has received at a previous contest.

To Members of the Freshman Class of 1866-67, at a private trial, October, 1866,

One First Prize of *Fifteen Dollars*,
Two Second Prizes of *Ten Dollars* each.

All the prizes will be given in books, unless the successful competitors satisfy the President that the prize in another form will be more useful to them.

The pieces to be read will be placed in the hands of the candidates on the morning of the day of trial. In their selection, declamatory pieces will be avoided, and such narratives, descriptions, or essays chosen as shall require varied expression and correct enunciation.

Candidates must hand in their names to the President at least one fortnight before the day of trial; and the Faculty reserve the right to select for each contest a limited number of the most promising candidates.

At a public trial, held October 8, 1864, there were awarded
A First Prize to WILLIAM FRANKLIN DAVIS, of the Sophomore Class;

46 LODGING AND BOARDING HOUSES FOR UNDERGRADUATES.

*Second Prizes to EDWARD HENRY CLARK, of the Junior Class ;
SAMUEL QUARLES FRENCH, of the Junior Class ;*

*Third Prizes to GEORGE BATCHELOR, of the Junior Class ;
HENRY FOSTER BUSWELL, of the Junior Class ;
WALTER HENRY SEAVER, of the Junior Class.*

At a public trial, held June 17, 1865, there were awarded

A First Prize to CHARLES WARREN CLIFFORD, of the Senior Class ;

*Second Prizes to JOHN WESLEY CHURCHILL, of the Senior Class ;
BENJAMIN MILLS PEIRCE, of the Senior Class ;*

A Third Prize to HENRY FOSTER BUSWELL, of the Junior Class.

At a private trial, held October 1, 1864, the following Members of the Freshman Class obtained Prizes : —

THOMAS ELLINWOOD UPHAM, a First Prize.

WILLIAM COWPER SIMMONS, a Second Prize.

ALDEN BRADFORD FARNHAM, a Second Prize.

LODGING AND BOARDING HOUSES FOR UNDERGRADUATES.

EXTRACT FROM THE STATUTES OF THE UNIVERSITY.

"CHAPTER XII. § 115. No Student shall lodge or board out of the College, except at such houses as are approved by the Faculty, and with the approbation of a parent or guardian, if the Student is under age; and no houses will be so approved, except such as conform to the Regulations the Faculty may establish."

REGULATIONS RELATIVE TO LODGING AND BOARDING HOUSES FOR UNDERGRADUATES.

At a meeting of the Faculty of Harvard College : —

Voted, That no Undergraduate shall be allowed to occupy a room in any house or building, (except a public College Hall,) in which a family approved by the Faculty of the College does not reside; or to take lodgings or board in any house, or board in any family, unless the house or family has been approved by a vote of the Faculty.

Voted, That no house shall be approved as a lodging or boarding house, unless the keeper of the house shall conform to the following regulations :—

1. That, in case of any festive entertainment, riotous noise, or other disturbance in a house so approved, or improper conduct at the table, the keeper of the house shall give immediate notice of the same, and of the persons concerned, to the President of the College.
2. That no wine or spirituous liquors be used ; and that no smoking be permitted at the table or in the dining-room.
3. That the hours of meals shall conform to the times most suitable for the exercises of Undergraduates prescribed by the College Laws ; that is, for breakfast, immediately after prayers ; and for dinner, at one o'clock, except from the Thanksgiving recess to the end of the First Term, when it shall be at two o'clock.
4. That the keepers of boarding-houses shall hand in their names to the Steward, with the price of board, a fortnight before the end of the Summer Term, the names and prices to be entered in a book, which shall be kept at the Steward's office for inspection ; and that within a fortnight from the beginning of each Term they shall send the Regent a list of their boarders.
5. That the keepers of every lodging or boarding house shall report to the Regent the name of any Student leaving the lodging or boarding house, or coming to the lodging or boarding house during the Term.

Voted, That no Student shall change his room in any of the College buildings, without giving immediate notice thereof to the REGISTRAR ; and that no Student shall change his lodging or boarding house, without giving similar notice to the REGENT, and notice also of the lodging or boarding house to which he has removed.

LAWS RELATIVE TO THE PATRON.

EXTRACT FROM THE STATUTES OF THE UNIVERSITY.

"CHAPTER XIV. § 121. Some gentleman of Cambridge, not of the Faculty, shall be appointed by the Corporation to be Patron of all Students, not of this Commonwealth, who belong to places more than one hundred miles distant from Cambridge, and whose parents or guardians desire to avail themselves of the regulations herein provided; and the Patron shall have charge of all the funds of such Students.

"§ 122. The parent or guardian of each Student shall be informed what are the necessary annual expenses included in the term-bills; and he shall also be informed by the Patron what funds for the support and use of his son or ward must be remitted to him; and the Patron is to have the whole control of the same, under the direction of the Faculty.

"§ 123. Every Student subject to the Patron Law is to be charged in his term-bill at the rate of two and a half per cent, as a compensation to the Patron for the disbursements made on his account.

"§ 124. No such Student is allowed to contract any debt without an order from the Patron, or from his parent or guardian."

JOHN B. DANA, Esq., of Cambridge, Assistant Steward, has been appointed Patron, and is confidently recommended to parents and guardians as a gentleman in whose discretion and fidelity to the trust entire confidence may be placed.

RESIDENT GRADUATES.

GRADUATES of the University, or of other collegiate institutions, desirous of pursuing their studies at Cambridge without joining any of the Professional Schools, are permitted to do so, in the capacity of Resident Graduates. They are allowed to enjoy the use of the Library and scientific collections, on the payment of *five dollars* a year, one half in advance, at the beginning of each Term.

They give to the Steward satisfactory bonds in the sum of two hundred dollars, signed by two bondsmen, one of whom must be a citizen of Massachusetts, and they are subject to the laws and regulations of the College, as far as applicable to them. They are admitted free to all the courses of public lectures delivered to the Undergraduates; and, upon the payment of a fee of five dollars for each course, to the Lectures delivered in the Scientific School.

DEGREE OF MASTER OF ARTS.

THE Degree of Master of Arts is conferred in course on every Bachelor of Arts of three years' standing, on the payment of the usual fee, who shall, in the interval, have sustained a good moral character. Graduates of longer standing may also have the Master's Degree upon the same condition. In both cases, application should be made at the Steward's office, either personally or by letter, as soon as the second day before Commencement. The fee, including the Diploma, is *five dollars*, payable in advance.

 "The College will not be responsible for the safe-keeping of *any* DIPLOMA, unless a request, in writing, is left at the Steward's office two days, at least, before Commencement, that it may be taken from the files, and reserved for the applicant."

TERMS OF ADMISSION AND COURSE OF STUDY.

CANDIDATES for admission to the DIVINITY SCHOOL are expected to present themselves on the first day of the Term. If unknown to the Faculty, they are to produce testimonials to their moral and serious character. Candidates not Bachelors of Arts will be examined in the following books : —

Latin Grammar, Virgil, Cicero's Select Orations, and Sallust ;

Greek Grammar, Felton's Greek Reader, the first four books of Xenophon's Anabasis, and the first book of Herodotus, or the first two books of Xenophon's Memorabilia ;

. Geography, Arithmetic, Geometry, and Algebra ;

Whately's Logic and Rhetoric (or some other approved treatises on Logic and Rhetoric), Locke's Essay on the Human Understanding (Book III.), Stewart's Elements of the Philosophy of the Mind (Vol. I.), Dymond's Essays on the Principles of Morality, Jouffroy's Introduction to Ethics, and Butler's Analogy.

Candidates for admission to an advanced standing must have been engaged in the study of Theology as long as the Class into which they propose to be received, and must pass an examination in the studies which that Class has pursued.

Students are required to reside in or near Divinity Hall. They give bonds in the sum of \$ 200 to the Steward, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of term-bills, which, including charges for instruction, rent and care of room and furniture, and use of class-books, amount to \$ 75 annually. Rooms in Divinity Hall are let to other than Divinity Students at \$ 30 a Term.

Each Student must possess a copy of the Old and New Testament Scriptures in the original languages, the latter in Griesbach's or Tischendorf's edition. A copy of all other class-books is furnished on loan. Indigent Students are aided from foundations and other sources. Three years, including the Vacations, which amount to twelve weeks in each year, complete the term of residence.

The course of instruction comprises Lectures, Recitations, and other exercises, on all the subjects usually included in a system of Theological Education, embracing,—

The Hebrew Language; The Principles of Criticism and Interpretation; The Criticism and Interpretation of the Scriptures; Natural Religion, and the Evidences of Revealed Religion; Systematic Theology, Christian Ethics, and Practical Divinity; Church History, and Church Polity; The Composition and Delivery of Sermons, and the Office of Public Prayer;

And the Duties of the Pastoral Office.

The members of the several Classes have exercises in the practice of Extemporaneous Speaking, and the members of the Senior Class preach occasionally in Cambridge during the Summer Term.

Students are entitled to receive instruction from the Instructor in the German Language, and to attend, free of expense, all public lectures given to Undergraduates in the Academical Department.

INSTRUCTION, LIBRARY, GRADUATION, EXPENSES, PRIZES.

THE design of the LAW SCHOOL is to afford a complete course of legal education for gentlemen intended for the Bar in any of the United States, except in matters of mere local law and practice; and also a systematic course of studies in Commercial Jurisprudence for those who intend to devote themselves exclusively to mercantile pursuits.

Students may enter the School in any stage of their professional studies or mercantile pursuits. But they are advised, with a view to their own advantage and improvement, to enter at the beginning of those studies, rather than at a later period.

No examination, and no particular course of previous study, is required for admission; but the Student, if not a graduate of some college, must be at least nineteen years of age, and produce testimonials of good moral character. He also gives a bond, in the sum of \$ 200, to the Steward, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of College dues; or deposits, at his election, \$150 with the Steward, or \$100 if he does not occupy a College room, upon his entrance, and at the commencement of each subsequent Term, to be retained until the end of the Term, and then to be accounted for. No Student is matriculated until such testimonials are produced, and bond given.

The Terms of the Law School coincide with those of the Undergraduate Department; but the exercises begin on the Monday following the commencement of each Term.

The COURSE OF INSTRUCTION for the Bar embraces the various branches of the Common Law, and of Equity; Admiralty; Commercial, International, and Constitutional Law; and the Jurisprudence of the United States.

The COURSE OF INSTRUCTION for the Mercantile Profession is more limited, and embraces the principal branches only of Commercial Jurisprudence; namely, the Law of Agency, of Partnership, of Bailments, of Bills of Exchange and Promissory Notes, of Insurance, of Shipping, Navigation, and other maritime concerns, of Sales, and, if the Students desire it, of Constitutional Law.

No public instruction is given in the local or peculiar municipal jurisprudence of any particular State; but the Students are assisted by the

Professors, as occasion may require, in the private study of the law and practice peculiar to their own States.

Instruction is given by oral lectures and expositions, (and by recitations and examinations, in connection with them,) of which there are ten every week.

The Course of Studies is so arranged as to be completed in two Academical Years; and the studies for each Term are also arranged, as far as they may be, with reference to a course commencing with that Term, and extending through a period of two years; so that those who are beginning the study of the law may enter, at the commencement of either Term, upon branches suitable for them. Students may enter, also, if they so desire it, in the middle, or other part, of a Term. But it is recommended to them to enter at the beginning of an Academical Year, in preference to any other time, if it be convenient. They are at liberty to elect what studies they will pursue, according to their own view of their wants and attainments; but, as a general rule, it is advisable for them, during the First Term, to confine themselves to few branches, as subjects of regular study, giving attendance, however, upon all the lectures.

When a Student is desirous of pursuing a branch of study which does not form the subject of general instruction in that particular Term, the Professors will render him aid in its pursuit as a private study.

The Course of Study, under the different Instructors, is as follows:—

FIRST YEAR.

Commencing in the years 1866, 1868, &c.

FIRST TERM.

ROYALL PROFESSOR. *Agency, Equity Jurisprudence.*

DANE PROFESSOR. *Blackstone's Commentaries, Contracts, Evidence.*

BUSSEY PROFESSOR. *Law of Real Property, Sales, Arbitration.*

SECOND TERM.

ROYALL PROFESSOR. *Pleading, Constitutional Law, Law of Corporations.*

DANE PROFESSOR. *Kent's Commentaries, Evidence, Law of Nations.*

BUSSEY PROFESSOR. *Law of Real Property, Bankruptcy, Conflict of Laws.*

SECOND YEAR.

Commencing in the years 1865, 1867, &c.

FIRST TERM.

ROYALL PROFESSOR. *Bailments, Equity Jurisprudence.*

DANE PROFESSOR. *Blackstone's Commentaries, Shipping and Admiralty, Insurance.*

BUSSEY PROFESSOR. *Law of Real Property, Criminal Law, Domestic Relations.*

SECOND TERM.

ROYALL PROFESSOR. *Constitutional Law and Jurisprudence of the United States, Equity Pleading and Evidence.*

DANE PROFESSOR. *Kent and Blackstone, Bills and Notes, Partnership.*

BUSSEY PROFESSOR. *Law of Real Property, Domestic Relations, Wills and Administration.*

A MOOT COURT is held each week, at which a cause, previously assigned, is argued by four Students, and an opinion delivered by the presiding Professor.

Clubs are formed among the Students, in which dissertations upon legal subjects are read, and cases argued.

The LAW LIBRARY consists of about 13,000 volumes, and includes all the American Reports, the Statutes of the United States, those of all the States, a regular series of all the English Reports including the Year-Books, and the English Statutes, as well as the principal treatises in American and English Law; besides a large collection of Scotch, French, German, Dutch, Spanish, Italian, and other Foreign Law; and a very ample collection of the best editions of the Roman or Civil Law, together with the works of the most celebrated commentators upon that Law.

The Library is open for the use of Students during the Terms and the Winter Vacation, and those who desire it pursue their studies there, especially in the preparation of their Moot Court cases.

Students who have pursued their studies for the term of eighteen months in any Law Institution having legal authority to confer the degree of Bachelor of Laws, one year of said term having been spent in this School,—or who, having been admitted to the Bar after a year's pre-

vious study, have subsequently pursued their studies in this School for one year,—are entitled, upon the certificate and recommendation of the Law Faculty, and on payment of all dues to the College, to the degree of Bachelor of Laws.

The fees are \$50 a Term, and \$25 for half or any smaller fraction of a Term; for which sum, without any additional charge, Students have the use of the lecture-rooms, the Law and College Libraries, and the textbooks; and they are admitted free to all the courses of public lectures delivered to the Undergraduates in the *Academical Department* of the University.

Upon the payment of a fee of \$5 for each course, the Law Students may also attend the Lectures delivered in the Lawrence Scientific School, on Zoölogy and Geology, by Professor AGASSIZ; on Comparative Anatomy and Physiology, by Professor WYMAN; on Botany, by Professor GRAY. They may also study any one of the foreign languages taught in the University, on payment of a fee of \$10 per annum.

The other expenses for a Term are nearly as follows:—

Board, in boarding-houses, twenty weeks, from \$5.00 to	
\$8.00 per week,	from \$100 to \$160
Room-rent, including care of room, but not making fires, . .	16 to 60
Furniture (if the Student does not furnish his room), . . .	8 to 16
Washing,	7 to 15
Fuel, for the First or Winter Term, from September to	
January,	12 to 25
" for the Second or Summer Term, from February to July,	
from \$6 to \$10.	
Servant (if one is employed) to make fires, &c.,	5 to 10
	\$148 to \$286

Students may enter into economical arrangements, by which board need not exceed \$3.00 or \$5.00 a week.

Fuel, prepared for use, is furnished by the lessee of the College Wharf, at the market price, if the Students desire it.

PRIZE DISSERTATIONS.

PRIZES will hereafter be annually awarded, near the close of the second term of each Academical year, for the best and second-best Dissertations, written by Students of the Law School, on subjects given out by the Law Faculty, as follows:—

First. A prize of *sixty dollars* for the best, and of *fifty dollars* for the second-best Dissertation, by a Student who has attended the Law School at least three of the four Terms immediately preceding the award.

Second. A prize of *fifty dollars* for the best, and *forty dollars* for the second-best Dissertation, by a Student who has attended two of the three Terms next preceding the award.

The Term in which the award is made is included in the computation.

Students entitled to compete for the prizes on the first subject cannot write for the second.

No Student will write on both subjects.

The merit of the Dissertations will be adjudged by committees of Counsellors at Law, appointed by the Law Faculty.

The prizes will be awarded at the close of each Academical Year. Prizes will not be awarded unless the Dissertations offered shall be deemed to have sufficient merit.

The Dissertations must be left at the office of one of the Faculty, while the writer is a member of the Law School, and by the *first day of May* annually. Each Dissertation must have a motto, or assumed name, written upon it, and be accompanied by a sealed letter, having the same motto or name on the outside, and the true name of the writer within. Unsuccessful Dissertations will be returned to the writers when requested. A copy of the successful Dissertations must be left with one of the Faculty for preservation in the Library of the Law School. They must all be written on letter-paper of good quality, of the usual quarto size, with a suitable margin, so that, if successful, they may be bound up without injury to the writing. The sheets must be securely stitched together.

No Dissertation to exceed in length the amount of thirty pages, as large as the 16th page of the first volume of Greenleaf's Evidence, 2d edition.

Subjects for Dissertations the present Academical year:—

FOR STUDENTS THREE TERMS IN THE SCHOOL.

The Extent to which the Common Law is applied in determining what constitutes a crime, and the nature and degree of punishment consequent thereupon.

FOR STUDENTS TWO TERMS IN THE SCHOOL.

The doctrine of excluding what is offered in Evidence, on the ground of Incompetency.

The following prizes were assigned for the last year:—

For Dissertations, "By what Means and to what Extent a Common Carrier may limit his Liability."

To GODFREY SIEGEN THALER, of Stillwater, Minn., the First Prize of *sixty dollars*.

To JAMES TRUESDALE KILBRETH, of Cincinnati, O., the Second Prize of *fifty dollars*.

For Dissertations, "Of the Rights and Duties of Neutrals in respect to the armed Vessels of Belligerents."

To CHARLES COTESWORTH BEAMAN, of Cambridge, Mass., the First Prize of *fifty dollars*.

To EDWARD WINSLOW PAIGE, of Schenectady, N. Y., the Second Prize of *forty dollars*.

Committee. — HON. LUKE P. POLAND, of Vermont.

HON. JOHN P. PUTNAM, of Massachusetts.

WILLIAM BRIGHAM, Esq., of Massachusetts.

COURSE OF STUDY.

THE books marked thus (*) compose the course which is completed in two years. The studies of gentlemen who remain longer in the School are pursued in other books in the *regular course*, to which others are added from time to time, as far as the leisure and progress of the Students may permit. The *parallel course* is prescribed chiefly for private reading.

REQUISITES FOR ADMISSION.

CANDIDATES for admission must have attained the age of eighteen years, have received a good common English education, and be qualified to pursue to advantage the courses of study to which they propose to give their attention. They must furnish satisfactory evidence of good moral character, give bonds, in the sum of \$200, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of all dues to the School, and register their names with the Dean of the Faculty. They will be admitted only at the commencement of a Term, unless by special permission. The special requisites for admission to the Departments of Chemistry and Engineering are stated below; and the candidates will present themselves on September 20, 1866, or, if prepared to be examined for advanced standing, on February 15, 1866.

REQUIREMENTS OF STUDENTS.

STUDENTS of the Scientific School are required to board and lodge at licensed houses. They shall conduct themselves in a courteous and gentlemanly manner, and shall comply with all the regulations of the School and of the Department to which they belong.

A Scientific Student violating these regulations, or participating with an Undergraduate in an offence against the laws of the College, is liable to dismission from the School.

DEGREES.

THE degree of *Bachelor of Science* may be conferred upon any Student who, having attended the instructions of the School for at least one year, and completed the prescribed course of studies in one or more Departments, shall have passed a satisfactory public examination.

The Department or Departments in which the Student has been examined, and his grade of merit, will be specified in the Diploma, and each Diploma will bear the signatures of the President and Faculty.

Certificates may be granted to Students who do not graduate, stating the time they have been present in the School, the studies pursued, and the progress made.

COURSES OF INSTRUCTION.

THE number and choice of studies are to a limited extent optional on the part of Students, who will, however, be counselled on these points by the Professors; but a punctual attendance on all prescribed exercises will be required. In the Department of Engineering, examinations are held each Term upon the work of that Term, and no Student will be admitted to an examination for a degree in this Department who has not passed all the Term examinations of the Department.

I. CHEMISTRY.

PROFESSOR GIBBS will receive Special Students to the course of instruction in Experimental Chemistry and research, who will give their attendance in the Laboratory from 9 o'clock, A. M., till 5 o'clock, P. M., five days in the week.

The course will include instruction in —

Theoretical and Experimental Chemistry, and Systematic Qualitative and Quantitative Analysis, in all their branches; and

The solution of problems of research in experimental science and in the applications of science to the arts and manufactures.

The more thorough the previous acquaintance of the Student with Mathematics, Mechanics, Physics, and General Chemistry, the better.

Kuapp's Chemical Technology.

Bolley's Chemical Technology.

II. ZOOLOGY AND GEOLOGY.

THE instruction in this Department is given at the Museum of Comparative Zoölogy (see p. 95), and consists this year of a course of Lectures by Professor AGASSIZ on Zoölogy, embracing the fundamental principles of the classification of animals, as founded upon structure and embryonic development, and illustrating their natural affinities, habits, geographical distribution, and the relations which exist between the living and extinct races; and of a course on Geology, both theoretical and practical. The course on Geology will be delivered during the First Term.

Besides the instructions of the lecture-room, Professor Agassiz will afford the Students occasional access to his laboratory, in order to show them how to observe isolated facts, how to determine living and fossil animals, and how to identify rocks of different formations.

III. ENGINEERING.

PROFESSOR EUSTIS will receive Special Students to the course of instruction in Engineering, who will give their attendance at the School from 9 o'clock, A. M., to 5 o'clock, P. M.

The course will include instruction in—

Surveying, with the use of the instruments, and actual operations in the field.

Drawing in all its branches; topographical, outline, shaded, and tinted, including Isometric Projections.

Analytical Geometry and Differential and Integral Calculus.

The principles of Mechanics, and their application to Machinery and Engineering.

Descriptive Geometry.

The theory of shades, shadows, and perspective.

The application of Descriptive Geometry to masonry and stone-cutting, in the construction of groined and cloistered arches, domes, &c.

The nature and properties of building materials, and their application to the construction of railroads, canals, bridges, &c.

The instruction will be given by daily exercises at the blackboard and by lectures.

Candidates will be examined in Sherwin's Algebra, Legendre's Geometry, and Plane and Analytical Trigonometry, or their equivalents.

Candidates presenting themselves in February will also be examined in Church's Analytical Geometry, or its equivalent.

IV. BOTANY.

PROFESSOR GRAY will give a course of practical lessons in Systematic Botany, twice a week, from the first of May to the close of the Term, to Scientific Students properly prepared for it.

Also, a course of instruction, with a Text-Book, in the elements of Structural and Systematic Botany; two lessons a week, throughout the Second Term.

Text-Books.

Gray's Botanical Text-Book, or Gray's First Lessons in Botany.
Gray's Manual of the Botany of the Northern United States.

V. COMPARATIVE ANATOMY AND PHYSIOLOGY.

SPECIAL instruction will be given in the Anatomical Laboratory in Boylston Hall, by Professor J. WYMAN.

A course of Lectures will be delivered each Term.

Books of Reference.

Sharpey and Quain's Anatomy.	of the Invertebrated Animals,
Owen's Lectures on Comparative Anatomy.	translated by Dr. Burnet.

Siebold's Comparative Anatomy	Todd and Bowman's Physiological Anatomy.

VI. MATHEMATICS.

INSTRUCTION will be given in the *Higher Mathematics*, and especially in *Analytical and Celestial Mechanics*, by Professor PEIRCE.

Private instruction in the various branches of Mathematics will be given to those desirous of receiving it, by competent instructors residing at the University.

VII. MINERALOGY.

PROFESSOR COOKE will give, during the Second Term, a course of practical instruction in Mineralogy. The course will embrace Theoretical Crystallography, the Determination and Drawing of Crystals, the Study of the Physical Properties of Minerals, and the Determination of Mineral Species. It will consist of recitations and lectures three times a week during the Term, and of practical exercises in the Laboratory. Students taking this course will have access to the Mineralogical Cabinet of the University, which has recently been greatly enlarged and improved.

Text-Books. Dana's Mineralogy; Cooke's Chemical Physics.

LECTURES, &c.

STUDENTS of the Scientific School may attend, without charge, any of the Lectures delivered to Undergraduates by the Professors in the Academical Department. (See page 33.)

The Anatomical Museum, the Museum of Comparative Zoölogy, the Botanic Garden, and the Public Library, are accessible to the Students of the Scientific School.

Through the munificent gift of \$53,000, made by JAMES LAWRENCE, Esq., the facilities in the Departments of Engineering and Chemistry have recently been much increased.

F E E S.

In the Department of CHEMISTRY, for instruction, per Term of twenty weeks, *fifty dollars*; for Laboratory apparatus and supplies, *fifty dollars*; for one half or any less fraction of a Term, two thirds of the above sums.

The Students in Chemistry are supplied with all needed apparatus, and are required to restore it in as good condition as they receive it.

In the Department of ENGINEERING, for instruction five days in the week, *seventy-five dollars* per Term; for one half or any less fraction of a Term, two thirds of that sum.

Students in Engineering will supply themselves with drawing materials, necessary text-books, &c.

In the Department of MINERALOGY, for instruction three hours a week (see p. 79) during the Second Term, *fifteen dollars*.

In any of the other Departments, the fees for special instruction may be agreed upon with the instructor.

The Lectures delivered in the Scientific School may be attended by members of the other Professional Schools, and by persons not otherwise connected with the University, on payment of a fee of five dollars *per course*. Students in any department of the Scientific School may attend lectures in any other department of the School, on payment of a fee of five dollars *per course*, and all Academical Lectures (see preceding page) without charge. They may also study any one of the foreign modern languages taught in the University, on payment of a fee of *five dollars* per Term.

The Gymnasium is open to all members of the University. The fee for attendance and instruction is *two dollars* a Term.

For Board, Room-rent, &c., see pages 37 and 63.

For further information concerning the School, application may be made to Professor GIBBS.

SCHOOL OF MINING AND PRACTICAL GEOLOGY.

THOMAS HILL, D.D., LL.D., *President.*
ASA GRAY, LL.D.
JOSEPH LOVERING, A.M.
HENRY L. EUSTIS, A.M.
JOSIAH D. WHITNEY, A.B.
WOLCOTT GIBBS, M.D.
JOSIAH P. COOKE, A.M.

A SCHOOL, having for its object the instruction of students in Practical Geology, the Art of Mining, and kindred branches, has been opened in connection with the Lawrence Scientific School of Harvard College. The full course will occupy four years, and on those who pass through it and sustain the necessary examination, an appropriate degree as Mining Engineer will be conferred.

There will be two terms in each year, and they will coincide in duration with those of the Scientific School. The first term of the present year commenced Monday, October 2, and will close February 7; the second term will commence February 15, 1866, and will end on Wednesday, July 4. The students for this year are registered among those of the Lawrence Scientific School. Candidates for admission must present themselves September 20, 1866; or, if prepared to be examined in Analytical Geometry, on February 15, 1866.

They must have received a good common English education, and cannot be retained in the School unless they show that they are mentally and physically qualified to pursue with advantage the prescribed course of study. They must furnish satisfactory evidence of good moral character, give bonds in the sum of \$200, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of

all dues to the School, and register their names with the Dean of the Faculty. They are also required to conduct themselves in a courteous and gentlemanly manner, and to comply with the rules of the School.

Graduates of Colleges will be admitted without previous examination; all others must pass a satisfactory examination in Algebra, Geometry, Plane and Analytical Trigonometry. Those who have no previous acquaintance with General Chemistry will be required to make up their deficiency by attending the College course on this subject during one of the first two years of their attendance at the School.

Persons properly qualified, and able to pass the necessary examination, will be admitted to any part of the course, at the beginning of any term, but not later than the beginning of the second term of the third year. Those who may thus enter in advance will, however, be required to pay an entrance fee equal to one third of what they would have been obliged to pay to attain that standing, had they entered at the beginning of the course.

Any person, however, who is not desirous of being considered as a candidate for a degree, may attend to any special branch taught in the School or any course of lectures, at his own pleasure, on paying such proportion of the fees for instruction as may be fixed by the Professor to whose department he desires to be attached.

After the School shall have become fully organized, a course of instruction will be arranged for the benefit of those who may wish to qualify themselves for field-work in geodesy and geology, or to become teachers of those branches.

The full course of instruction will be arranged as follows:—

FIRST YEAR.

First Term. Analytical Geometry; Descriptive Geometry; Surveying and Mechanical Drawing; French; German.

Second Term. Differential and Integral Calculus; Mechanical Drawing; Crystallography; French; German.

SECOND YEAR.

First Term. Mechanics; Physics; Chemistry; French; German.

Second Term. Mechanics; Descriptive Mineralogy; Analytical Chemistry; French; German.

The course of instruction during the third and fourth year has not yet been arranged. The following objects will, however, be those to which especial attention will be given :—

Geodesy,	Metallurgy,
Geology and Physical Geography,	Mining.

In the department of Geodesy, the student will be instructed in the following branches : Topographical drawing ; the use of portable astronomical instruments for determination of geographical position ; Projection of Maps, and all operations connected with either the hasty reconnaissance, or the more careful surveys, of large districts.

In the department of Geology the general principles of the science will be fully taught in one course of lectures, while another will be devoted to the subject of the structure of the North American Continent, with particular reference to the geological position and mode of occurrence of our useful rocks, minerals, and ores. The subject of metalliferous veins will also receive especial attention, both as regards the economical relations of the various forms and the theories of their origin. A course of lectures in Physical Geography, with practice in the use of instruments for meteorological and hypsometrical observations, will form a part of the course of instruction in this department.

In the departments of Mining and Metallurgy, great pains will be taken to give instruction in methods and processes actually in use in this country, and the whole course will be so arranged as to give it an especial practical value to those who intend to devote themselves to the development of the mineral resources of the United States.

Collections illustrating the Economical Geology and Metallurgy of this country have already been secured, and these will be largely increased during the next two years. Due notice will be given, in the Annual Catalogue, of the arrangements made for instruction in the third and fourth years of the course, and of the establishment of new professorships in the School.

Fees. — For the first year in the course, \$ 75 a term ; for each succeeding year, \$ 100 a term.

OBJECTS AND COURSE OF INSTRUCTION.

THE objects of the Observatory are to furnish accurate and systematic observations of the heavenly bodies for the advancement of Astronomical Science, to co-operate in Geodetical and Nautical Surveys, to contribute to the improvement of Tables useful in Navigation, and, in general, to promote the progress of knowledge in Astronomy and the kindred sciences. To aid in effecting these objects, provision is made for publishing the Observations and the Director's Reports, and for increasing the Library.

Practical Astronomy and the Use of Astronomical Instruments will be taught by TRUMAN H. SAFFORD, Assistant in charge of the Observatory.

INSTRUCTION AND DEGREES.

THE MEDICAL SCHOOL is established in Boston in order to secure those advantages for clinical instruction and for practical anatomy which are found only in large cities. The Medical College is near the Massachusetts General Hospital, and clinical instruction is given to the students of the Medical School, not only there, but at the City Hospital, the Marine Hospital at Chelsea, the Eye and Ear Infirmary, and the Dispensary, at which several thousand patients are annually prescribed for.

The School is under the charge of ten professors and nine assistants, and is furnished with a large and valuable museum, and conveniences for the practical study of Anatomy and Chemistry. The course of instruction is continued throughout the year, with a vacation of eight weeks in summer. The Winter Course of Lectures begins on the first Wednesday in November, and continues seventeen weeks. Three other terms in the year afford opportunities to those who would pursue their course continuously in the School. Access is afforded to Lectures in Cambridge on Optics, Acoustics, Comparative Anatomy, Zoölogy, and Botany, and other subjects connected with Medicine and Surgery. A Clinical Conference is held every week, at which students are practised in observation, diagnosis, prognosis, and treatment, under the guidance of professors and hospital physicians and surgeons.

COURSE OF INSTRUCTION FOR THE YEAR 1865-66.**LECTURE TERM, Nov. 1, 1865, TO FEB. 28, 1866.****LECTURES.**

Anatomy and Physiology, — PROFESSOR HOLMES, Monday, Tuesday, Wednesday, Thursday, and Friday, at 1 o'clock.

Surgery, — PROFESSOR BIGELOW, Monday, Tuesday, and Thursday, at 11 o'clock, at the Medical College; Saturday, at 10 o'clock, at the Massachusetts General Hospital.

Obstetrics, — PROFESSOR STORER, Monday, at 10 o'clock; Wednesday and Friday, at 12 o'clock.

Pathological Anatomy, — PROFESSOR JACKSON, Monday, at 12 o'clock; Tuesday, at 9 o'clock.

Chemistry, — PROFESSOR BACON, at the Massachusetts Medical College, Tuesday and Thursday, at 12 o'clock.

Materia Medica, — PROFESSOR CLARKE, Monday, at 9 o'clock; Tuesday and Saturday, at 8 o'clock.

Clinical Medicine, — PROFESSORS BOWDITCH and ELLIS, at the Massachusetts General Hospital, Monday and Thursday, at 8 o'clock, and Tuesday, at 4 o'clock; at the Massachusetts Medical College, Thursday, at 10 o'clock, and Saturday, at 9 o'clock.

Theory and Practice of Physic, — PROFESSORS SHATTUCK and BUCKINGHAM, Tuesday, at 10 o'clock, and Wednesday, at 3½ o'clock; Monday, at 4 o'clock, at the Massachusetts Medical College; Monday and Thursday, at 8 o'clock, at the Massachusetts General Hospital; Friday, at 10 o'clock, at the City Hospital.

RECITATIONS.

Anatomy, — DR. D. W. CHEEVER, Monday and Thursday, at 5 o'clock; Wednesday and Friday, at 5 o'clock, at the Dissecting-Room.

Clinical Chemistry, — DR. J. C. WHITE, Thursday, at 8½ o'clock, at the Massachusetts General Hospital.

Clinical Medicine, — DOCTORS S. L. ABBOT and R. M. HODGES, Tuesday, at 4 o'clock, at the Massachusetts General Hospital.

Psychological Medicine, — DR. J. E. TYLER, Thursday, at 3½ o'clock.

CLINICAL INSTRUCTION.

Massachusetts General Hospital, — Monday and Thursday, at 8 o'clock ; Wednesday and Saturday, at 10 o'clock. City Hospital, — Wednesday, at 9 o'clock, Ophthalmic Clinic ; 10 o'clock, Surgical Visit ; 11 o'clock, Operations ; Friday, at 8 o'clock, Medical Visit ; 9 o'clock, Medical Lecture ; 10 o'clock, Surgical Clinic. Dispensary, — Wednesday and Friday, at 9 o'clock.

SPRING TERM, MONDAY, MARCH 12, TO MONDAY, JUNE 11, 1866.

RECITATIONS.

Anatomy and Physiology, — PROFESSOR HOLMES and DR. D. W. CHEEVER, Tuesday and Friday, at 4 o'clock ; 5 o'clock, daily, March and April, in the Dissecting-Room.

Pathological Anatomy, — PROFESSOR ELLIS, Thursday and Saturday, at 8 o'clock.

Obstetrics, — PROFESSOR STORER and DR. H. R. STORER, Monday and Thursday, at 12 o'clock.

Surgery, — PROFESSOR BIGELOW and DR. R. M. HODGES, Tuesday and Friday, at 12 o'clock.

Theory and Practice of Physic, — DR. F. MINOT, Monday and Thursday, at 9 o'clock.

CLINICAL INSTRUCTION.

Massachusetts General Hospital, daily, at 9 o'clock. City Hospital, Wednesday and Friday, at 9 o'clock ; Clinical Lecture on Surgery, by DR. D. W. Cheever, Friday, at 10 o'clock. Dispensary, Tuesday, Wednesday, and Friday, at 9 o'clock. Marine Hospital at Chelsea, Wednesday, at 9 o'clock. Eye and Ear Infirmary, Thursday, at 11 o'clock.

LECTURES AT CAMBRIDGE.

On the Mutual Relations of the Sciences, by President Hill, Tuesday, at 11 o'clock ; on *Botany*, by Professor Gray, Tuesday and Thursday, at 10 o'clock ; on *Natural Philosophy*, by Professor Lovering, at No. 2 University Hall, Tuesday, at 11 o'clock ; at the Museum of Comparative Zoölogy, by Professor Agassiz, Wednesday, at 3 o'clock, and Saturday, at 10 o'clock ; *Rumford Lectures on Heat*, by Professor Gibbs, Tuesday, at 12 o'clock.

SUMMER TERM, MONDAY, JUNE 11, to SATURDAY, JULY 14, 1866.

RECITATIONS.

Theory and Practice, — PROFESSORS SHATTUCK and BUCKINGHAM, Monday and Thursday, at 9 o'clock, at the Massachusetts General Hospital; Tuesday and Friday, at 12 o'clock, at the Medical College.

Chemistry, — PROFESSOR BACON and DR. WHITE, Monday and Thursday, at 12 o'clock.

Materia Medica, — PROFESSOR CLARKE and DR. F. E. OLIVER, Monday and Thursday, at 4 o'clock.

Clinical Medicine, — PROFESSORS BOWDITCH and ELLIS, and DRs. ABBOT and SINCLAIR, Wednesday, at 4½ o'clock, and Saturday, at 9 o'clock.

Clinical Surgery, — DR. HODGES, Thursday, at 11 o'clock.

CLINICAL INSTRUCTION.

Massachusetts General Hospital, daily, at 9 o'clock; City Hospital, Wednesday and Friday, at 9 o'clock; Marine Hospital, Chelsea, Wednesday, at 9 o'clock; Eye and Ear Infirmary, Thursday, at 11 o'clock; Boston Dispensary, Tuesday, Wednesday, and Friday, at 9 o'clock.

Lectures at No. 2 University Hall, Cambridge, on Natural Philosophy, by Professor Lovering, Tuesday and Thursday, at 12 o'clock.

AUTUMN TERM, SEPTEMBER 13, to NOVEMBER 4, 1866.

FEES.

THE fee for matriculation is \$3, which is appropriated to the increase of the Library, and is to be paid to the Dean by all wishing to attend any of the Winter Courses of Lectures.

The fee for instruction during the long Term, from the first of March to the first of November, (the months of August and September being appropriated to a vacation,) is \$100.

The fees for the Winter Courses of Lectures amount in all to \$95, which are required to be paid when the tickets are taken.

The fee for graduation is \$20, which is deposited with the Dean when application is made to him for examination.

A fee of \$5 is to be paid by the students who use the dissecting-room during the winter months. This room is open during the months of March, April, and October, and supplied with subjects for the use of students of the Summer Course without additional expense. There is no charge for the use of the Library or for visits to the Hospital.

The introduction of a Summer Course of instruction involves no change in the amount or character of the Winter Courses of Lectures as heretofore conducted, nor in the requisites for a medical degree.

STATUTE REGULATIONS RELATIVE TO MEDICAL DEGREES.

THE FACULTY OF MEDICINE of this University shall consist of the President, and of the Professors and Lecturers authorized to give instruction to the Medical Students. This Faculty shall always have a Dean, elected by themselves, for such periods as they may think proper, and may also adopt rules for their own government, provided that the same do not in any respect contravene the laws of the University.

Students of Medicine designing to attend the Medical Lectures, or any of them, shall be matriculated in this University by entering their names with the Dean of the Faculty of Medicine, to be enrolled by him, and by signing an obligation to submit to the laws of the University, and to the direction of the Faculty of Medicine.

There shall be holden by the Faculty two meetings in each year for the purpose of examining candidates for the degree of Doctor in Medicine. These shall be holden in the Massachusetts Medical College, unless otherwise specially ordered. They may be continued by adjournment, by vote of the members present, and if only one member attend

at the time and place designated, he may adjourn the meeting from day to day till three members of the Faculty may attend the meeting. Three members of the Faculty must be present at every examination.

The first meeting for examination shall be held on the day next succeeding that on which the Winter Courses end ; the second, on the Monday next but one preceding the Commencement in July. In extraordinary cases, the Faculty may hold meetings for examination at other times.

Every candidate for the degree of Doctor in Medicine must comply with the following conditions before being admitted to examination :—

1. He shall satisfy the Faculty that he has arrived at the age of twenty-one.

2. He shall have attended two courses of Lectures delivered at the Massachusetts Medical College by each of the Professors ; except that if he have attended a course of similar lectures in any other college or university, the same may take place of one of the above courses.

3. He shall have employed three years in his professional studies under the direction of a regular practitioner of medicine.

4. If he has not received a university education, he shall satisfy the Faculty of Medicine in respect to his knowledge of the Latin language and Experimental Philosophy.

5. He shall, four weeks previous to the day on which he presents himself for examination, have given notice of his intention to the Dean of the Faculty, and at the same time shall have delivered or transmitted to the Dean a dissertation, written by himself, on some subject connected with medicine.

Every dissertation shall be submitted by the Dean to the examination of the Faculty in the mode which they shall point out.

At the meetings for examination, the Faculty shall examine all the candidates who shall present themselves, after having complied with the conditions enumerated in these statutes, upon the following branches of Medical Science ; namely, Anatomy, Physiology, Chemistry, Materia Medica, Pharmacy, Morbid Anatomy, Midwifery, Surgery, Clinical Medicine, and the Theory and Practice of Medicine. The decision in respect to each candidate shall be determined by the vote of the major part of the members of the Faculty present at the examination of the same, and this decision, if favorable to the candidate, shall be recorded by the Dean. In the decisions to be made at these meetings, regard shall be had to the dissertation as well as to the examination.

At the close of the examination, the Faculty shall decide in respect to each candidate whether he shall be recommended as worthy of the degree for which he has applied. The decision of the Faculty in respect to all these candidates whom they so recommend shall be recorded by the Dean, and shall by him be certified to the President, to be laid before the Corporation and Overseers.

Those candidates who have at the spring examination received from the Corporation and Overseers the final approbation, shall be admitted to the degree of Doctor in Medicine by the President of the University at a public Commencement holden on the Wednesday next succeeding the day of the examination, on which occasion an Address shall be delivered by some one selected for this purpose by the Medical Faculty. Those who may be approved at the summer examination will receive their degrees and diplomas in Cambridge, on Commencement Day. Public invitation to attend the ceremony at the Commencement immediately following the Lectures shall be given by the Dean of the Medical Faculty to the Fellows of the Massachusetts Medical Society, to all Medical Students, and to every person who may take an interest in Medical Science.

BOYLSTON PRIZE DISSERTATIONS.

AN ANNUAL PRIZE is assigned, from the Foundation of Ward Nicholas Boylston, for the best Dissertation on a Medical Subject, proposed by a committee appointed by the President and Fellows of the University..

The prize is of the amount of *one hundred and twenty dollars*, and may be taken either in money, or in the form of a gold medal of that value.

The Dissertations must be sent to Dr. E. Reynolds, on or before the first Wednesday in April.

The Annual Meeting at which the prize is awarded is held on the first Wednesday in August.

Each Dissertation must bear some motto or distinguishing mark, and be accompanied by a sealed letter containing the name of the writer. The unsuccessful Dissertations, with the accompanying letters unopened, are returned to the writers when called for within the year.

No prizes are awarded, if no one of the Dissertations presented is thought to be of sufficient merit.

COMMITTEE for reading the Dissertations and adjudging their merit:— Edward Reynolds, M.D., *Chairman*; John Jeffries, M.D.; Solomon D. Townsend, M.D.; John B. S. Jackson, M.D.; J. Mason Warren, M.D.; D. Humphreys Storer, M.D., *Secretary*; Charles G. Putnam, M.D.; Morrill Wyman, M.D.; Henry J. Bigelow, M.D.

THIS institution was founded in 1859. It is under the direction of the Faculty, while the property is held by the Trustees. The Lawrence Professor of Zoölogy in the Scientific School is, *ex officio*, Curator, and charged with the direction of the scientific and educational interests of the Museum. The Director is appointed by the Trustees, and is charged with the relations of the Museum to the public. The Assistants are appointed by the Faculty. The collections, so far as arranged in the part of the building already erected, are open to visitors every day except Sundays and Mondays.

The instruction offered by the Curator the present year is announced on pages 77 and 104; and other lectures, given under his direction, on page 104.

UNIVERSITY LECTURES.

Courses of Lectures, open to all graduates of colleges and public school teachers who enter their names, to persons connected with the University, except undergraduates, and to others on the payment of five dollars a term, were delivered during the past year, as follows:—

- On Mental Diseases and Insanity, by DR. JOHN E. TYLER.
- On the Origin of the Romance Languages, and their Connection with English, by MR. FERDINAND BÖCHER.
- On the Natural History of Domesticated Animals, by PROFESSOR L. AGASSIZ.
- How and what to Observe in Natural History, by PROFESSOR L. AGASSIZ.
- On the Marine Animals of Massachusetts Bay, by ALEXANDER AGASSIZ, S. B.
- On Theoretical Chemistry, by PROFESSOR WOLCOTT GIBBS.
- On Modes of teaching Elementary Mathematics, by PRESIDENT HILL.
- On the Mutual Relations of the Sciences, by PRESIDENT HILL.
- On the Culture of the Native Grape, by E. W. BULL, ESQ.
- On Art Anatomy, by DR. WM. RIMMER.
- On Passages in Plato's Republic, by PROFESSOR GOODWIN.
- On the Logic of Science, by CHAS. S. PEIRCE, S. B.
- On the Geological Succession of the Brachiopods, by N. S. SHALE, S. B.

Eight Courses have been announced for the first term of 1865 - 66,
viz.: —

- On Animal Heat, by DR. J. S. LOMBARD.
- On the Elevation of Continents, by N. S. SHALE, S. B.
- Introduction to North American Entomology, by R. P. UHLER, S. B.
- On Methods of teaching Elementary Mathematics, by PRESIDENT HILL.
- On Optical Chemistry, by PROFESSOR WOLCOTT GIBBS.
- On Insanity, by JOHN E. TYLER, M. D.
- On the Evidences of the Development Theory of the Universe, by PROFESSOR B. PEIRCE.
- On the Sources of Natural Theology, by PRESIDENT HILL.

L I B R A R Y.

THE UNIVERSITY LIBRARY is divided into four departments, viz. Theological, Medical, Law, and College ; which last, besides books in all other departments of learning, embraces also an extensive collection of works on Theology, Medicine, and Law.

The THEOLOGICAL LIBRARY is in Divinity Hall. Persons entitled to its privileges must be connected with the Divinity School. Number of books, about 16,000. They consist of valuable select works, principally in modern Theology, with some of the early Fathers.

The MEDICAL LIBRARY is in the Medical College in Boston. It is placed there for the convenience of students attending the Medical Lectures. The number of books is about 2,000.

. The LAW LIBRARY is in Dane Hall. It is designed for the officers and students of the Law School. Number of books, about 13,000. It contains most of the valuable works in English and American Law, and in the Civil Law, together with a variety of others, by writers of France, Germany, and Spain.

The COLLEGE LIBRARY is in Gore Hall. It is for the common use of the whole University, in this respect differing from the other branches of the University Library ; and it may be consulted, during Library hours, by all persons, whether connected with the University or not. The total number of books is about 110,000 ; of which 1,000 belong to the Boylston Medical Library, in immediate connection with it. In Term time, (excepting Christmas day, New-Year's day, Fast day, the Fourth of July, and the two Recesses,) the Library is open on the first five secular days of the week, from 9 A. M. till 1 P. M., and from 2 P. M. till 5 P. M., or till sunset, when that is before 5. In vacations, it is open from 9 to 1 o'clock on Mondays, Wednesdays, and Fridays.

(F) The Library is always closed on Saturdays and Sundays.

The total number of books in the Libraries of the University is, then, as follows :—

College Library	110,000
Medical "	2,000
Law "	13,000
Theological Library	16,000
Lawrence Scientific Library	7,000
Phillips Astronomical Library	1,500

1866.

1. In the studies required for admission to the Freshman Class.
2. In all the *required* studies already gone over by the Class for which he is offered.*
3. If he apply for admission to the Senior Class, in two of the *elective* studies of the Junior year.

He must also pay to the Steward, at the rate of \$45 per annum, according to the standing to which he is admitted. Any Student, however, who has a regular dismission from another College, may be admitted to the same standing, if, on examination, he is found qualified, without any pecuniary consideration. This charge for advanced standing is also remitted to indigent Students.

Every candidate, before examination, must produce proper testimonials of a good moral character, and, if admitted, must give a bond for four hundred dollars to pay all charges accruing under the laws and customs of the University. The bond must be executed by two bondsmen, who must be satisfactory to the Steward of the College, and one of them must be a citizen of Massachusetts.

* "A student who enters College at the beginning of the Junior year shall receive a place on the General Scale at the close of that year. He shall then be allowed for his Freshman and Sophomore years, in those departments in which he has studied with his Class during the Junior year, the same proportional part of the maximum mark of his Class as that which he has actually gained in the same departments in his Junior year; but in those studies of the first two years which his Class does not continue, or which he does not pursue with his Class, in the Junior year, he shall receive no marks except such as may be determined by a special examination, which he shall be permitted to pass for this purpose within the first term after his entrance.

"No student who enters College at or after the beginning of the Senior year shall be admitted to rank on the General Scale." — *Extract from Orders and Regulations.*

Only *real* equivalents for the prescribed text-books are accepted.

* Lectures.

Note.—Where no special designation is added, it will be understood that the Seniors and Juniors recite in three divisions, the Freshmen in two (except on Tuesday and Thursday, when they recite in three), and the Sophomores in four.

† In two divisions.

COLLEGE GYMNASIUM.

The Gymnasium is open to all members of the University, subject to certain rules and conditions.

PUBLIC WORSHIP.

THERE are daily devotional services, with the reading of the Scriptures, and singing, in the College Chapel. All Undergraduates are required to be present; as they are also at public worship in the Chapel on Sunday, except such as have special permission, at the request of their parents or guardians, to attend other congregations, in the City of Cambridge or elsewhere.

EXPENSES.

THE expenses of an Undergraduate for a year are as follows:—

Instruction, Library, Lecture-rooms, Gymnasium, &c.	\$104.00
Rent and care of Room, in the College Buildings (average), . . .	28.00
Board for 40 weeks,	from \$130.00 to 280.00
Text-books (average),	" 16.00 " 16.00
Special Repairs, &c.,	" 1.00 " 2.00
Total,	from \$279.00 to \$430.00

Other expenses must vary with the economy of each Student. Wood and coal ready for use are delivered at the Students' rooms, by the lessee of the College Wharf, on contract, at \$14.00 per cord for hard and \$11.00 for pine wood, exclusive of sawing and splitting; and \$9.50 a ton for anthracite, \$25.00 for cannel, and \$18.00 for Sydney coal. When a less quantity of coal than one ton is ordered, there will be an additional charge of fifty-cents a ton. On and after October 1, 1865, coal and wood will be furnished at the market price. For carrying coal into the buildings in the College yard and into College House and Harvard Block, 80 cents a ton; into other buildings, 40 cents a ton. The rent of rooms in private houses is from \$52 to \$150 per annum. The price of board at present is from \$5.00 to \$7.00 a week, but of course varies with the provision market. A club is established which enables undergraduates to board at cost, at present estimated at \$3.25 a week. Students living in College buildings find their own beds and furniture.

TERM-BILLS.

~~13~~ THE bills containing College charges are to be made out by the Steward, at the end of each Term; and must be settled *within a week from the commencement of the succeeding Term.*

~~13~~ The bill for the Second Term of the Senior year must be paid two days at least before Commencement; and no Degree can be conferred until all books are returned to the Library, and all dues to the College are discharged.

PECUNIARY ASSISTANCE TO MERITORIOUS STUDENTS.

SCHOLARSHIPS.

FORTY-ONE Scholarships have been established in the College, varying in their annual income from one hundred to three hundred dollars :—

One founded by persons educated at Phillips Exeter Academy, called, in honor of the late Principal of that school, the ABBOT SCHOLARSHIP.

A second, founded by the Class of 1814, and called the SCHOLARSHIP OF THE CLASS OF 1814.

A third, founded by the Class of 1815, and called the KIRKLAND SCHOLARSHIP.

A fourth, founded by the Class of 1817, and called the SCHOLARSHIP OF THE CLASS OF 1817.

A fifth, founded by the Class of 1835, and called the SCHOLARSHIP OF THE CLASS OF 1835.

Four in fulfilment of a bequest of Dr. George C. Shattuck, called the SHATTUCK SCHOLARSHIPS, with an income of one hundred and fifty dollars each.

One founded from a bequest of the Hon. Samuel B. Walcott.

Ten founded by John Eliot Thayer, Esq., called the THAYER SCHOLARSHIPS, with an income of three hundred dollars each.

Sixteen, with an income of two hundred and fifty dollars each, by a friend of the College, and called the BOWDITCH SCHOLARSHIPS, four to be assigned to each Class.

Four, with an income of two hundred and fifty dollars each, called the TOWNSEND SCHOLARSHIPS, from the legacy of the late Miss Townsend.

And one, founded by Augustus Story, Esq., and called the STORY SCHOLARSHIP.

There are special provisions affecting the assignment of the Abbot Scholarship, and the Scholarships of the Classes. The income belonging to the Thayer Scholarships is bestowed upon those ten Students deemed the most meritorious by the Trustees of the funds. The income of the sixteen Bowditch Scholarships will be bestowed by the President, in accordance with directions given by the donor. The income of the Townsend and Shattuck Scholarships will be bestowed upon Students recommended by the Faculty to the Corporation. Applications from persons who wish to be considered as candidates will be received *on or before the first day of June* of each year; but none except those who are at once high scholars and need assistance are encouraged

to apply. From the list of candidates the Trustees appoint ten to Thayer Scholarships, and the Faculty make appointments or nominations to the others, being guided principally by the scale of rank for the year. The nominations and appointments will be made at the end of each Academic Year, as soon as the scales of rank for the year can be prepared. The successful candidates shall receive one half of the annual income immediately upon the assignment of the Scholarships, and the remaining half at the end of the following half-year. But the Scholarships for the Senior Class shall be assigned before Commencement, as soon as the annual scale for that Class can be prepared, and the entire income for the year, of those within the control of the Faculty, shall be paid immediately thereupon. No person who has incurred a serious College censure in the course of the year shall be considered a candidate for a Scholarship.

The Scholarships, when voted, will be understood to cover the College year just ended; but the obtaining of a Scholarship for one year will not be held to constitute any title to a second nomination, unless the superiority for which it was originally awarded be fully maintained.

Scholarships from the "Bigelow Fund" just established will be awarded to Freshmen at the time of their entrance.

BENEFICIARY FUND.

VARIOUS bequests and donations have from time to time been made to the President and Fellows, the income of which is appropriated for the aid of deserving Students in narrow circumstances. The annual amount thus distributed from this source is about fourteen hundred dollars, which has usually been given as a gratuity, in sums ranging from twenty to sixty dollars. As some Students prefer to receive the aid in the form of a loan, the Corporation have divided the income of the Beneficiary Funds into two parts; one of which is given as a gratuity, and the other granted on loan to such Students as prefer to receive the aid in that form.

Applications for aid from the Beneficiary Fund are addressed to the President, and must be presented to him on or before *the first day of June*, by the parent or guardian, or by the Student himself if of age. The application should state particularly the circumstances of the case, with the reasons for making it, and whether a gratuity or a loan is desired.

LOAN FUND.

In addition to the Beneficiary Funds above described, of which the President and Fellows are trustees, there is a Loan Fund, raised by subscription among the friends of the University, the interest of which, amounting to about twelve hundred dollars, is annually lent to meritorious Students desirous of receiving it, in sums ranging from twenty to eighty dollars. This fund is under the control of a Board of Trustees, in Boston; Hon. John Lowell, Treasurer. About eight thousand dollars have been already added to the principal by reimbursements to that extent.

The applications for the Loan Fund, made in the same manner as for the Beneficiary Fund, by the parent or guardian, or by the Student himself, if of age, should be left with the President as early as *the first day of December*.

"The Trustees of the Fund for assisting Students at Harvard College request applicants for loans to observe the following rules:—

"1. To address their applications to the Treasurer of the Loan Fund, Hon. John Lowell, Boston," and leave them with the President.

"2. To set forth their circumstances fully, as they would do on making application to an individual for like aid.

"3. To state what aid they have received, or expect to receive, from the College.

"4. If an applicant is under twenty-one years of age, his application must be accompanied by the written approval of his parent or guardian."

MONITORSHIPS, &c.

BESIDES the foregoing provisions for the aid of meritorious Students, the various monitorships, &c. amount to four hundred and eighty dollars a year, which may be considered as an addition, to that extent, to the beneficiary funds of the institution.

SCHOOL-KEEPING.

MERITORIOUS Students, whose circumstances require it, may, at the discretion of the Faculty, be absent for a limited time, not exceeding thirteen weeks, including the Winter Vacation, for the purpose of keeping school.

Applications for permission to keep school must be presented to the President as early as the *15th day of November*, and no absence will be allowed till a certificate of such permission has been first obtained from the President.

P R I Z E S.

I. DETURS.

A DISTRIBUTION of books, called "Deturs," is made from the income of the Hopkins Foundation, near the commencement of the Academical Year, to meritorious Students of the Sophomore Class, and to those Juniors who entered the Sophomore Class, and whose merit would have entitled them to this distinction. Twenty-seven *Deturs* were given in the Sophomore Class, and nine in the Junior Class, the last year.

Deturs are also given to such members of the Junior Class as, not having received them in the Sophomore year, shall, in the course of that year, make decided improvement in scholarship.

II. BOWDOIN PRIZE DISSERTATIONS.

In the Second Term of the Academical Year, prizes are assigned, from the Foundation of James Bowdoin, for English Dissertations, as follows:—

A prize of *fifty dollars* for the best Dissertation by a resident Graduate of the University, on either of the subjects proposed for writers of that standing;

A prize of *forty dollars* for the best, and a prize of *thirty dollars* for the second-best Dissertation by a member of the Senior Class of Undergraduates, on either of the subjects proposed for that Class;

A prize of *forty dollars* for the best, and a prize of *thirty dollars* for the second-best Dissertation by a member of the Junior Class, on either of the subjects proposed for that Class;

Provided there be so many Dissertations worthy of prizes in the opinion of the judges.

The Dissertations must be left at the President's office by the *first day of May*. No performance will be received after that date. The title-page must, with an assumed name, state the standing of the writer, as Graduate or Undergraduate, and if the latter, of what Class. A sealed letter must be sent in at the same time, under cover with the Dissertation, containing the true name of the writer, and superscribed with his assumed name.

The Dissertations must be written upon letter-paper of good quality, of the quarto size, with a margin of not less than one inch at the top and bottom and on each side, so that, if successful, they may be bound up without injury to the writing. The sheets on which the Dissertation is written must be securely stitched together.

No Dissertation to exceed in length the amount of twenty-five printed pages of the North American Review.

The following are the subjects for the present Academical Year:—

FOR RESIDENT GRADUATES.

Mill's Criticisms on Sir William Hamilton.

The Corpus Juris Civilis as a Study in Language and Manners.

The Importance of the Study of Political Science.

FOR MEMBERS OF THE SENIOR CLASS.

The Army of Cromwell.

Merivale's Estimate of Tacitus.

Marcus Aurelius Antoninus.

FOR MEMBERS OF THE JUNIOR CLASS.

Russia and England in Central Asia.

Plutarch and the Civil Wars.

Horace as his own Biographer.

The prizes for the last Academical Year were assigned as follows:—

Resident Graduates.

To SAMUEL DANA HORTON, a First Prize.

COMMITTEE.—The Rev. Rufus Ellis, George Otis Shattuck, Esq., and Charles Franklin Dunbar, Esq.

Senior Class.

To F. JOSEPH COOK, a First Prize.

" GEORGE ALBERT STEARNS, a Second Prize.

COMMITTEE.—The Rev. Rollin Heber Neale, D.D., John Bacon, M.D., and Thomas Bulfinch, Esq.

Junior Class.

To HENRY FOSTER BUSWELL, a First Prize.

" JOHN HENRY WATSON, a Second Prize.

COMMITTEE.—Epes S. Dixwell, Esq., Prof. Wolcott Gibbs, Prof. Joseph Winlock, James Cushing Merrill, Esq., and Edwin Hale Abbot, Esq.

III. BOWDOIN PRIZES FOR LATIN AND GREEK COMPOSITION.

Two Prizes will be assigned for Latin and Greek compositions, from the Bowdoin Prize Fund, under the following regulations for the present year.

A prize of *thirty-five dollars* for the best composition in Latin Verse, by a member of either the Senior or the Junior Class.

A prize of *thirty-five dollars* for the best composition in Greek Prose, by a member of either the Senior or the Junior Class.

The subjects for the compositions are given out, and the prizes awarded, by the Latin and Greek Departments, acting, in conjunction with the President, as a committee of the Faculty for that purpose.

No prize will be awarded unless the absolute merit of the composition shall be such as to deserve it.

The compositions, inscribed with assumed names, must be left at the President's Office by the *first day of May*, accompanied by sealed letters containing the authors' names, and superscribed with the assumed names.

The following are the subjects of the Compositions for the present Academical Year:—

FOR LATIN VERSIFICATION.

Philip's Cyder, Book II., from the verse "Meanwhile blind British Bards with volant Touch," to the verse, "Luxt his Neck-joint, and spinal Marrow brais'd," — to be turned into Hexameters.

FOR GREEK PROSE COMPOSITION.

The introduction of Webster's Oration on The First Settlement of New England, beginning, "Let us rejoice that we behold this day," and ending, "with unabated affection and regard," omitting the third paragraph, — to be freely translated into Attic prose.

No Student is allowed to write on both subjects.

The following Prize was awarded last year:—

For Greek Prose.

To JAMES WILLIAM HAWES, of the Junior Class.

For Latin Versification.

To ROLAND CROCKER LINCOLN, of the Senior Class.

IV. BOYLSTON PRIZES FOR ELOCUTION.

AGREEABLY to the institution of the "Boylston Prizes for Elocution," on the day after Commencement in each year there will be held in University Hall, or in the First Church in Cambridge, a public exhibition and trial of the skill and improvement of the Students of the University in elocution.

The speakers are not to rehearse their own compositions; but to select pieces in prose or verse from English, Greek, or Latin authors, the selections to be approved by the Boylston Professor of Rhetoric and Oratory. The proportion in English is to be at least two out of three.

The competitors must be Graduates of the year, or Undergraduates of one of the next two Classes; and their names must be entered with the Professor, at the latest, *fourteen days* before Commencement. No applications will be received after that time.

The Corporation will, each year, select five gentlemen distinguished for their elocution, either at the bar, in the pulpit, or in the senate, who, with the Corporation, or a major part of them, will judge of the merits of the competitors, and award the prizes. They will assign five prizes: two First Prizes, namely, *fifteen dollars* to each of the best two speakers; and three Second Prizes, namely, *ten dollars* to each of the next three best: Provided, that if the judges shall be of opinion that none of the competitors have exhibited sufficient skill and improvement to be entitled to the First Prizes, they may withhold them.

At this exhibition, no prompting of the speakers will be allowed; and a failure of memory in any one will exclude him from being considered in the assignment of the prizes.

The following prizes were assigned, July 16th, 1865:—

The two First Prizes.

To F. JOSEPH COOK, *of the Graduating Class.*

" ROLAND CROCKER LINCOLN, *of the Graduating Class.*

The three Second Prizes.

To CHARLES BROOKS BRIGHAM, *of the Senior Class.*

" HENRY FOSTER BUSWELL, *of the Senior Class.*

" EDWARD WALDO EMERSON, *of the Senior Class.*

V. PRIZES FOR READING.

Through the liberality of a friend of the College, prizes have been established, to be awarded to those who shall excel in the reading aloud of English prose. The prizes offered for the present year are as follows: —

To Members of the Senior and Junior Classes, at a public trial on Saturday, June 9, 1866,

One First Prize of *Forty Dollars*,
Two Second Prizes of *Thirty Dollars* each,
Two Third Prizes of *Twenty Dollars* each.

To Members of the Junior and Sophomore Classes (1866-67), at a public trial on Saturday, October 20, 1866,

One First Prize of *Thirty Dollars*,
Two Second Prizes of *Twenty Dollars* each,
Two Third Prizes of *Fifteen Dollars* each.

Provided that at each contest there is sufficient merit in the reading to warrant the giving of all the prizes. No competitor can receive a prize lower in grade than any which he has received at a previous contest.

To Members of the Freshman Class of 1866-67, at a private trial, October, 1866,

One First Prize of *Fifteen Dollars*,
Two Second Prizes of *Ten Dollars* each.

All the prizes will be given in books, unless the successful competitors satisfy the President that the prize in another form will be more useful to them.

The pieces to be read will be placed in the hands of the candidates on the morning of the day of trial. In their selection, declamatory pieces will be avoided; and such narratives, descriptions, or essays chosen as shall require varied expression and correct enunciation.

Candidates must hand in their names to the President at least one fortnight before the day of trial; and the Faculty reserve the right to select for each contest a limited number of the most promising candidates.

At a public trial, held October 8, 1864, there were awarded
A First Prize to WILLIAM FRANKLIN DAVIS, of the Sophomore Class

46 LODGING AND BOARDING HOUSES FOR UNDERGRADUATES.

*Second Prizes to EDWARD HENRY CLARK, of the Junior Class;
SAMUEL QUARLES FRENCH, of the Junior Class;*
*Third Prizes to GEORGE BATCHELOR, of the Junior Class;
HENRY FOSTER BUSWELL, of the Junior Class;
WALTER HENRY SEAVER, of the Sophomore Class.*

At a public trial, held June 17, 1865, there were awarded

*A First Prize to CHARLES WARREN CLIFFORD, of the Senior Class;
Second Prizes to JOHN WESLEY CHURCHILL, of the Senior Class;
BENJAMIN MILLS PEIRCE, of the Senior Class;*
A Third Prize to HENRY FOSTER BUSWELL, of the Junior Class.

At a private trial, held October 1, 1864, the following Members of the Freshman Class obtained Prizes :—

- THOMAS ELLINWOOD UPHAM, *a First Prize.*
 - WILLIAM COWPER SIMMONS, *a Second Prize.*
 - ALDEN BRADFORD FARNHAM, *a Second Prize.*
-

LODGING AND BOARDING HOUSES FOR UNDERGRADUATES.

EXTRACT FROM THE STATUTES OF THE UNIVERSITY.

“CHAPTER XII. § 115. No Student shall lodge or board out of the College, except at such houses as are approved by the Faculty, and with the approbation of a parent or guardian, if the Student is under age; and no houses will be so approved, except such as conform to the Regulations the Faculty may establish.”

REGULATIONS RELATIVE TO LODGING AND BOARDING HOUSES FOR UNDERGRADUATES.

At a meeting of the Faculty of Harvard College :—

Voted, That no Undergraduate shall be allowed to occupy a room in any house or building, (except a public College Hall,) in which a family approved by the Faculty of the College does not reside; or to take lodgings or board in any house, or board in any family, unless the house or family has been approved by a vote of the Faculty.

Voted, That no house shall be approved as a lodging or boarding house, unless the keeper of the house shall conform to the following regulations :—

1. That, in case of any festive entertainment, riotous noise, or other disturbance in a house so approved, or improper conduct at the table, the keeper of the house shall give immediate notice of the same, and of the persons concerned, to the President of the College.
2. That no wine or spirituous liquors be used ; and that no smoking be permitted at the table or in the dining-room.
3. That the hours of meals shall conform to the times most suitable for the exercises of Undergraduates prescribed by the College Laws ; that is, for breakfast, immediately after prayers ; and for dinner, at one o'clock, except from the Thanksgiving recess to the end of the First Term, when it shall be at two o'clock.
4. That the keepers of boarding-houses shall hand in their names to the Steward, with the price of board, a fortnight before the end of the Summer Term, the names and prices to be entered in a book, which shall be kept at the Steward's office for inspection ; and that within a fortnight from the beginning of each Term they shall send the Regent a list of their boarders.
5. That the keepers of every lodging or boarding house shall report to the Regent the name of any Student leaving the lodging or boarding house, or coming to the lodging or boarding house during the Term.

Voted, That no Student shall change his room in any of the College buildings, without giving immediate notice thereof to the REGISTRAR ; and that no Student shall change his lodging or boarding house, without giving similar notice to the REGENT, and notice also of the lodging or boarding house to which he has removed.

LAWS RELATIVE TO THE PATRON.

EXTRACT FROM THE STATUTES OF THE UNIVERSITY.

"CHAPTER XIV. § 121. Some gentleman of Cambridge, not of the Faculty, shall be appointed by the Corporation to be Patron of all Students, not of this Commonwealth, who belong to places more than one hundred miles distant from Cambridge, and whose parents or guardians desire to avail themselves of the regulations herein provided; and the Patron shall have charge of all the funds of such Students.

"§ 122. The parent or guardian of each Student shall be informed what are the necessary annual expenses included in the term-bills; and he shall also be informed by the Patron what funds for the support and use of his son or ward must be remitted to him; and the Patron is to have the whole control of the same, under the direction of the Faculty.

"§ 123. Every Student subject to the Patron Law is to be charged in his term-bill at the rate of two and a half per cent, as a compensation to the Patron for the disbursements made on his account.

"§ 124. No such Student is allowed to contract any debt without an order from the Patron, or from his parent or guardian."

JOHN B. DANA, Esq., of Cambridge, Assistant Steward, has been appointed Patron, and is confidently recommended to parents and guardians as a gentleman in whose discretion and fidelity to the trust entire confidence may be placed.

RESIDENT GRADUATES.

GRADUATES of the University, or of other collegiate institutions, desirous of pursuing their studies at Cambridge without joining any of the Professional Schools, are permitted to do so, in the capacity of Resident Graduates. They are allowed to enjoy the use of the Library and scientific collections, on the payment of *five dollars* a year, one half in advance, at the beginning of each Term.

They give to the Steward satisfactory bonds in the sum of two hundred dollars, signed by two bondsmen, one of whom must be a citizen of Massachusetts, and they are subject to the laws and regulations of the College, as far as applicable to them. They are admitted free to all the courses of public lectures delivered to the Undergraduates; and, upon the payment of a fee of five dollars for each course, to the Lectures delivered in the Scientific School.

DEGREE OF MASTER OF ARTS.

THE Degree of Master of Arts is conferred in course on every Bachelor of Arts of three years' standing, on the payment of the usual fee, who shall, in the interval, have sustained a good moral character. Graduates of longer standing may also have the Master's Degree upon the same condition. In both cases, application should be made at the Steward's office, either personally or by letter, as soon as the second day before Commencement. The fee, including the Diploma, is *five dollars*, payable in advance.

ICP "The College will not be responsible for the safe-keeping of *any* DIPLOMA, unless a request, in writing, is left at the Steward's office two days, at least, before Commencement, that it may be taken from the files, and reserved for the applicant."

TERMS OF ADMISSION AND COURSE OF STUDY.

CANDIDATES for admission to the DIVINITY SCHOOL are expected to present themselves on the first day of the Term. If unknown to the Faculty, they are to produce testimonials to their moral and serious character. Candidates not Bachelors of Arts will be examined in the following books : —

Latin Grammar, Virgil, Cicero's Select Orations, and Sallust ;
Greek Grammar, Felton's Greek Reader, the first four books of Xenophon's Anabasis, and the first book of Herodotus, or the first two books of Xenophon's Memorabilia ;

Geography, Arithmetic, Geometry, and Algebra ;
Whately's Logic and Rhetoric (or some other approved treatises on Logic and Rhetoric), Locke's Essay on the Human Understanding (Book III.), Stewart's Elements of the Philosophy of the Mind (Vol. I.), Dymond's Essays on the Principles of Morality, Jouffroy's Introduction to Ethics, and Butler's Analogy.

Candidates for admission to an advanced standing must have been engaged in the study of Theology as long as the Class into which they propose to be received, and must pass an examination in the studies which that Class has pursued.

Students are required to reside in or near Divinity Hall. They give bonds in the sum of \$ 200 to the Steward, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of term-bills, which, including charges for instruction, rent and care of room and furniture, and use of class-books, amount to \$ 75 annually. Rooms in Divinity Hall are let to other than Divinity Students at \$ 30 a Term.

Each Student must possess a copy of the Old and New Testament Scriptures in the original languages, the latter in Griesbach's or Tischendorf's edition. A copy of all other class-books is furnished on loan. Indigent Students are aided from foundations and other sources. Three years, including the Vacations, which amount to twelve weeks in each year, complete the term of residence.

The course of instruction comprises Lectures, Recitations, and other exercises, on all the subjects usually included in a system of Theological Education, embracing,—

The Hebrew Language;
The Principles of Criticism and Interpretation;
The Criticism and Interpretation of the Scriptures;
Natural Religion, and the Evidences of Revealed Religion;
Systematic Theology, Christian Ethics, and Practical Divinity;
Church History, and Church Polity;
The Composition and Delivery of Sermons, and the Office of Public Prayer;

And the Duties of the Pastoral Office.

The members of the several Classes have exercises in the practice of Extemporaneous Speaking, and the members of the Senior Class preach occasionally in Cambridge during the Summer Term.

Students are entitled to receive instruction from the Instructor in the German Language, and to attend, free of expense, all public lectures given to Undergraduates in the Academical Department.

INSTRUCTION, LIBRARY, GRADUATION, EXPENSES, PRIZES.

THE design of the LAW SCHOOL is to afford a complete course of legal education for gentlemen intended for the Bar in any of the United States, except in matters of mere local law and practice; and also a systematic course of studies in Commercial Jurisprudence for those who intend to devote themselves exclusively to mercantile pursuits.

Students may enter the School in any stage of their professional studies or mercantile pursuits. But they are advised, with a view to their own advantage and improvement, to enter at the beginning of those studies, rather than at a later period.

No examination, and no particular course of previous study, is required for admission; but the Student, if not a graduate of some college, must be at least nineteen years of age, and produce testimonials of good moral character. He also gives a bond, in the sum of \$ 200, to the Steward, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of College dues; or deposits, at his election, \$ 150 with the Steward, or \$ 100 if he does not occupy a College room, upon his entrance, and at the commencement of each subsequent Term, to be retained until the end of the Term, and then to be accounted for. No Student is matriculated until such testimonials are produced, and bond given.

The Terms of the Law School coincide with those of the Undergraduate Department; but the exercises begin on the Monday following the commencement of each Term.

The COURSE OF INSTRUCTION for the Bar embraces the various branches of the Common Law, and of Equity; Admiralty; Commercial, International, and Constitutional Law; and the Jurisprudence of the United States.

The COURSE OF INSTRUCTION for the Mercantile Profession is more limited, and embraces the principal branches only of Commercial Jurisprudence; namely, the Law of Agency, of Partnership, of Bailments, of Bills of Exchange and Promissory Notes, of Insurance, of Shipping, Navigation, and other maritime concerns, of Sales, and, if the Students desire it, of Constitutional Law.

No public instruction is given in the local or peculiar municipal jurisprudence of any particular State; but the Students are assisted by the

Professors, as occasion may require, in the private study of the law and practice peculiar to their own States.

Instruction is given by oral lectures and expositions, (and by recitations and examinations, in connection with them,) of which there are ten every week.

The Course of Studies is so arranged as to be completed in two Academical Years; and the studies for each Term are also arranged, as far as they may be, with reference to a course commencing with that Term, and extending through a period of two years; so that those who are beginning the study of the law may enter, at the commencement of either Term, upon branches suitable for them. Students may enter, also, if they so desire it, in the middle, or other part, of a Term. But it is recommended to them to enter at the beginning of an Academical Year, in preference to any other time, if it be convenient. They are at liberty to elect what studies they will pursue, according to their own view of their wants and attainments; but, as a general rule, it is advisable for them, during the First Term, to confine themselves to few branches, as subjects of regular study, giving attendance, however, upon all the lectures.

When a Student is desirous of pursuing a branch of study which does not form the subject of general instruction in that particular Term, the Professors will render him aid in its pursuit as a private study.

The Course of Study, under the different Instructors, is as follows:—

FIRST YEAR.

Commencing in the years 1866, 1868, &c.

FIRST TERM.

ROYALL PROFESSOR. *Agency, Equity Jurisprudence.*

DANE PROFESSOR. *Blackstone's Commentaries, Contracts, Evidence.*

BUSSEY PROFESSOR. *Law of Real Property, Sales, Arbitration.*

SECOND TERM.

ROYALL PROFESSOR. *Pleading, Constitutional Law, Law of Corporations.*

DANE PROFESSOR. *Kent's Commentaries, Evidence, Law of Nations.*

BUSSEY PROFESSOR. *Law of Real Property, Bankruptcy, Conflict of Laws.*

SECOND YEAR.

Commencing in the years 1865, 1867, &c.

FIRST TERM.

ROYALL PROFESSOR. *Bailments, Equity Jurisprudence.*

DANE PROFESSOR. *Blackstone's Commentaries, Shipping and Admiralty, Insurance.*

BUSSEY PROFESSOR. *Law of Real Property, Criminal Law, Domestic Relations.*

SECOND TERM.

ROYALL PROFESSOR. *Constitutional Law and Jurisprudence of the United States, Equity Pleading and Evidence.*

DANE PROFESSOR. *Kent and Blackstone, Bills and Notes, Partnership.*

BUSSEY PROFESSOR. *Law of Real Property, Domestic Relations, Wills and Administration.*

A Moot Court is held each week, at which a cause, previously assigned, is argued by four Students, and an opinion delivered by the presiding Professor.

Clubs are formed among the Students, in which dissertations upon legal subjects are read, and cases argued.

The LAW LIBRARY consists of about 13,000 volumes, and includes all the American Reports, the Statutes of the United States, those of all the States, a regular series of all the English Reports including the Year-Books, and the English Statutes, as well as the principal treatises in American and English Law; besides a large collection of Scotch, French, German, Dutch, Spanish, Italian, and other Foreign Law; and a very ample collection of the best editions of the Roman or Civil Law, together with the works of the most celebrated commentators upon that Law.

The Library is open for the use of Students during the Terms and the Winter Vacation, and those who desire it pursue their studies there, especially in the preparation of their Moot Court cases.

Students who have pursued their studies for the term of eighteen months in any Law Institution having legal authority to confer the degree of Bachelor of Laws, one year of said term having been spent in this School,—or who, having been admitted to the Bar after a year's pre-

vious study, have subsequently pursued their studies in this School for one year,—are entitled, upon the certificate and recommendation of the Law Faculty, and on payment of all dues to the College, to the degree of Bachelor of Laws.

The fees are \$50 a Term, and \$25 for half or any smaller fraction of a Term; for which sum, without any additional charge, Students have the use of the lecture-rooms, the Law and College Libraries, and the textbooks; and they are admitted free to all the courses of public lectures delivered to the Undergraduates in the *Academical Department* of the University.

Upon the payment of a fee of \$5 for each course, the Law Students may also attend the Lectures delivered in the Lawrence Scientific School, on Zoölogy and Geology, by Professor AGASSIZ; on Comparative Anatomy and Physiology, by Professor WYMAN; on Botany, by Professor GRAY. They may also study any one of the foreign languages taught in the University, on payment of a fee of \$10 per annum.

The other expenses for a Term are nearly as follows:—

Board, in boarding-houses, twenty weeks, from \$ 5.00 to	
\$ 8.00 per week,	from \$ 100 to \$ 160
Room-rent, including care of room, but not making fires, . . .	16 to 60
Furniture (if the Student does not furnish his room),	8 to 16
Washing,	7 to 15
Fuel, for the First or Winter Term, from September to January,	12 to 25
" for the Second or Summer Term, from February to July, from \$ 6 to \$ 10.	
Servant (if one is employed) to make fires, &c.,	5 to 10
	\$ 148 to \$ 288

Students may enter into economical arrangements, by which board need not exceed \$ 3.00 or \$ 5.00 a week.

Fuel, prepared for use, is furnished by the lessee of the College Wharf, at the market price, if the Students desire it.

PRIZE DISSERTATIONS.

PRIZES will hereafter be annually awarded, near the close of the second term of each Academical year, for the best and second-best Dissertations, written by Students of the Law School, on subjects given out by the Law Faculty, as follows:—

First. A prize of *sixty dollars* for the best, and of *fifty dollars* for the second-best Dissertation, by a Student who has attended the Law School at least three of the four Terms immediately preceding the award.

Second. A prize of *fifty dollars* for the best, and *forty dollars* for the second-best Dissertation, by a Student who has attended two of the three Terms next preceding the award.

The Term in which the award is made is included in the computation.

Students entitled to compete for the prizes on the first subject cannot write for the second.

No Student will write on both subjects.

The merit of the Dissertations will be adjudged by committees of Counsellors at Law, appointed by the Law Faculty.

The prizes will be awarded at the close of each Academical Year. Prizes will not be awarded unless the Dissertations offered shall be deemed to have sufficient merit.

The Dissertations must be left at the office of one of the Faculty, while the writer is a member of the Law School; and by the *first day of May* annually. Each Dissertation must have a motto, or assumed name, written upon it, and be accompanied by a sealed letter, having the same motto or name on the outside, and the true name of the writer within. Unsuccessful Dissertations will be returned to the writers when requested. A copy of the successful Dissertations must be left with one of the Faculty for preservation in the Library of the Law School. They must all be written on letter-paper of good quality, of the usual quarto size, with a suitable margin, so that, if successful, they may be bound up without injury to the writing. The sheets must be securely stitched together.

No Dissertation to exceed in length the amount of thirty pages, as large as the 16th page of the first volume of Greenleaf's Evidence, 2d edition.

Subjects for Dissertations the present Academical year:—

FOR STUDENTS THREE TERMS IN THE SCHOOL.

The Extent to which the Common Law is applied in determining what constitutes a crime, and the nature and degree of punishment consequent thereupon.

FOR STUDENTS TWO TERMS IN THE SCHOOL.

The doctrine of excluding what is offered in Evidence, on the ground of Incompetency.

The following prizes were assigned for the last year:—

For Dissertations, "By what Means and to what Extent a Common Carrier may limit his Liability."

To GODFREY SIEGEN THALER, of Stillwater, Minn., the First Prize of *sixty dollars*.

To JAMES TRUESDALE KILBRETH, of Cincinnati, O., the Second Prize of *fifty dollars*.

For Dissertations, "Of the Rights and Duties of Neutrals in respect to the armed Vessels of Belligerents."

To CHARLES COTESWORTH BEAMAN, of Cambridge, Mass., the First Prize of *fifty dollars*.

To EDWARD WINSLOW PAIGE, of Schenectady, N. Y., the Second Prize of *forty dollars*.

Committee. — HON. LUKE P. POLAND, of Vermont.

HON. JOHN P. PUTNAM, of Massachusetts.

WILLIAM BRIGHAM, Esq., of Massachusetts.

REQUISITES FOR ADMISSION.

CANDIDATES for admission must have attained the age of eighteen years, have received a good common English education, and be qualified to pursue to advantage the courses of study to which they propose to give their attention. They must furnish satisfactory evidence of good moral character, give bonds, in the sum of \$200, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of all dues to the School, and register their names with the Dean of the Faculty. They will be admitted only at the commencement of a Term, unless by special permission. The special requisites for admission to the Departments of Chemistry and Engineering are stated below; and the candidates will present themselves on September 20, 1866, or, if prepared to be examined for advanced standing, on February 15, 1866.

REQUIREMENTS OF STUDENTS.

STUDENTS of the Scientific School are required to board and lodge at licensed houses. They shall conduct themselves in a courteous and gentlemanly manner, and shall comply with all the regulations of the School and of the Department to which they belong.

A Scientific Student violating these regulations, or participating with an Undergraduate in an offence against the laws of the College, is liable to dismission from the School.

DEGREES.

THE degree of *Bachelor of Science* may be conferred upon any Student who, having attended the instructions of the School for at least one year, and completed the prescribed course of studies in one or more Departments, shall have passed a satisfactory public examination.

The Department or Departments in which the Student has been examined, and his grade of merit, will be specified in the Diploma, and each Diploma will bear the signatures of the President and Faculty.

Certificates may be granted to Students who do not graduate, stating the time they have been present in the School, the studies pursued, and the progress made.

COURSES OF INSTRUCTION.

The number and choice of studies are to a limited extent optional on the part of Students, who will, however, be counselled on these points by the Professors; but a punctual attendance on all prescribed exercises will be required. In the Department of Engineering, examinations are held each Term upon the work of that Term, and no Student will be admitted to an examination for a degree in this Department who has not passed all the Term examinations of the Department.

I. CHEMISTRY.

Professor Gibbs will receive Special Students to the course of instruction in Experimental Chemistry and research, who will give their attendance in the Laboratory from 9 o'clock, A. M., till 5 o'clock, P. M., five days in the week.

The course will include instruction in —

Theoretical and Experimental Chemistry, and Systematic Qualitative and Quantitative Analysis, in all their branches; and

The solution of problems of research in experimental science and in the applications of science to the arts and manufactures.

The more thorough the previous acquaintance of the Student with Mathematics, Mechanics, Physics, and General Chemistry, the better.

Text-Books.

Fownes's Chemistry.

Will's Outlines of Chemical Analysis.

Fresenius's Analysis.

Cooke's Chemical Physics.

Percy's Metallurgy.

Regnault's Éléments de Chimie.

Knapp's Chemical Technology.

Bolley's Chemical Technology.

II. ZOOLOGY AND GEOLOGY.

THE instruction in this Department is given at the Museum of Comparative Zoölogy (see p. 95), and consists this year of a course of Lectures by Professor AGASSIZ on Zoölogy, embracing the fundamental principles of the classification of animals, as founded upon structure and embryonic development, and illustrating their natural affinities, habits, geographical distribution, and the relations which exist between the living and extinct races; and of a course on Geology, both theoretical and practical. The course on Geology will be delivered during the First Term.

Besides the instructions of the lecture-room, Professor Agassiz will afford the Students occasional access to his laboratory, in order to show them how to observe isolated facts, how to determine living and fossil animals, and how to identify rocks of different formations.

Text-Books and Works for Reading and Reference.*

De la Beche's Geological Manual,	<i>For Local Information.</i>
Geological Observer, and Re- searches in Theoretical Geology.	Hitchcock's Geology of Massachu- sets. Also,

Dana's Geology.	Marcou's Geological Map of the World.
Cuvier's Animal Kingdom.	
Brown's Animal Kingdom.	
Agassiz's Essay on Classification.	

III. ENGINEERING.

PROFESSOR EUSTIS will receive Special Students to the course of instruction in Engineering, who will give their attendance at the School from 9 o'clock, A. M., to 5 o'clock, P. M.

The course will include instruction in—

Surveying, with the use of the instruments, and actual operations in the field.

Drawing in all its branches; topographical, outline, shaded, and tinted, including Isometric Projections.

Analytical Geometry and Differential and Integral Calculus.

The principles of Mechanics, and their application to Machinery and Engineering.

Descriptive Geometry.

The theory of shades, shadows, and perspective.

The application of Descriptive Geometry to masonry and stone-cutting, in the construction of groined and cloistered arches, domes, &c.

The nature and properties of building materials, and their application to the construction of railroads, canals, bridges, &c.

The instruction will be given by daily exercises at the blackboard and by lectures.

Candidates will be examined in Sherwin's Algebra, Legendre's Geometry, and Plane and Analytical Trigonometry, or their equivalents.

Candidates presenting themselves in February will also be examined in Church's Analytical Geometry, or its equivalent.

IV. BOTANY.

PROFESSOR GRAY will give a course of practical lessons in Systematic Botany, twice a week, from the first of May to the close of the Term, to Scientific Students properly prepared for it.

Also, a course of instruction, with a Text-Book, in the elements of Structural and Systematic Botany; two lessons a week, throughout the Second Term.

Text-Books.

Gray's Botanical Text-Book, or Gray's First Lessons in Botany.

Gray's Manual of the Botany of the Northern United States.

V. COMPARATIVE ANATOMY AND PHYSIOLOGY.

SPECIAL instruction will be given in the Anatomical Laboratory in Boylston Hall, by Professor J. WYMAN.

A course of Lectures will be delivered each Term.

Books of Reference.

Sharpey and Quain's Anatomy.	of the Invertebrated Animals,
Owen's Lectures on Comparative Anatomy.	translated by Dr. Burnet.
Huxley's Elements of Comparative Anatomy.	Dalton's Physiology.
Wagner's Comparative Anatomy of the Vertebrated Animals.	Carpenter's General and Comparative Physiology.
Siebold's Comparative Anatomy	Todd and Bowman's Physiological Anatomy.

VI. MATHEMATICS.

INSTRUCTION will be given in the *Higher Mathematics*, and especially in *Analytical and Celestial Mechanics*, by Professor PEIRCE.

Private instruction in the various branches of Mathematics will be given to those desirous of receiving it, by competent instructors residing at the University.

VII. MINERALOGY.

PROFESSOR COOKE will give, during the Second Term, a course of practical instruction in Mineralogy. The course will embrace Theoretical Crystallography, the Determination and Drawing of Crystals, the Study of the Physical Properties of Minerals, and the Determination of Mineral Species. It will consist of recitations and lectures three times a week during the Term, and of practical exercises in the Laboratory. Students taking this course will have access to the Mineralogical Cabinet of the University, which has recently been greatly enlarged and improved.

Text-Books. Dana's Mineralogy; Cooke's Chemical Physics.

LECTURES, &c.

STUDENTS of the Scientific School may attend, without charge, any of the Lectures delivered to Undergraduates by the Professors in the Academical Department. (See page 33.)

The Anatomical Museum, the Museum of Comparative Zoölogy, the Botanic Garden, and the Public Library, are accessible to the Students of the Scientific School.

Through the munificent gift of \$58,000, made by JAMES LAWRENCE, Esq., the facilities in the Departments of Engineering and Chemistry have recently been much increased.

F E E S.

In the Department of CHEMISTRY, for instruction, per Term of twenty weeks, *fifty dollars*; for Laboratory apparatus and supplies, *fifty dollars*; for one half or any less fraction of a Term, two thirds of the above sums.

The Students in Chemistry are supplied with all needed apparatus, and are required to restore it in as good condition as they receive it.

In the Department of ENGINEERING, for instruction five days in the week, *seventy-five dollars* per Term; for one half or any less fraction of a Term, two thirds of that sum.

Students in Engineering will supply themselves with drawing materials, necessary text-books, &c.

In the Department of MINERALOGY, for instruction three hours a week (see p. 79) during the Second Term, *fifteen dollars*.

In any of the other Departments, the fees for special instruction may be agreed upon with the instructor.

The Lectures delivered in the Scientific School may be attended by members of the other Professional Schools, and by persons not otherwise connected with the University, on payment of a fee of five dollars *per course*. Students in any department of the Scientific School may attend lectures in any other department of the School, on payment of a fee of five dollars *per course*, and all Academical Lectures (see preceding page) without charge. They may also study any one of the foreign modern languages taught in the University, on payment of a fee of *five dollars* per Term.

The Gymnasium is open to all members of the University. The fee for attendance and instruction is *two dollars* a Term.

For Board, Room-rent, &c., see pages 37 and 63.

For further information concerning the School, application may be made to Professor GIBBS.

A SCHOOL, having for its object the instruction of students in Practical Geology, the Art of Mining, and kindred branches, has been opened in connection with the Lawrence Scientific School of Harvard College. The full course will occupy four years, and on those who pass through it and sustain the necessary examination, an appropriate degree as Mining Engineer will be conferred.

There will be two terms in each year, and they will coincide in duration with those of the Scientific School. The first term of the present year commenced Monday, October 2, and will close February 7; the second term will commence February 15, 1866, and will end on Wednesday, July 4. The students for this year are registered among those of the Lawrence Scientific School. Candidates for admission must present themselves September 20, 1866; or, if prepared to be examined in Analytical Geometry, on February 15, 1866.

They must have received a good common English education, and cannot be retained in the School unless they show that they are mentally and physically qualified to pursue with advantage the prescribed course of study. They must furnish satisfactory evidence of good moral character, give bonds in the sum of \$200, signed by two bondsmen, one of whom must be a citizen of Massachusetts, for the payment of

all dues to the School, and register their names with the Dean of the Faculty. They are also required to conduct themselves in a courteous and gentlemanly manner, and to comply with the rules of the School.

Graduates of Colleges will be admitted without previous examination; all others must pass a satisfactory examination in Algebra, Geometry, Plane and Analytical Trigonometry. Those who have no previous acquaintance with General Chemistry will be required to make up their deficiency by attending the College course on this subject during one of the first two years of their attendance at the School.

Persons properly qualified, and able to pass the necessary examination, will be admitted to any part of the course, at the beginning of any term, but not later than the beginning of the second term of the third year. Those who may thus enter in advance will, however, be required to pay an entrance fee equal to one third of what they would have been obliged to pay to attain that standing, had they entered at the beginning of the course.

Any person, however, who is not desirous of being considered as a candidate for a degree, may attend to any special branch taught in the School or any course of lectures, at his own pleasure, on paying such proportion of the fees for instruction as may be fixed by the Professor to whose department he desires to be attached.

After the School shall have become fully organized, a course of instruction will be arranged for the benefit of those who may wish to qualify themselves for field-work in geodesy and geology, or to become teachers of those branches.

The full course of instruction will be arranged as follows:—

FIRST YEAR.

First Term. Analytical Geometry; Descriptive Geometry; Surveying and Mechanical Drawing; French; German.

Second Term. Differential and Integral Calculus; Mechanical Drawing; Crystallography; French; German.

SECOND YEAR.

First Term. Mechanics; Physics; Chemistry; French; German.

Second Term. Mechanics; Descriptive Mineralogy; Analytical Chemistry; French; German.

The course of instruction during the third and fourth year has not yet been arranged. The following objects will, however, be those to which especial attention will be given :—

Geodesy,	Metallurgy,
Geology and Physical Geography,	Mining.

In the department of Geodesy, the student will be instructed in the following branches: Topographical drawing; the use of portable astronomical instruments for determination of geographical position; Projection of Maps, and all operations connected with either the hasty reconnaissance, or the more careful surveys, of large districts.

In the department of Geology the general principles of the science will be fully taught in one course of lectures, while another will be devoted to the subject of the structure of the North American Continent, with particular reference to the geological position and mode of occurrence of our useful rocks, minerals, and ores. The subject of metalliferous veins will also receive especial attention, both as regards the economical relations of the various forms and the theories of their origin. A course of lectures in Physical Geography, with practice in the use of instruments for meteorological and hypsometrical observations, will form a part of the course of instruction in this department.

In the departments of Mining and Metallurgy, great pains will be taken to give instruction in methods and processes actually in use in this country, and the whole course will be so arranged as to give it an especial practical value to those who intend to devote themselves to the development of the mineral resources of the United States.

Collections illustrating the Economical Geology and Metallurgy of this country have already been secured, and these will be largely increased during the next two years. Due notice will be given, in the Annual Catalogue, of the arrangements made for instruction in the third and fourth years of the course, and of the establishment of new professorships in the School.

Fees. — For the first year in the course, \$ 75 a term; for each succeeding year, \$ 100 a term.

OBJECTS AND COURSE OF INSTRUCTION.

THE objects of the Observatory are to furnish accurate and systematic observations of the heavenly bodies for the advancement of Astronomical Science, to co-operate in Geodetical and Nautical Surveys, to contribute to the improvement of Tables useful in Navigation, and, in general, to promote the progress of knowledge in Astronomy and the kindred sciences. To aid in effecting these objects, provision is made for publishing the Observations and the Director's Reports, and for increasing the Library.

Practical Astronomy and the Use of Astronomical Instruments will be taught by TRUMAN H. SAFFORD, Assistant in charge of the Observatory.

INSTRUCTION AND DEGREES.

THE MEDICAL SCHOOL is established in Boston in order to secure those advantages for clinical instruction and for practical anatomy which are found only in large cities. The Medical College is near the Massachusetts General Hospital, and clinical instruction is given to the students of the Medical School, not only there, but at the City Hospital, the Marine Hospital at Chelsea, the Eye and Ear Infirmary, and the Dispensary, at which several thousand patients are annually prescribed for.

The School is under the charge of ten professors and nine assistants, and is furnished with a large and valuable museum, and conveniences for the practical study of Anatomy and Chemistry. The course of instruction is continued throughout the year, with a vacation of eight weeks in summer. The Winter Course of Lectures begins on the first Wednesday in November, and continues seventeen weeks. Three other terms in the year afford opportunities to those who would pursue their course continuously in the School. Access is afforded to Lectures in Cambridge on Optics, Acoustics, Comparative Anatomy, Zoölogy, and Botany, and other subjects connected with Medicine and Surgery. A Clinical Conference is held every week, at which students are practised in observation, diagnosis, prognosis, and treatment, under the guidance of professors and hospital physicians and surgeons.

COURSE OF INSTRUCTION FOR THE YEAR 1865-66.**LECTURE TERM, Nov. 1, 1865, TO FEB. 28, 1866.****LECTURES.**

Anatomy and Physiology, — PROFESSOR HOLMES, Monday, Tuesday, Wednesday, Thursday, and Friday, at 1 o'clock.

Surgery, — PROFESSOR BIGELOW, Monday, Tuesday, and Thursday, at 11 o'clock, at the Medical College; Saturday, at 10 o'clock, at the Massachusetts General Hospital.

Obstetrics, — PROFESSOR STORER, Monday, at 10 o'clock; Wednesday and Friday, at 12 o'clock.

Pathological Anatomy, — PROFESSOR JACKSON, Monday, at 12 o'clock; Tuesday, at 9 o'clock.

Chemistry, — PROFESSOR BACON, at the Massachusetts Medical College, Tuesday and Thursday, at 12 o'clock.

Materia Medica, — PROFESSOR CLARKE, Monday, at 9 o'clock; Tuesday and Saturday, at 8 o'clock.

Clinical Medicine, — PROFESSORS BOWDITCH and ELLIS, at the Massachusetts General Hospital, Monday and Thursday, at 8 o'clock, and Tuesday, at 4 o'clock; at the Massachusetts Medical College, Thursday, at 10 o'clock, and Saturday, at 9 o'clock.

Theory and Practice of Physic, — PROFESSORS SHATTUCK and BUCKINGHAM, Tuesday, at 10 o'clock, and Wednesday, at 3½ o'clock; Monday, at 4 o'clock, at the Massachusetts Medical College; Monday and Thursday, at 8 o'clock, at the Massachusetts General Hospital; Friday, at 10 o'clock, at the City Hospital.

RECITATIONS.

Anatomy, — DR. D. W. CHEEVER, Monday and Thursday, at 5 o'clock; Wednesday and Friday, at 5 o'clock, at the Dissecting-Room.

Clinical Chemistry, — DR. J. C. WHITE, Thursday, at 8½ o'clock, at the Massachusetts General Hospital.

Clinical Medicine, — DOCTORS S. L. ABBOT and R. M. HODGES, Tuesday, at 4 o'clock, at the Massachusetts General Hospital.

Psychological Medicine, — DR. J. E. TYLER, Thursday, at 3½ o'clock.

CLINICAL INSTRUCTION

Massachusetts General Hospital, — Monday and Thursday, at 8 o'clock; Wednesday and Saturday, at 10 o'clock. City Hospital, — Wednesday, at 9 o'clock, Ophthalmic Clinic; 10 o'clock, Surgical Visit; 11 o'clock, Operations; Friday, at 8 o'clock, Medical Visit; 9 o'clock, Medical Lecture; 10 o'clock, Surgical Clinic. Dispensary, — Wednesday and Friday, at 9 o'clock.

SPRING TERM, MONDAY, MARCH 12, TO MONDAY, JUNE 11, 1866.

RECITATIONS.

Anatomy and Physiology, — PROFESSOR HOLMES and DR. D. W. CHEEVER, Tuesday and Friday, at 4 o'clock; 5 o'clock, daily, March and April, in the Dissecting-Room.

Pathological Anatomy, — PROFESSOR ELLIS, Thursday and Saturday, at 8 o'clock.

Obstetrics, — PROFESSOR STORER and DR. H. R. STORER, Monday and Thursday, at 12 o'clock.

Surgery, — PROFESSOR BIGELOW and DR. R. M. HODGES, Tuesday and Friday, at 12 o'clock.

Theory and Practice of Physic, — DR. F. MINOT, Monday and Thursday, at 9 o'clock.

CLINICAL INSTRUCTION.

Massachusetts General Hospital, daily, at 9 o'clock. City Hospital, Wednesday and Friday, at 9 o'clock; Clinical Lecture on Surgery, by DR. D. W. Cheever, Friday, at 10 o'clock. Dispensary, Tuesday, Wednesday, and Friday, at 9 o'clock. Marine Hospital at Chelsea, Wednesday, at 9 o'clock. Eye and Ear Infirmary, Thursday, at 11 o'clock.

LECTURES AT CAMBRIDGE.

On the Mutual Relations of the Sciences, by President Hill, Tuesday, at 11 o'clock; on *Botany*, by Professor Gray, Tuesday and Thursday, at 10 o'clock; on *Natural Philosophy*, by Professor Lovering, at No. 2 University Hall, Tuesday, at 11 o'clock; at the Museum of Comparative Zoölogy, by Professor Agassiz, Wednesday, at 3 o'clock, and Saturday, at 10 o'clock; *Rumford Lectures on Heat*, by Professor Gibbs, Tuesday, at 12 o'clock.

SUMMER TERM, MONDAY, JUNE 11, TO SATURDAY, JULY 14, 1866.

RECITATIONS.

Theory and Practice, — PROFESSORS SHATTUCK and BUCKINGHAM, Monday and Thursday, at 9 o'clock, at the Massachusetts General Hospital; Tuesday and Friday, at 12 o'clock, at the Medical College.

Chemistry, — PROFESSOR BACON and DR. WHITE, Monday and Thursday, at 12 o'clock.

Materia Medica, — PROFESSOR CLARKE and DR. F. E. OLIVER, Monday and Thursday, at 4 o'clock.

Clinical Medicine, — PROFESSORS BOWDITCH and ELLIS, and DRs. ABBOT and SINCLAIR, Wednesday, at 4½ o'clock, and Saturday, at 9 o'clock.

Clinical Surgery, — DR. HODGES, Thursday, at 11 o'clock.

CLINICAL INSTRUCTION.

Massachusetts General Hospital, daily, at 9 o'clock; City Hospital, Wednesday and Friday, at 9 o'clock; Marine Hospital, Chelsea, Wednesday, at 9 o'clock; Eye and Ear Infirmary, Thursday, at 11 o'clock; Boston Dispensary, Tuesday, Wednesday, and Friday, at 9 o'clock.

Lectures at No. 2 University Hall, Cambridge, on Natural Philosophy, by Professor Lovering, Tuesday and Thursday, at 12 o'clock.

AUTUMN TERM, SEPTEMBER 13, TO NOVEMBER 4, 1866.

RECITATIONS.

Anatomy and Physiology, — Tuesday and Friday, at 4 o'clock; Monday, Tuesday, Wednesday, Thursday, and Friday, at 5 o'clock.

Theory and Practice, — Monday and Thursday, at the Massachusetts General Hospital, at 9 o'clock; Tuesday and Friday, at the Medical College, at 12 o'clock.

Chemistry, — Monday and Thursday, at 12 o'clock.

Materia Medica, — Monday and Thursday, at 4 o'clock.

Clinical Medicine, — Wednesday, at 4½ P. M., and Saturday at 9 A. M.

CLINICAL INSTRUCTION.

Massachusetts General Hospital, daily, at 9 o'clock; City Hospital, Wednesday and Friday, at 9 o'clock; Marine Hospital, Chelsea,

Wednesday, at 9 o'clock ; Eye and Ear Infirmary, Thursday, at 11 o'clock ; Boston Dispensary, Tuesday, Wednesday, and Friday, at 9 o'clock ; Prof. Wyman, Anatomy, Boylston Hall, Cambridge, Tuesday and Thursday, at 11 o'clock.

FEES.

THE fee for matriculation is \$3, which is appropriated to the increase of the Library, and is to be paid to the Dean by all wishing to attend any of the Winter Courses of Lectures.

The fee for instruction during the long Term, from the first of March to the first of November, (the months of August and September being appropriated to a vacation,) is \$100.

The fees for the Winter Courses of Lectures amount in all to \$96, which are required to be paid when the tickets are taken.

The fee for graduation is \$20, which is deposited with the Dean when application is made to him for examination.

A fee of \$5 is to be paid by the students who use the dissecting-room during the winter months. This room is open during the months of March, April, and October, and supplied with subjects for the use of Students of the Summer Course without additional expense. There is no charge for the use of the Library or for visits to the Hospital.

The introduction of a Summer Course of instruction involves no change in the amount or character of the Winter Courses of Lectures as heretofore conducted, nor in the requisites for a medical degree.

STATUTE REGULATIONS RELATIVE TO MEDICAL DEGREES.

THE FACULTY OF MEDICINE of this University shall consist of the President, and of the Professors and Lecturers authorized to give instruction to the Medical Students. This Faculty shall always have a Dean, elected by themselves, for such periods as they may think proper, and may also adopt rules for their own government, provided that the same do not in any respect contravene the laws of the University.

Students of Medicine designating to attend the Medical Lectures, or any of them, shall be matriculated in this University by entering their names with the Dean of the Faculty of Medicine, to be enrolled by him, and by signing an obligation to submit to the laws of the University, and to the direction of the Faculty of Medicine.

There shall be helden by the Faculty two meetings in each year for the purpose of examining candidates for the degree of Doctor in Medicine. These shall be helden in the Massachusetts Medical College, unless otherwise specially ordered. They may be continued by adjournment, by vote of the members present, and if only one member attend

at the time and place designated, he may adjourn the meeting from day to day till three members of the Faculty may attend the meeting. Three members of the Faculty must be present at every examination.

The first meeting for examination shall be held on the day next succeeding that on which the Winter Courses end ; the second, on the Monday next but one preceding the Commencement in July. In extraordinary cases, the Faculty may hold meetings for examination at other times.

Every candidate for the degree of Doctor in Medicine must comply with the following conditions before being admitted to examination :—

1. He shall satisfy the Faculty that he has arrived at the age of twenty-one.

2. He shall have attended two courses of Lectures delivered at the Massachusetts Medical College by each of the Professors ; except that if he have attended a course of similar lectures in any other college or university, the same may take place of one of the above courses.

3. He shall have employed three years in his professional studies under the direction of a regular practitioner of medicine.

4. If he has not received a university education, he shall satisfy the Faculty of Medicine in respect to his knowledge of the Latin language and Experimental Philosophy.

5. He shall, four weeks previous to the day on which he presents himself for examination, have given notice of his intention to the Dean of the Faculty, and at the same time shall have delivered or transmitted to the Dean a dissertation, written by himself, on some subject connected with medicine.

Every dissertation shall be submitted by the Dean to the examination of the Faculty in the mode which they shall point out.

At the meetings for examination, the Faculty shall examine all the candidates who shall present themselves, after having complied with the conditions enumerated in these statutes, upon the following branches of Medical Science ; namely, Anatomy, Physiology, Chemistry, Materia Medica, Pharmacy, Morbid Anatomy, Midwifery, Surgery, Clinical Medicine, and the Theory and Practice of Medicine. The decision in respect to each candidate shall be determined by the vote of the major part of the members of the Faculty present at the examination of the same, and this decision, if favorable to the candidate, shall be recorded by the Dean. In the decisions to be made at these meetings regard shall be had to the dissertation as well as to the examination.

At the close of the examination, the Faculty shall decide in respect to each candidate whether he shall be recommended as worthy of the degree for which he has applied. The decision of the Faculty in respect to all these candidates whom they so recommend shall be recorded by the Dean, and shall by him be certified to the President, to be laid before the Corporation and Overseers.

Those candidates who have at the spring examination received from the Corporation and Overseers the final approbation, shall be admitted to the degree of Doctor in Medicine by the President of the University at a public Commencement holden on the Wednesday next succeeding the day of the examination, on which occasion an Address shall be delivered by some one selected for this purpose by the Medical Faculty. Those who may be approved at the summer examination will receive their degrees and diplomas in Cambridge, on Commencement Day. Public invitation to attend the ceremony at the Commencement immediately following the Lectures shall be given by the Dean of the Medical Faculty to the Fellows of the Massachusetts Medical Society, to all Medical Students, and to every person who may take an interest in Medical Science.

BOYLSTON PRIZE DISSERTATIONS.

AN ANNUAL PRIZE is assigned, from the Foundation of Ward Nicholas Boylston, for the best Dissertation on a Medical Subject, proposed by a committee appointed by the President and Fellows of the University.

The prize is of the amount of *one hundred and twenty dollars*, and may be taken either in money, or in the form of a gold medal of that value.

The Dissertations must be sent to Dr. E. Reynolds, on or before the first Wednesday in April.

The Annual Meeting at which the prize is awarded is held on the first Wednesday in August.

Each Dissertation must bear some motto or distinguishing mark, and be accompanied by a sealed letter containing the name of the writer. The unsuccessful Dissertations, with the accompanying letters unopened, are returned to the writers when called for within the year.

No prizes are awarded, if no one of the Dissertations presented is thought to be of sufficient merit.

COMMITTEE for reading the Dissertations and adjudging their merit:— Edward Reynolds, M.D., *Chairman*; John Jeffries, M.D.; Solomon D. Townsend, M.D.; John B. S. Jackson, M.D.; J. Mason Warren, M.D.; D. Humphreys Storer, M.D., *Secretary*; Charles G. Putnam, M.D.; Morrill Wyman, M.D.; Henry J. Bigelow, M.D.

L I B R A R Y.

THE UNIVERSITY LIBRARY is divided into four departments, viz. Theological, Medical, Law, and College; which last, besides books in all other departments of learning, embraces also an extensive collection of works on Theology, Medicine, and Law.

The THEOLOGICAL LIBRARY is in Divinity Hall. Persons entitled to its privileges must be connected with the Divinity School. Number of books, about 16,000. They consist of valuable select works, principally in modern Theology, with some of the early Fathers.

The MEDICAL LIBRARY is in the Medical College in Boston. It is placed there for the convenience of students attending the Medical Lectures. The number of books is about 2,000.

The LAW LIBRARY is in Dane Hall. It is designed for the officers and students of the Law School. Number of books, about 13,000. It contains most of the valuable works in English and American Law, and in the Civil Law, together with a variety of others, by writers of France, Germany, and Spain.

The COLLEGE LIBRARY is in Gore Hall. It is for the common use of the whole University, in this respect differing from the other branches of the University Library; and it may be consulted, during Library hours, by all persons, whether connected with the University or not. The total number of books is about 110,000; of which 1,000 belong to the Boylston Medical Library, in immediate connection with it. In Term time, (excepting Christmas day, New-Year's day, Fast day, the Fourth of July, and the two Recesses,) the Library is open on the first five secular days of the week, from 9 A. M. till 1 P. M., and from 2 P. M. till 5 P. M., or till sunset, when that is before 5. In vacations, it is open from 9 to 1 o'clock on Mondays, Wednesdays, and Fridays.

~~Open~~ The Library is always closed on Saturdays and Sundays.

The total number of books in the Libraries of the University is, then, as follows:—
